TORTURING DISFIGURING HUMOURS

ITCHING BURNING AND SCALY ERUPTIONS OF THE SKIN SCALP AND BLOOD WITH LOSS OF HAIR CURED BY CUTICURA.

The agonizing itching and burning of the skin, as in Eczema; the frightful scaling as in psoriasis; the loss of hair and crusting of the scalp, as in scalled head; the facial disfigurement, as in pimples and ringworm; the awful suffering of infants, and the anxiety of worn-out parents, as in milk crust, tetter, and salt rheum,—all demand a remedy of almost superhuman virtues to successfully cope with them. That CUTICURA remedies are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety, and great economy have made them the standard skin cures and humour remedies of the civilized world.

COMPLETE TREATMENT \$1.00.

The treatment is simple, direct, agreeable, and economical, and is adapted to the youngest infant as well as adults of every age. Bathe the affected o the youngest infant as well as adults of every age. Bathe the affected parts with hot water and CUTICURA SOAP, to cleanse the surface of crusts and scales, and soften the thickened cutiele. Dry, without hard rubbing, and apply CUTICURA OINTMENT freely, to allay itching, irritation, and inflanmation, and soothe and heal, and lastly take the CUTICURA RESOLVENT PILLS, to cool and cleanse the blood. This sweet, wholesome treatment affords instant relief, permits rest and sleep in the severest forms of eczema and other itching, burning, and scaly humours of the skin, scalp, and blood, and points to a speedy, permanent, and economical cure when all else fails.

Millions of Women Use Cuticura Soap Assisted by CUTICURA CINTMENT, for preserving, purifying, and beautifying the skin, for cleaning the scale of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, for baby rashes, itchings, and chaffings, in the form of baths for annoying irritations and inflammations, or too free

and chaings, in the form of bains for annoying irritations and inflammations, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sanative, antiseptic purposes which readily suggest themselves to women, especially mothers, and for all the purposes of the toilot, bath, and nursery.

CUTICURA RESOLVENT PILLS (Chocolate Coated) are a new, thateless, odorless, economical substitute for the celebrated liquid CUTICURA RESOLVENT, as well as for all other blood purifiers and humour curses. Each pill is equivalent to one teaspoonful of liquid RESOLVENT. Put up in screwcapped pocket vials, containing 90 doses, price 25c.

CUTICURA REMEDIES are sold throughout the world. SOAP, 25c., OINTMENT, 50c., PILLS, 25c. British Depots 27-28. Charterhouse Sq., London. French Depots A Rue de la Paix. Pares. POTTER DRUG AND CHEM. Conp., Scie Props., Boston, U.S. A. "All about the Skin, Scalp, and Hair," for

WILL PORTO RICO PROVE A PAYING INVESTMENT

THE RICH RESOURCES AND IN-DUSTRIAL POSSIBILITIES OF THE ISLAND - THE FIELD AWAITING AMERICAN CAPI-

Porto Rico, the loveliest island washed by ocean waves, lies between the Atantic and the Caribbean, 1,330 miles from New York city. It is, in round numbers, about one hundred miles long rom east to west, and about thirty-six miles broad from north to south, havng an area of 3,668 square miles, inluding the adjacent and dependent slands, Vicques, Culebra and Mona, and a score of two of smaller keys. An dea of its size can, perhaps, be gained by some familiar comparisons. Porto Rico is approximately three times as arge as Rhode Island, one and eightenths as large as Delaware, threefourths the size of Connecticut, and nearly one-seventy-eighth the size of Cexas, being almost exactly equal in area to four counties of the regular limensions in that gigantic state. It s the smallest of the Greater Antilles, and lies farthest to the cast and south t has a sea line of about 360 miles. Its hape is nearly a perfect parallelogram, having the southeast corner gently

The industrial possibilities of the island, considering the fertility of its soil, the mildness of its climate, the bundance of its rain, its insular position and its teeming population, can scarcely be viewed with anticipations oo optimistic. While at present, as it has been since Columbus first set foot upon its shores, its chief reliance is griculture and stock-raising, there is no reason why manufactures should not flourish here, and an ocean commerce spring up, not only with the North American continent, but with all the

POSSIBLE MANUFACTURES.

It is perfectly feasible that, while developing the immense agricultural resources of the island, at every seaport factories might be established and nothing leave the island but finished products.

Porto Rico can sell to the world, not only coffee ready for the consumer's use, but refined sugar and molasses, rum, cigars equal to those purchased in Havana, cotton goods of all descriptions, fine leather, shoes and harness, chocolate and all its products, canned fruits equal or superior to the best preserved in California, and many othor necessaries and luxuries which will bring in returns sufficient not only to support in comfort the million of people now there, but five times as many. It is with the present, however, more than the future, that we have to deal this connection. The industrial time largely agricultural. Of the superficial area of 2,347,520 acres, a little less than half a million acres are now producing crops. After setting aside there remains fifty-one per cent. in classified uses and woodland, and sixteen per cent, in towns, roads, streams and swamps. A great portion of this is in forests, which cover the hilltops and dot the slopes in every district. One is never out of sight of leafy groves and wooded mountains.

WEALTH IN NATIVE CROPS. The three principal crops are coffee. sugar and tobacco; cattle also and and rum, the incidental products of the other live stock are raised successful- sugar cane, though they themselves are ly, and in considerable numbers. The sufficient to pay all expenses of the coffee plantations cover with their sugar planters and leave the returns green foliage, their jasmine-like flow- from his sugar as clear gain. The soers and cherry-like berries, seven per called minor crops, which embrace cent, of the whole island and thirty- corn, rice, beans, potatoes and the like, six per cent. of its cultivated lands. It are raised solely for home consumption. is perfectly obvious, however, that four A large amount of rice, which forms times as much land as at present could the principal food of the poorer people, be used in growing coffee were the is imported every year. It is unnecesmarket to be found for its exportation. sary to import a pound of rice, the The hurricane of August, 1899, destroy- island being capable of producing more ed many of the coffee trees, and, of than enough for the use of all its milcourse, diminished the crop, and as it lion of people. required time after the injuries sustained for the trees to renew their been given to the culture of fruits, bearing, only during the present year can this industry be restored to its plantains, mangees, aguacates, guavas, former condition. However, during grapes, lemons, zapotes, mamayes, nistwenty months of American military peros, cocoanuts and other tropical occupation there was exported \$7,420,- fruits grow wild in the greatest pro-Batteries-Taylor and Bowerman; Willis 000 worth of coffee, and during the first fusion. Proper culture would improve ten months of civil administration the the quality and enlarge the yield, and Although the sugar planting is confined to the seacoast plains or playas tinental cities could be stocked with and to the alluvial bottoms along the margins of the larger streams, yet there is no doubt that a large acreage of such lands, which are now devoted

Reliable statistics show that the yield of sugar per acre is greater than in any other cancegrowing country in the world, except Hawaii and Java, and it approximates those. However, the cost of production is \$10 per ton cheaper It is important Batteries—Veil and Lang; Wicker and Nichols. Umpire—Amies. than in Java, \$11 cheaper than in Texas. With these advantages of cheaper production at less cost the sugar planters of Porto Rico ought to be able to compete with the rest of the world in any open market.

could be devoted to the culture of su-

It is a matter of encouragement that the recent opening of the markets of the United States to the people of Porto Rico, has stimulated this industry in particular, and, already several "centrais" are in process of erection, involving an expenditure of several millions of American capital, already assured to the Island.

Although the 13,704 acres covered by he tobacco plantations of Porto Rico may seem insignificant, yet, when we see that the crop of 1897, after having been partially converted into cigars and igarettes, was exported and sold for \$1.194.000, it cannot be regarded as un-important. From various causes this export of tobacco, cigars and cigarettes was reduced during the time of the American military occupation. During the first ten months of the present administration, 1,111 tons of tobacco, valued at \$403,000, have been exported.

MOTHER GRAY'S SWEET POWDERS

Kidney Disease Kills.

Its Victims Numbered by the Hundreds of Thousands.

Kidney diseases should be attended to at once, for almost 90 per cent, of our unexpected deaths of to-day are from that cause. Dr. David Kennedy's Favorite Remedy is the only sure cure known for diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepsia and chronic constipation. It is marvelous how it stops that pain in the back, relieves the necessity of urinating so often at night, drives away that scalding pain in passing water, corrects the bad effects of whiskey and beer and shows its beneficial effects on the system in an incredibly short time.

George L. Smith, foreman of the Holley Manufacturing Company's Works, Lockport, N. Y., says in a recent letter: "I have used Dr. David Kennedy's

Favorite Remedy with the most bene-ficial results. I was troubled with gravel and kidney complaint very severely, it bothered me a great deal, and have found great relief from its use, and cheerfully recommend it."

"Favorite Remedy" is the most suc-cessful medicine ever discovered for kidney, bladder, liver and blood diseases. Its record of cures has made it famous in medical circles everywhere. It is recog-nized as a specific. It purifies the blood and dissolves the excess of uric acid in it, clears up the urine, restores the kidneys and bladder to their normal condition, and gently moves the bowels.

New 50 Cent Size and the regular \$1.00 size bottles—less than a cent a dose. Sample bottle-enough for trial, free by mail. Dr. David Kennedy Corporation, Rondout, N. Y.

of live stock has been a favorite pursuit in the island. It is still of great importance, as all animals increase, thrive and fatten on the luxuriant passtreams in every section. The pasture lands of Porto Rico are superior to that purpose. The annual exportation of hides amounts to over \$70,000. For the first ten months of civil administra-

One source of great potential wealth n the production of fruits and vegetable fibres. Doubtless, the maguey, which is indigenous to the island, could be ultivated with considerable profit. Its products are the pita, or sisal, hemp, which is manufactured into linen, ropes, nets and hammocks; also pulque, intoxicating liquor much used in Mex-

During the Spanish domination the possibilities of Porto Rico are at this exportation of beeswax amounted to considerable proportions, This would indicate that bee culture could be made a very profitable industry here. With the Italian bees and American hives. this twenty per cent. of cultivated land, added to the accessories of the business in use on the continent, the flowers of pasture land, thirteen per cent, in un- the coffee plant and the refuse of the sugar mills could be laid under contribution, and combined with the sweetness of the myriads of natural flowers which deck the landscape, from the peak of Yunque to Cape San Fransisco. tons of the most delicious honey would be produced and yield a golden reward is grown under good cultivation, a crop to the industry of the bee and the skill of 3,500 apples per acre should be realof the bee farmer.

Very little attention has heretofore though excellent oranges, bananas, exports have reached \$1,337,442 worth. with cold-storage transportation, the markets of New York and all the conthem the year round. A ten-acre orange grove, when once in bearing, gives a comfortable income, sufficient to support a family in the best country style of Virgina or Ohio. Oranges and grape fruit, set at seventy trees per acre, will yield an average of five or six boxes per year for each tree, after reaching maturity. Crops of ten and twelve boxes per tree are frequently reported, and there are well-authenticatd cases of trees in Porto Rico which have yielded over twenty boxes of fine,

\$47 cheaper than in Louisiana and from the island to the states, as com- United States must in the end prevail.

produce the first crop in from one to two years, say an average of eighteen months from date of setting. If the large Porto Rican white, or Cabazona, sufficient to plant four or five acres, the value of which is equal to the fruit crop.

According to the latest statistics, there are 39,021 farms in this island, of in average size of forty-five acres. More than three-fourths of the superficial area is included within the farms. and nearly twenty per cent, of the entire area of the island under actual tillage. Of all the farms, fully ninetythree per cent, are tilled by their owners, and of these seventy-one per cent. are white and twenty-two per cent. are olored. Seven per cent. are renters. GROWTH OF AMERICAN TRADE

Every year of American occupation thus far, has shown a decrease in the amount of goods imported into Porto Rico from foreign countries, and an inrease, by a very large percentage, of goods from the United States. This is as it should be, but there is chance for a still greater increase. For while goods from all foreign countries still pay the full rate of the Dingley tariff, all goods from the United States come in free. Germany heads the list in aggressive activity, and it behooves the American saleman to wake up and take possession of a valuable market, already his by so great commercial advantages. It is natural that the terms of commercial association and business relations in the way of credit from long acqutaintance and business dealings with the Continent, must not be expected to be broken off too quickly. Many insular business houses have a resident partner in Spain or in France

LEGAL.

CLERK'S NOTICE IN BANKRUPTCY—
In the District Court of the United States for the Middle district of Pennsylvania, John F. Armbrust, Scranton, of Lacks wanna county, Pennsylvania, a bankrupt under the act of congress of July I. 1898, having applied for a full discharge from all debts provable against his estate under said act, notice is hereby given to all known creditors and other persons in interest, to appear before the said court at Scranton, in said district, on the 30th day of June 1902, at 10 o'clock in the forenoon, to show cause, if any they have, why the prayer of the said petitioner should not be granted.

EDWARD R. W. SEARLE, Clerk.

said petitioner should not be granted.

EDWARD R. W. SEARLE. Clerk.

TRUSTEE'S SALE—The undersined,
Trustee under a Deed of Trust made by William Mayer and Frederica Mayer, his wife, dated October 21, 1878, and recorded in the office for the recording of deeds in and for Lackawanna county. In deed book No. 1, page 126, etc. will offer at public sale, vendue or outery, on Friday, June 27th, at 10 o'clock a. m., at the Sheriff's office in the Court House. In the City of Scranton, all the following described lot or piece of land, situate in the City of Scranton. County of Lackawanna and State of Pennsylvania, bounded and described as follows, to wit:

Being lot No. two (2) in square or block No. forty-eight (48) upon street called and known as Jefferson avenue and Linden street, upon the plot of the City of Scranton, intended to be recorded, said lot heing forty (49) feet in front on Jefferson avenue and one hundred and fifty (150) in depth, the measurement of depth to commence ten feet inside of the sidewalk on above avenue and street; with the right to inclose, use and occupy ten feet in front of said lot on said avenue and street for cellarway, porch, portico, bay-window and shrubbery, but—not the right to erect any building thereon.

Excenting and reserving the coal and minerals as the same are excepted and reserved in the deed from The Susquehanna and Wyoming Valley Raliroad and Coal Company for said lot, dated October 28th, 1878, and recorded in Luzerne county, in deed book 128, page 272. Said lot is improved with a two-story brick dwelling house on Jefferson avenue and a double two-story frame dwelling house on Linden street.

Terms of Sale—Twenty-five per cent. at the time of sale, and the balance to be paid within one year, deferred payment to be secured by bond and mortgage on the

the time of sale, and the balance to be paid within one year, deferred payment to be secured by bond and mortgage on the premises. WELLES & TORREY. Trustee.
