"KOMMERS" OF THE SCRANTON SAENGERRUNDE.

Held in Celebration of Their Victory at the Recent Eisteddfod-The Maennerchor and Liederkranz Societies Were Their Guests-Programme That Will Be Observed at the Commencement Exercises of St. John's School on Friday Evening-Short News Notes.

The carnival of song, given by the Scranton Saengerrunde last night to celebrate their victory at the recent elsteddfod, was a very pleasant event. Saengerrunde, the Maennerchor the Liederkranz were present

PROF. THEODORE HEMBERGER.

Professor Theodore Hemberger, who led the Saengerrunde to victory, sat on the left hand of the "Kommers" presi-dent, and at the conclusion of his speech, was enthusiastically cheered. At the same table were the committee of arrangements, Jacob Hess, Joseph I. Albrecht, Eugene Malchor, John Schroedel, John Mais and Professor Gustav Schmidt, leader of the Junger Maennerchor. Arthur Schmidt, of the Liederkranz, acted as toastmaster and "Kommers" president, and his shafts of wit and humorous allusions kept the guests in a state of continual merri-

At the close of Prof. Hemberger's address, the massive prize bowl was filled with May wine, made expressly for the occasion by Fred Miller, and passed among the guests. "Begruessung," a rousing German welcome song, was sung by the entire gathering, and the Liederkranz, after a salamander, sang

their prize song. It was a jolly social affair, attended by jovial, merry singers, and there was an abundance of refreshments, both liquid and solid, served at all the tables. The affair lasted until after midnight, and what with the merry singing and story-telling, the happy hours passed

Aldermanic Doings.

Martin Marezty, of Green place, was arrested yesterday at the instance of Max Otistipp, of Lloyd street, for an assault and battery. The case was tried before Alderman Lentes, who decided that the evidence was insufficlent and discharged the defendant.

Fetorsdyno Szolsonsik, of Broadway swore to information again John Chimczik, of Old Forge, for defrauding a board bill and also for larceny. The defendant, it was shown, left on June 18, taking along a silver watch belongg to another boarder, but leaving be hind a board bill to the amount of \$26. After hearing the evidence, Alderman

His Last Hope Realized.

(From the Sentinel, Gebo, Mont.) In the first opening of Oklahoma to settlers in 1889, the editor of this paper was among the many seekers after fortune who made the big race one fine day in April. During his traveling about and afterwards his camping upon his claim, he encountered much bad water, which, together with the severe heat, gave him a very severe diar-rhoea which it seemed almost impos-sible to check, and along in June the case became so bad he expected to die. One day one of his neighbors brought him one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a last hope. A big dose was given him while he was rolling about on the ground in great agony, and in a few minutes the dose was repeated. The good effect of the medicine was soon noticed and within an hour the patient was taking his first sound sleep for a fortnight. That one little bottle worked a complete cure, and he cannot help but feel grateful. The season for bowel disorders being at hand suggests this tiem. For sale by all druggists.

entes held Chimczik for court in \$500

George F. Miller, who boards at 824 Lackawanna avenue, was arraigned before Alderman Lentes last evening on a charge of assault and battery, preferred by D. J. La Bar, a fellow-boarder. The evidence did not justify nolding Miller, and he was discharged.

OUR FOREIGN TRADE.

The American Steel and Wire company exported about 7,500 tons of wire and wire nails during the month of May. The Harrisburg Foundry and Machine company is now executing a large order

for engines destined for Japan. A 25-ton refrigerating plant has been sold by the York Manufacturing company of York, to parties in London, England. The American Pulley company has se-cured large contracts for shipment of its specialties to Mexican and Australasian

The Morris & Tasker company is about to make a shipment of 1,000 iron trolley poles which are to be used on an electric railroad in Tokio, Japan.

The Crane company has made ships of ten carloads of pipe, etc., to East London, which will eventually be used in the mining district of Johannesburg.

Trucks manufactured by the J. G. Brill company will be used on the electric trac-tion system about to be constructed with American equipment in Adelaide, Australia, at a cost of \$3,500,000. A large order for rock drilling machin-

ery has been secured by the Ingersoll Sargent Rock Drill company, of Easton, from the Standard Construction corporation, Limited, of London, England, for use in Norway. Many thousands of cattle will be needed to re-stock the Boer farms. The bulk

of this business will come to us. In fact, it has already begun, our first shipment of 690 head of Texas cattle having just left Pensacola, Fla., for South Africa. The American Steel and Wire company has shipped within the past two weeks via Eastern segboard ports, about 7,000 tons of wire and wire nalls to various foreign countries, including Australia, South Africa, Europe, China and Japan.

The Austrian minister of finance has awarded to the Smith Premier Typewriter company, of Syracuse, N. Y., an exclusive contract for the supply of typewriting machines to the finance ministry and its subordinate branches throughout the en-

tire empire. The Elliott Hatch Book Typewriting company, of Harrisburg, has received substantial orders for book typewriting machines for German state railroad offices; also for the United States military authorities in the Philippines, and for the Mexican government.

The ability of American shoe manufacturers to place their wares in the continental markets is past the experimental stage, and nearly every European capital and many of the smaller cities now have one or more shoe stores stocked with a large per cent. of United States goods. Short as the time has been since the declaration of peace in South Atrica, orders have been given to American architects for the designing of extensive breweries for the Durban Breweries and Distilleries company, limited, of Durban, Na-tal. Everything outside the bricks and mortar is to be shipped from this country. The machinery will be operated by electricity. One of the breweries will cost over \$250,000, and the plants are expected to be in operation within nine months. The exports from San Francisco of hardware and machinery have been large

hardware and machinery have been large of late, and are steadily increasing. Mexico and Central America especially are taking large quantities of general hardware, as also are the Hawaiian Islands. A great deal of pipe and machinery is also being sent to the islands, the former principally for irrigating purposes. Considerable machinery has of late gone to China and Japan and especially to Australia. A good many gasoline engines have been shipped to Australia and New Zealand, and this department of the manufacturing business here is at present very prosperous. The engines shipped are generally not very large and cost a few hundred to perhaps \$2,000.—Iron Age. Chicago Grain Market.

Chicago, June 24.—Markets on the board of trade were hadly mixed today. Whereas yesterday everything had an upward trend, today each pit was at variance with the others. Manipulation seemed to be the blame for the irregularity of action and the nervousness of traders. Every pit had quick turns, now strong, now weak. The gossip that one elevator had July wheat in control, that the Gates crowd had July corn cornered, that July oats were being strongly advanced by

THE MARKETS

Wall Street Review.

Wall Strest Review.

New York, June 24.—The official announcement of the serious illness of the king of England and the sudden decision to postpone the coronation indefinitely was an inevitable shock to the securities markets of the world. The New York stock market, however, met the shock with great equanimity and the vigorous supporting orders placed in the market by the speculative powers which have constituted themselves the guardians of the market soon checked the downward swing of prices with which the trading began. London was quite an active seller at the higher level maintained here, but this selling was well absorbed and pretty general recoveries effected within the first hour of trading. Considerable liquidation in Amalgamated Copper and Colorado Fuel had an offsetting effect on the whole list. Apprehensions of an unfavorable turn in the copper trade helped the weakness of Amalgamated and the internal dissensions over dividend policy aggravated the weakness of Colorado Fuel. These stocks rallied smartly and were not much affected by the final weakness of the market. Renewed apprehension of the outcome of King Edward's illness, accompanied the reaction, following the favorable reports of the operation which helped to rally the market. The weekly crop bulletin and the backward conditions of the corn crop indicated was a depressing factor in the late dealings. The strength of Reading was accompanied by reports of breaks in the ranks of the strikers at Nanticoke, Ph. The market closed duil and heavy. Total sales today, 506,700 shares. Some of the speculative bonds were weak in sympathy with stocks, but strength at other points made the market irregular, Total sales, par value, \$3,375,000. United States bonds were all unchanged on the last call.
