CRIMMINAL ATTEMPT by unknown prowler

in Boldly Assails Two Woman at Old Early Foundry? on Seventh Avenue, but Is Repulsed-Has Stopped Other Women Passing to Their Homes-Police Have a Clue.

Unquestionably the boldest criminal attempt in Carbondale within recent years took place about 9.30 Friday night, when an unknown prowler attacked one of two women who were on the way home. He made a shockingly indecess emission, but was repulsed before he was successful in his shameful purpose.

His Last Hope Realized.

The first opening of Oklahoma to settlers in 1889, the editor of this paper was among the many seekers after fortune who made the big race one fine day in April. During his traveling about and afterwards his cumping upon his claim, he encountered much bad water, which together with the severe heat, gave him a very savere diarrhoen which it seemed almost impossible to check, and along in June the case became so bad he expected to die. One day one of his neighbors brought him one small bottle of Chamberlam's Colle, Cholera and Diarrhoea Remedy as a last hope. A big dose was given as a last hope. A big dose was given him while he was rolling about on the ground in great agony, and in a few minutes the dose was repeated. The good effect of the medicine was soon To Dangerous Condition.

Something More Than Good Leather

Good leather is, without doubt, very necessary in the making of good shoes; but good leather alone does not constitute perfection of shoe making. A man may secure the finest brushes and the best paints and yet be unable to produce a work of art,

Sorosis Shoes are handled through their several stages of manufacture by men whose hands and minds are trained to their special work. When a "Sorosis" Shoe is finished it must pass examination and reach a standard that secures its supremacy over all other Women's Shoes made.

Your investigation will prove how much all this means to your shoe comfort and style. Many ladies who we number among our "Sorosis" wearers, never paid more than \$2.50 or \$3 for their shoes, but they have been convinced of the better quality and longer life of the "Sorosis" make, and what appeared to be a small extra cost, has proved a great saving. \$3.50 It's the distinguished shoe for women.
