CANAL DEBATES STILL CONTINUE

Advocates of the Panama Route SLASHED HUSBAND, Deliver Earnest Speeches in its Favor.

MR. KITTRIDGE ATTACKS NICARAGUA CANAL

He Points Out That Costa Rica Would Be Unable Constitutionally to Grant the Necessary Concessions to the United States-The House Appropriates Cash for Memorials-A Bill Introduced to Increase Pensions-Proposed Measure to Favor American Transports Is Defeated.

By Evelusive Wire from The Associated Press.

Washington, June 16 .- After a discussion extending over parts of several days, the senate today passed what is popularly known as the London dock charges bill. The opposition to the measure practically collapsed, and it was passed without division.

Consideration then was continued of the isthmian canal project, Mr. Cullom, of Illinois, and Mr. Kittredge, of South Dakota, delivering speeches in advocacy of the Panama route. The former based his argument principally on the report of the isthmian commission recommending that route, asserting that he was satisfied that a good title to the property could be obtained. Mr. Kittedge not only strongly favored the several of the mining superintendents Panama route, which, in his judgment, was much better, but also attacked the men at work at the engines and pumps Nicaragua plan as lacking in definiteness. He pointed out that Costa Rica was constitutionally unable to grant the necessary concessions to the United States and said if the Nicaragua route was selected it probably would be a long time before work could begin, even if it ever could be.

Just before adjournment a spirited discussion was precipitated over a motion by Mr. Proctor, of Vermont, to agree to a conference with the house on the army appropriation bill. Several weeks ago the senate was affronted by a message from the house refusing to submit to conference certain senate smendments to the bill. The opposition to Mr. Proctor's motion was so vigorous that finally he was forced to withdraw it for the present.

The house today transacted some miscellaneous business under suspension of the rules. It included the adoption of resolutions appropriating \$25,000 for the preparation of plans for a memorial in this city to Abraham Lincoln; \$100,000 toward the erection of a monument to the prison ship martyrs, who died as a result of cruelties to which they were subjected by the British during the Revolutionary war, and \$10,000 for the erection of a monument at Fredericksburg. Va., to the memory of General Hugh Mercer, who was killed during the Revolutionary war.

The resolution adopted today was to carry out a plan agitated many years ago. A bill was introduced to increase the pension of those who lost a limb or were totally disabled while in action. Three Republicans voted on this question with the Democrats. A bill to authorize the secretary of war in his discretion to favor American-built ships in the transportation of government supplies to the Philippines was defeated.

William McPherson, president of a sub-district in this dis trict, who was in town today, says that before the strike was inaugurated the men of this district were working but four days a week on an average. Ever since the strike has been on the men

have been working full time. He says that while it is reasonably ertain that the coal is being shipped from this district to help the anthra ite operators out, it is almost impossible to locate the shippers. However, a close watch is being kept on the mine and if it is ascertained that coal is shipped, a strike will be at once

ROOT ASSUMES RESPONSIBILITY

Explanations as to the Necessity of Pauing the Money Promised to General Gomez.

PAYMENT NO DOUBT SECURED PEACE

The Conditions in Cuba Two Years Ago Were Precarious-And No Cuban Believed That the Americans Would Ever Leave the Island-The Payment of the Sum to General Gomez Prevented Conditions Similar to Those in the Philippines.

By Exclusive Wire from The Associated Press. Washington, June 16 .- Secretary Root has assumed full responsibility for the payment of money to General Gomez by General Wood, during the American occupation of Cuba, and if congress asks for an explanation of the matter e stands prepared to furnish what he egards as the most convincing proofs that the payments were directed by the wisest statesmanship.

At the war department a high official stated the position of the department in the matter as follows:

"The conditions in Cuba two years ago were precarious. Not a Cuban be lieved that the United-States govern ment ever would withdraw from Cuba and the half-famished veterans of the Cuban army were in a dangerous mood and clamoring for their pay. General Gomez was the head and front of their army, and had served the revolutionary ause as its principal leader, without having received a cent of pay. General Wood thought and Secretary Roo thought afterward, that General Gomez was entitled to consideration, to a home, which was supplied him and in which he entertained his comrades, and to an income, which last might be set down as a small offset to the money due Gomez from the Cuban republic That the Cubans themselves regarded the matter in the same light was shown by the passage by the present Cubar ongress, among the very first of its acts, of a bill providing a liberal penion for General Gomez. It is believed that but for this assumption of the costs of Gomez living expenses, the conditions in Cuba might have parlicied those in the Philippines, and the Inited States government, after fighting Spain to secure freedom for the Cubans, might have been obliged to turn

on them the force of her armies. "The necessity being present then, in Secretary Root's view the only other oint was the legality and propriety of the payments. He soon satisfied himself that there was not the slightest doubt on that score. The military governor was obliged to assume the responsibility for his disbursements and to exercise his discretion. General Brooke did this and after him General Wood, and Secretary Root now fully approves of everything they did, in luding the payments to Gomez."

It is pointed out at the war depart ment as a curious fact that congress has been in full possession of the information that Gomez had been receiving these payments for no less than two years past. The war department that far back submitted to congress the full statement of all expenditures in Cuba and included in the list was statement of the payments to General Gomez.

The train was bound north from Montpelier Junction. It consisted of a ocomotive and twelve cars. Passing brough Middlesex, the engineeer was unning at a fair rate of speed, wher e struck a ditch washed out by a torrent of water which rushed down the ide of Camel's Hump mountain. The ecomotive leaped into the ditch, and

the freight cars piled up on top of it. The main line of the Central Verhe washout and wreck at Middlesex. According to the officials of the road it will be impossible to run any trains over the line during today. The cloudburst caused a great deal of other damage. The railroad bridge at Bolton was destroyed, and a saw-mill, together with the house adjoining, was demolished in the town of Middlesex. The wreckage was carried down the Winooski river. The saw-mill was adjoining house. He and his family escaped injury. All of Mr. Egan's live stock was killed, and, in addition to the loss of his house and saw-mill, 100,000 feet of logs were forced down the hotel was that Horn was led to the atriver by the torrent of water from the nountain.

The cloudburst seemed to strike the eak of Camel's Hump Mountain, and its waters divided, one part descending into the valley on the east and the oth- five feet eight or ten inches tall, of er into the valley on the west. In the valley on the east the torrent washed out the rails of the Montpelier and Wells river railroad at Plainsfield, fifteen mides from here. It also caused considerable damage in the town of Cabot, where it is reported that several nighway bridges were wrecked. Bridges in Waterbury are also reported to be carried away.

All of the power lines of the Consoli dated Electric company, which fur nished power to the majority of the manufacturing establishments, including the granite quarries, were prostrat ed, and none of the establishments were able to operate today. The cloudburst did practically no harm to the dwell ing houses in its path.

Considerable damage was done this city. The electric light poles being washed out, the city was left in dark ness. The river was raised almost equal to the usual spring floods.

DEMONSTRATIONS AT ROANOKE | President Roosevelt May Be Compelled to Negotiate Direct with Senor Palma.

SUGAR PROPOSITION UNSATISFACTORY

Probable Course if Beet Men Continue Obdurate-Island's Executive Protests Against Rebate Proposition-Almost Impossible to Carry Out the Scheme.

By Exclusive Wire from The Associated Press Washington, June 16 .- President Palma, of Cuba, has indicated to President Roosevelt his conviction that the rebate proposition relative to Cuban sugar would be not only very objectionable in itself, but the plan, if adopted, would be very expensive and almost impossible to carry out in respect to dis-

tribution. It was not said how the protest was communicated to President Roosevelt. man, who registered as Charles but it is assumed that Secretary Hay was the medium, having been acquainted by Senor Queseda, the Cuban minister, of President Palma's opinion on the subject.

Should it become apparent that there is no possibility of an agreement between the senate and the house on pending reciprocity propositions, the president probably will endeavor to simplify the problem by dropping the house out of the calculation and negotiating a treaty directly with President Palma. It is true such a treaty would require the approval of twothirds of the senate, but it is believed that under the changed conditions that would not be impossible of attainment. At any rate, the situation would be clarified by the omission of the house from the calculation, and as hence it is that the project is being earnestly con-

sidered. It is still the purpose of the Republican members of the committee on morrow on the question of Cuban reciprocity. Whether there shall be a caucus of Republican senators will depend on the outcome of that meeting. If the committee decides on a bill and
