ARE ELECTING DELEGATES.

Total Abstainers Who Will Elect District Officers.

The total abstinence societies hereabouts are electing delegates to the district convention which will take place in Archbold on Sunday afternoon, July 6.

More than ordinary interest and importance attach to the choice of the delegates, as these delegates will cast the votes that will elect the officers for the coming year.

The delegates elected thus far are: J. P. Campbell, Edward Dockerty, Matthew Connor, M. R. Campbell and Michael Horan, Knights of Father Matthew, and John Devaney, Timothy J. Gilhoel, James Connors, Joseph Mannion, Daniel Kelly.

A NIGHT IN THE COUNTRY.

Successful Dance at Dundaff by Bon Ton Club.

The most enjoyable dance in the country this summer was conducted on Tuesday night in Decker's hall at Dundaff.

It was conducted under the patronage of the Bon Ton Reading Club, of Carbondale, and attracted a throng of young people from this city.

The pleasures of the affair, the drive into the country, the dance and the social commingling, were so attractive that

GO WAY BACK.

People must be well fed in this world if they are expected to do good work. A carpenter with poor tools must take less wages and handle the poor jobs.

So in life, the person with a weak, badly nourished body must get out of the way for the strong ones.

A school teacher writes from Vermont, She had been compelled to take a little backwoods school for small wages because she had not the strength to conduct a better school.

"Small appetite and poor digestion kept me weak. I had been compelled to rest at the noon hour and shut myself away from all company morning and night. This was only what I could do up to about a year ago, when a lady visiting here from California led me to share a dish of Grape-Nuts with her.

"During the winter I ate occasionally of the food, always with good results. Last July it was necessary for me to attend the summer school for teachers. Being poor in purse and sick in body I could not pay the expense of boarding in a big place, so I rented a room and boarded myself. Grape-Nuts and cream tasted good and I lived almost exclusively on the food.

"Gradually, to my surprise, toward the close of the second week the sort of mental haze that had been about me for a long time broke away and I grasped the thought presented with a clearness I had not known for a long time.

"I came back to my school with better health and memory than I have known for twenty years, and now, while I repeat I have better nerve and brain power and better digestion than I have had before in twenty years."

There is a reason for this. Grape-Nuts Food is a sure, steady brain builder. It is made for that purpose and anyone can prove it by use. Names given by Postum Co., Battle Creek, Mich.

A booklet of excellent recipes in each package of Grape-Nuts.

CLASS EXERCISES.

Interesting Night for Members of Class of '02 Carbondale High School.

Perhaps the most interesting of the exercises in which they will participate were the class day doings of the class of '02 of the Carbondale high school in the splendidly decorated auditorium of the Central school building last evening.

While of particular interest to the class members the programme had much to hold the interest and to entertain the august audience that thronged the auditorium.

The regrettable feature of the evening was the disappointment shared in by so many who were unable to gain admittance, some of whom were members of families wherein there were graduates.

There was much criticism of the arrangements for accommodating the throng that unsuccessfully sought admission. Six or seven times the number of persons who could be accommodated had been invited and twice the seating capacity of the hall was on hand.

The meritorious programme which reflected so brightly on the participants was as follows:

former Governor of Tennessee, said of Osteopathy: "When a century later historians are sifting the events of this time for the epoch-making discoveries of science and civilization there will be few chapters more important, I think, than that devoted to the reformation in medicine which has come about through the acceptance and practice of Dr. Still's system known as Osteopathy."
