

# NICHOLS SAYS NO WAVERING

## CLAIMS THE STRIKERS ARE STANDING FIRM.

### District President of the United Mine Workers Issues a Statement in Which, Among Other Things, He Avers That the Engineers and Steam Men Who Have Returned to Work After Striking Are Deceys. Concerning Complaints About the Moses Taylor Hospital.

The claim made by the companies that each day the number of strikers applying for reinstatement continues to grow, brought forth the following statement from President Nichols yesterday:

The return to work of a few engineers is of no vital consequence, and is no indication of weakness in the body of mine workers. It is understood that those engineers who did not strike when the general order was issued, but came out later, did so as deceys, expecting to return to work again and take others with them, and cause the impression to go forth that a break had occurred.

They have failed in their object and have laid themselves liable to criticism as being traitorous to their fellow workmen, or as children without judgment, striking one day and returning to work the next, gaining nothing.

The majority of the steam men are still idle, and no coal is being mined. During the strike of 1900 all steam men remained at work, many miners also remained at work throughout the strike, many thousands of tons of coal were mined while the strike was in progress.

This strike has the advantage of having all miners idle, and a large proportion of the steam men; no coal has been mined since the strike was inaugurated. None will be mined until the strike is settled.

Our members are warned against agents of the companies who are circulating among them, trying to bribe them with large promises of increased pay to return to work. I have read a circular letter by one of these agents, which is sent out soliciting firemen. They are in hard straits, and sorely in need of competent men. The imports are incompetent and irresponsible in the main. They want work and are an expensive luxury; as the stockholders will find out when dividends are cut short on account of the wasted material and destroyed machinery. The companies cannot operate without men. It is only a question of time when they will need them so badly that they will pay the market price and secure their services again.

President District No. 1, President W. H. Hoskins, Vice-President D. H. Sullivan and Secretary G. W. Savage, of District No. 6, United Mine Workers of America, of Ohio, who came here to confer with President Nichols, Thursday, have gone to visit Shamokin, Hazleton and Pottsville. They refuse to make known the particular object of their tour of the strike territory.

Some complaint has been made that the Moses Taylor hospital directors have refused to admit strikers to that institution. Assistant Superintendent Tobey, of the Delaware, Lackawanna and Western company, said yesterday, when this was called to his attention, that the directors have no choice in the matter. The institution is endowed for employees of the Delaware, Lackawanna and Western and Lackawanna Iron and Steel companies and their families. Men who are on strike are not employees of the company.

During the week previous to the strike, when it was expected the strike

# SICK MADE WELL WEAK MADE STRONG

## Marvelous Elixir of Life Discovered by Famous Doctor-Scientist That Cures Every Known Ailment.

## Wonderful Cures Are Effected That Seem Like Miracles Performed—The Secret of Long Life of Olden Times Revived.

### The Remedy is Free to All Who Send Name and Address.

After years of patient study, and deriving into the dusty record of the past, as well as following modern experiments in the realm of medical science, Dr. James W. Kidd, 1675 Baites building, Fort Wayne, Ind., makes the exciting announcement that he has surely discovered the elixir of life. That he is able with the aid of a mysterious compound, known only to himself, produced as a result of the years in his search for this precious life-giving tonic, to cure any and every disease that is known to the human body. He has no doubt of the doctor's earnestness in making his claim and the remarkable cures that he is daily effecting, even to the point of curing the most stubborn cases of cancer, which he has cured in many cases. It costs nothing to try his remarkable "Elixir of Life," as he calls it, for he sends it free to the doctor, and in sufficient quantities to convince of its ability to cure. So there is absolutely no risk in running the course of the cure, and the most reliable witnesses would hardly be credited. The name has thrown away crutches and walked about after two or three trials of the elixir. The sick, given up by home doctors, have been restored to their families and friends in health. Rheumatism, neuralgia, stomach, heart, liver, kidney, blood and skin diseases and hinder troubles disappear as by magic. Headaches, backaches, nervousness, fever, consumption, coughs, colds, asthma, catarrh, bronchitis and all affections of the throat, lungs, etc., vital organs are easily overcome in a space of time that is simply marvelous.

Partial paralysis, locomotor ataxia, dropsy, gout, sciatica and piles are quickly and permanently removed. It purifies the entire system, blood and tissues, restores normal blood power, circulation and a state of perfect health is produced at once. It cures all systems of disease and equally affected by this great "Elixir of Life." Send for the remedy today. It is free to every sufferer. State your ailment and you will be cured and the sure remedy for it will be sent to you by return mail.

DR. JAMES WILLIAM KIDD. covered the elixir of life. That he is able with the aid of a mysterious compound, known only to himself, produced as a result of the years in his search for this precious life-giving tonic, to cure any and every disease that is known to the human body. He has no doubt of the doctor's earnestness in making his claim and the remarkable cures that he is daily effecting, even to the point of curing the most stubborn cases of cancer, which he has cured in many cases. It costs nothing to try his remarkable "Elixir of Life," as he calls it, for he sends it free to the doctor, and in sufficient quantities to convince of its ability to cure. It cures all systems of disease and equally affected by this great "Elixir of Life." Send for the remedy today. It is free to every sufferer. State your ailment and you will be cured and the sure remedy for it will be sent to you by return mail.

would be declared, there was a big rush of applicants for admission to the hospital. In all except emergency cases the applications were "placed on file." The Marvin shaft local, No. 151, will hold a special meeting this afternoon, July 8, at 8 o'clock.

A meeting of Local No. 1,693, United Mine Workers of America, will be held this afternoon at 2:30 o'clock, in Leonard's hall.

### THINGS WORTH KNOWING.

(Compiled for The Tribune by Walter J. Ballard.)

The "American invasion" extends even to the rejoicings over the ending of the Boer war. Some of the British newspapers glorify that event by quoting Oliver Wendell Holmes' beautiful lines:

Angel of Peace, thou hast wandered too long!  
Spread thy white wings to the sunshine of love!  
Come while our voices are blended in song—  
Fly to our ark like the storm-beaten dove.

Neither Kipling nor the British poet laureate seem to be equal to the occasion.

—Troy Times.

In 1901, 110,000 emigrants left Bremen with destinations as follows:

England	4,328
Canada	309
United States	103,214
Brazil	1,854
Argentina	1,854
Africa	450
Australia	239

From Hamburg the emigration was 92,682 persons, 13,354 being Germans, 27,972 Austrians, 36,981 Russians. Their destinations were:

England	9,853
United States	74,319
Canada	2,545
Mexico	142
West Indies	127
Brazil	1,829
Argentina	1,288

A comparison of the number of emigrants bound for Argentina and Brazil with the number bound for the United States may lead the blood of those who foresee trouble with Germany in South America.—New York Sun.

The population of the United States in 1900 was about thirty-four millions. The succeeding thirty-five years ending in 1900 carried it to 76,000,000 and today we are increasing at the rate of a million and a half a year. The various census reports show that the population of the United States about doubles every thirty years, so that by 1930 we would, at this rate, have a population of 150,000,000 people.

One-half of the population of the United States is occupied directly or indirectly in the cultivation of land, and I think fully one-half of the entire capital of the country is invested in farms and their belongings, and when we come to the questions of intelligence, patriotism and good citizenship, the agricultural population stands as today as it has in the past, as the great sheet anchor of the nation.

The wealth of the world comes from the farm, the forest, the mine and the sea. While our country has been blessed with wonderful mines of coal, iron, gold, silver and all the other valuable mineral productions, with magnificent forests of useful timber, still the farm has from the beginning, been the foundation of our growing wealth and greatness.—James J. Hill.

The value for 1900 of the manufactured products of each state is expressed in this table in millions of dollars:

1. New York	2,115
2. Pennsylvania	1,835
3. Illinois	1,299
4. Massachusetts	1,057
5. Ohio	832
6. New Jersey	611
7. Missouri	385
8. Indiana	378
9. Wisconsin	361
10. Michigan	357
11. Connecticut	353
12. California	303
13. Minnesota	293
14. Maryland	243
15. Rhode Island	184
16. New Mexico	165
17. Iowa	165
18. Kentucky	155
19. Nebraska	144
20. Virginia	133
21. Maine	127
22. Louisiana	127
23. Texas	119
24. New Hampshire	118
25. Tennessee	107
26. Georgia	106
27. Colorado	103
28. North Carolina	95
29. Washington	87
30. Alabama	81
31. West Virginia	75
32. South Carolina	59
33. Vermont	58
34. New Mexico	47
35. District of Columbia	48
36. Oregon	46

50. Idaho	4
51. Indian Territory	3
52. Nevada	3

—American Economist.

In this table Pennsylvania is a good second, and only about half as far from first as it is from third.

One of the best evidences of the peaceful conditions in the Philippines is found in the expenditures on account of the war department at the present time. It is a surprising fact that during the month of May the total expenses on account of the war department amounted to more than \$13,000,000, were almost as great as the total expenditures on account of both the war and navy departments during the month. The war expenditures have been reduced in a marked degree, being less than \$10,000,000 a month at the present time.

Canadian imports and exports in the ten months amount to \$38,703,000, an increase of \$3,941,771. Exports for May increased \$1,079,000 and imports \$239,128.

The enormous wheat crop in Kansas, now being harvested, is death to the last vestige of Populism in that state. The farmers are at their wit's end for more money, and are turning their eyes toward the rich harvest, and a considerable portion of the crop is destined to be left on the ground ungarnered.

Facts are God's arguments.

**TODAY'S D. L. AND W. BOARD.**

Following is the make-up of the Delaware, Lackawanna and Western board for today:

**SATURDAY, JUNE 28.**  
Summits West—S. M. Nichols, with Hennigan's crew.  
Pushers—7 a. m. F. Case, 11.6 a. m. Moran; 7:30 p. m. Murphy; 9 p. m. W. H. Bartholomew.  
Helpers—1:30 a. m. McGovern; 7 a. m. Widner; 10 a. m. Lamping; 4:30 p. m. John Wardell.

**NOTICE.**  
Hoar, with McAllister's crew, will run pick-up Saturday, June 28, and until further notice.

# THE MARKETS

## Wall Street Review.

New York, June 27.—Today's stock market felt into profound neglect. Except for the dealings in one or two stocks which were selected by the supporters of the market for their sustaining effect, there was almost nothing done. St. Paul was again the leader and there was a spurt in Illinois Central during the day which did not extend to a point at any time. The industrials were weak in spots, but were even more neglected than railroads. The passing of the dividend on Colorado Fuel caused a drift of 4 points in that stock on active selling. The stock fluctuated feverishly all day and closed at a net loss of only 1/8. The passing of the dividend on Ice preferred was reflected in the movement of the stock, the preferred declining an extreme 3/8 and closing at a recovery of 1/8. Amalgamated Copper was under pressure again but met support at about 84 on the previous decline. The market eased off in the late dealings and closed higher and below the best in all cases. The speculative influences at work in the grain markets made inferences as to the condition of the crop. The wheat market was entirely neglected in the market. There was some buying of railroad stocks that was alleged to be for investment in anticipation of the funds to be disbursed after the first of July month. Total sales for the day, 32,000 shares. There was little doing in the bond market and the movement of prices was irregular. Total sales, par value, \$3,025,000. United States 2's declined 1/4 and the new 4's 1/4 per cent. on the last call.

The following quotations are furnished The Tribune by H. A. F. & Co., 314-315 Mears Building, W. D. Runyon, manager.
