### BRAKEMAN LOSES FOOT.

Distressing Accident on the O. & W. at Black Diamond Switch-Brakeman Victor Bartleson, the Victim.

Brakeman Victor Bartleson, of the Ontario and Western railroad,met with a distressing accident yesterday afternoon, whereby he lost his right foot,

just above the ankle. The train on which Bartleson was a brakeman had some cars to switch or pick-up at the Black Diamond switch in Simpson, just south of the silk mill. Bartleson was making a coupling when he slipped and fell, the car passing over the foot and sharply severing the member just above the ankle, before the unfortunate man could make an

effort to get out of harm's way. He also sustained several scalp wounds in the fall he sustained.

Assistance came to Bartleson almost came to aid him was Maurice Church, accountant at the Klots silk mills. He had with him an emergency outfit from the infirmary at the mill. He herdically set to work and bandaged with skill the crushed and bleeding leg. This act of Mr. Church was a big factor in Bartleson's condition before the arrival of Dr. Harper, who had been sum-

Bartleson was taken in the Delaware and Hudson ambulance to Emergency hospital, where it was found necessary to amputate a small portion of the leg a few inches above the ankle. The injured man was resting comfortably last night, and, if nothing unforesecr occurs he will recover.

Bartleson's home is at Lestershire, N. Y., which is a suburb of Binghamton, where his mother lives. Bartleson has been boarding at Mayfield yard. He is 22 years of age.

### THE SEWER ORDINANCE.

#### Measure Hustled for Miners' Benefit Passes Finally.

The Hobbs ordinance providing for number of surface sewers throughout the city, as detailed in yesterday's Tribune, was passed finally last night at an adjourned meeting of select council. This is the measure which was handled with expedition in order to give means of employment to the large num-

ber of idle miners in Carbondale. All of the members were present with the exception of Mr. Humphrey. Pursuant to a motion made in answer to a suggestion of Mr. Humphrey at Monday night's meeting, City Engineer Kupp presented an estimate of the expense of the proposed improvements The schedule showed the engineer's estimate to be \$1,700. These estimates are usually higher than the contractor's

When the ordinance was ordered up to its final reading, Dr. Fletcher, who was absent Monday night, when the ordinance passed two readings, asked the members to excuse him from voting. This was allowed by a vote of the council. The other members were all recorded in favor of the measure. The ordinance will now go to Mayor O'Neill for his signature, to be followed

by advertisements for bids. The only matter, besides this that council disposed of was a resolution directing the city engineer to lay a

### SECRETLY AND QUIETLY.

Coffee Slowly and Steadily Poisons Some Persons.

There is no doubt that coffee secretly and quietly causes an immense amount of misery to the human race, but in the majority of cases the person does not suspect the cause of the trouble.

A Virginia lady had an interesting experiment with coffee poison. She says, "For about five years I was troubled with indigestion, weak stomach and palpitation of the heart so bad that at times I would fall and have to be carried into the house. Finally I began to have spasms and suffered untold misery. I tried all kinds of patent medicines and different doctors, only to get temporary relief.

I finally gave up all hope of getting well. My stomach was in such condition that everything but stale bread would throw me into spasms. I nearly starved myself but never suspected that coffee was the cause of all the trouble nor did I have any idea what the cause was.

"One day Father told me he had been reading how Postum Food Coffee helped so many people who were sick frem coffee drinking and he urged me tolicave off coffee and try Postum. I said, 'Oh Father, I cannot try it and do not believe it would do me any good, but he persuaded me to try a package. The first making tasted so flat that it made me half sick, but I determined to give it a fair trial, so I read the directions carefully and found that it must be boiled at least fifteen minutes, Well I boiled it 25 minutes, then added some goood cream and I tell you it was delicious. I like it better than the diffary coffee, and, of course, stick to it.

Well I have been using it since the 15th of July now, quite two months. I have gained about 25 pounds. I gained six pounds in 13 weeks, and can eat anything I want and all that I want. My stomach never hurts me. I have gained strength until now I can do my on work and go to church every Sun-

### AMONG BASE BALLISTS.

Shop Hands Out with Challenge. Other Interesting News for the

The employes of the Main street shop of the Delaware and Hudson are under the impression that they have as good a club as any of the other shops in the city; at least they are willing to try conclusions with any of the others. Accordingly, they challenge the Carbondale Machine company, Hendricks, Bobbin works and the office boys to a immediately. First among those who game on Sandy's field on Saturday afternoon next, commencing at 4 o'clock. An early answer is hoped for.

The Belmont Crackerjacks, who have won a few or more games, yes, all they have played this season, will play the Juveniles, on Sandy's field, on Thursday afternon at 3 o'clock. The Crackertacks will also play the Uniondale Stars on the Uniondale grounds, some day next week. Another einch, these Susquehanna county lads, so say the Crackerjacks.

The feat of the Curbstone Striplings piling up 22 runs in one inning in the game with the Swiftwinds is the chief topic of conversation among the cranks of the town.

The aggregation which did this trick is made up as follows; Edward Will-iam Golden, c.; John William Peel, p.; Michael William McGarry, s.s.; Rod-erick W. Gillis, b.; John W. Loftus, 2b.; Clarence W. McHale, 3b.; James W. Hadgins, I. f.; Francis W. Burke, c. f.; Bert W. Collins, r. f.; Arthur W.

Thomas, another catcher. The Striplings are viciously contemplating issuing a defl to the team they play once in awhile over in Honesdale. "Just our size," say the Striplings. The Carbondale Metal Workers seem

to have forgotten that they owe a game to the Van Bergen team. The latter were victorious in the first contest; now the latter wants to redeem itself, but no heed has been given to the request for a return game, which has already appeared three times. Awaken, ye men of the swamp!

The Crescents and the Carbondales. plain Carbondale, will battle again in a few days. This time it will be the real thing, for certain, as a purse of \$50 is the incentive, and the Crescents will not be shy three of its regular players, as in the last game.

It has been suggested and well, too, that in the interest of the sport in Carbondale that these two teams be consolidated, thus giving the town one superior team that will be able to whip any club that dare show itself in Carbondale or within a radius of fifty miles. Two teams, with jarred feelings on either or both sides, will not prosper in Carbondale. The sooner this is appreciated, the better for the sport which now has the strongest hold that it has had in years.

### ON A DOG CHASE.

### basin at the corner of Forty-second and Experience of Constable Neary to Recover Valuable Bull Terrier.

Dear Joke for Two Scrantonians. Constable Edward Neary has been d on many a dog chase, both figurative and real; but the most interesting of his career was the one of Monday last, when he rambled around the horizon to locate a valuable bull terrier stolen from Carbondale, the chase ending at Brown Hollow, where the terrier was recovered and the two sports from down Scranton way were made to pay dearly for their joke.

Garfield Williams, assistant manager of Hotel American, is the envied owner of one of the finest bull terriers in this section. It is a sagacious animal and is the admiration of every one who has had the opportunity to observe its interesting ways and physical make-up, even though he be not versed in dogology. While admiration for the dog runs so high among those who are shy of the knowledge of the fine points of a bull terrier and who could never qualify as judges at a dog show, this admiration is not a circumstance to the enthusiasm of dog fanciers, after they have observed Mr. Williams' terrier. The truth is, Mr. Williams could have disposed of his prized terrier long ago, at a tempting price, if he cared to; but if the dog is worth so much to another. animal's friendship for his master.

Mr. Williams figures, it is worth a good deal more to him, not considering the To return to the story of Monday. They succeeded in secreting the dog in their buggy, and started away with their This was the cue for the en-Drize. trance into the serio-comic piece of

Constable Edward Neary, who acted the heavy part. The pair of dog smugglers drove down the valley? At Jermyn they made a detour and were over in Brown Hollow before the constable, who reached Archbald, was aware of the flank movement. He made for Brown Hollow on as lively a run as he ever made, and overtook the sports. They denied having the dog, but when the constable, fertile in expedients, shouted: "Come, Marty! Come Marty!" there was a noisy response from under the carriage seat. In an instant, a big brown and white head poked its way out, its wriggling body followed, and in another instant "Marty" was fairly running up and down the constable

"Pretty dear joke, gentlemen," said the earnest constable, as he took out his pencil and figured the cost of the trip carriage hire, mileage, warrants,
