BOND ISSUE IS DIRECTED

ACTION TAKEN BY SCHOOL BOARD LAST NIGHT.

Voted to Increase the Bonded Indebtedness of the District by \$250,000-Contracts Awarded for Building and Addition to No. 33 and for New Nos. 8 and 11-H. J. O'Malley Said Contract for No. 11 Was Not Given to the Lowest

At the special meeting of the Board of Control last night, that body unaninously adopted the resolution proposed by the finance committee, recommendng an issue of bonds amounting to \$250,000, and that a tax levy be made of three-tenths of a mill on every assessable dollar in the school district.
"This action of the board," President

Gibbons remarked after the meeting, completely wipes out all the board's labilities, including the \$15,000 needed or the new high school." Bids we. then read for the building of the two-room addition to No. 33

They were as follows: M. J. Ruddy, \$4,700; Conrad Schroeder, \$5,000; Woelkers & Bielman, \$5,264; Mathias Stipp, \$5,099; C. S. Williams, \$5,387; Peter Stipp, \$5,000; Dunmore Lumber company, \$4,950; S. Sykes & Sons, \$4,925. On motion of Mr. Schriefer the building committee immediately considered the bids, and then reported in favor of the lowest bidder, M. J. Ruddy. The committee's report was accepted by the board.

On motion of Mr. Schriefer the salary of Secretary Fellows' assistant was raised \$5 a month. Chairman Roche of the building committee then recomnd No. 4 schools be awarded to M. J. of success. Ruddy and Peter Stipp respectively, the buildings to be completed by Jan. 1. On request of Mr. Ruddy, who was present, the time was extended to Feb. 1, 1903. Mr. Roche further recommended that the contracts for the heating and ventilation of No. 8 school awarded to P. H. Haggerey, and the

contract for the same work at No. 11 be given to T. J. O'Malley. H. J. O'Malley was the only one vote against the adoption of this latter report, he claiming that the contract and they are many and varied. in No. 11 school was not being given to the lowest bidder.

J. A. Jones was appointed janitor of No. 26 school, to succeed Mrs. J. A. Jones, deceased. On motion of Mr. building committee were empowered to obtain annexes to take the place of No. 11 school, while the new building is in

ourse of construction. Mr. Francols then reported for the committee, after going over the board accounts, had ascertained there were liabilities of \$259,000 for buildings, lots, etc., and had decided upon a bond issue. The bonds will be each of \$1,000 and will draw interest from Aug. 1, 1902, at the rate of 314 per cent. They will be free from all tax. The valuation of the district, as stated in the resolution, is \$65,686,705.

HAD A DREARY OPENING. CHANGES IN CITY HALL.

Elks' Carnival Starts Out with Unpropitious Weather and a Rather Small Attendance.

Rain throughout the day and early evening caused the Elks' carnival to have a rather damp and dreary openng last night. A big crowd is an abso ute essential to the success of an affair of this kind and as the rain kept the attendance down to rather smallsized proportions, the opening was unnended that the contracts for No. 8 fortunately wanting in this requisite

Those who took it for granted that the arrangements would be completed and that the weather was not going to be altogether unendurable were not greatly disappointed. The shows were all in readiness when the gates opened and the affair was under way less than

an hour when the rain ceased. Big crowds can be safely counted upon if the weather improves, for the show is all that is expected of it. The features are presented as advertised The principal attractions are the

Ferari wild animal show, Esau, the biographet, German village, dog and monkey show, Cingalese village, streets of Cairo, wild Aztec girls, snake charm-Jayne, the chairman of the board and er, country store, gondolas, Ferris wheel and trapeze performers. Esau, the educated chimpanzee is the

most wonderful feature of the carnival. He dresses, eats, and in many ways acts like a human being, and as one finance committee. He stated that the watches his performance the idea is gained that he is human rather than orute. What, however, proves the most in-

teresting feature of the whole thing is the midway mountebank's methods of attracting a crowd. Every conceivable kind of din maker ever used on a midway is drafted into his service. Infernal noise machines tear all kinds of apertures in the atmosphere as they are operated in front of the different shows, in total disregard of the fact that they drown the announcements of the neighboring "barker." Pistol shots, wild shricks and red fire are some of the comparatively new methods of attracting attention, and effectively.

The grounds are well arranged and brilliantly illuminated. A large numsurprise to the many who listened to ber of booths advetrising the wares of local merchants intersperse the show

tents. The formal opening of the carnival was preceded by a parade of the Elks. Recorder Connell, Director of Public Safety Wormser and members of the Elks' carnival committee rode in carriages at the head of the procession. The gates were formally opened by Recorder Connell when the parade reached the grounds, about 8 o'clock.

The carnival will continue all week opening each day at 1 o'clock p. m. with the exception of July 4, when the gates will open at 8 o'clock a. in. The carnival yesterday selected Hon. John E. Barrett, of the Truth; R. M. Scranton, of the Republican; E. J. Lynett, of the Times and L. S. Richard, of The Tribune to supervise the chancing

off of the automobile. NO HIGH EXPLOSIVES.

Director of Public Safety Declares Against Them.

Director of Public Safety F. L. Wormser is against the loud and hilarious celebration of July 4, and yesterday issued an order in which he says that "the use of cannon firecrackers, smal cannons and other high and dangerous explosives is a violation of Section 37 of the law regarding nulsances. No person will be permitted to discharge fireworks of any description within one city block of any public or private hospital within the limits of the city during the celebration incidental to the Fourth of July."

The police force is directed by the director to enforce the law strictly regarding the use of explosives.

AN ENJOYABLE RECITAL.

Pupils of Haydn Evans and Dr. D. J. J. Mason Entertain Last Night. Miss Edith Swingle, a pupil of Haydn price. Evans, gave a highly enjoyable pianoforte recital at Guernsey hall, last night. Miss Swingle was assisted by Miss Mame Gibney, Miss Margaret Armstrong and C. P. Engle, pupils of Dr. D. J. J. Mason.

A large audience was present and thoroughly enjoyed the recital, which consisted of nine numbers, by Beethoven, Schumann, Lehman, Bach, David, Chopin, Schubert, Handel and Liszt.

Rooms of Department of Public Safety to Be Moved to the Fourth Floor.

City hall officials are considerably interested in the passage of the ordinance calling for the finishing of the fourth floor of the municipal building, and the putting in of an elevator.

The fourth floor will be rapidly put into proper shape, and the offices of the department of public safety will be then moved to it. They will be located at the southerly side of the building, The offices of each bureau of the department will be so arranged as to be in direct communication with each

other. This will leave vacant Director of Public Safety F. L. Wormser's office and Superintendent of Police Day's quarters on the first floor, the office of the bureau of health' on the second floor, and the present quarters of Superintendent of Building Inspection F. L. Brown and Superintendent of Bureau of Fire H. F. Ferber, on the

The latter two offices will probably be annexed to the rooms of the department of public works, and the other offices are being sought by other of the city officials. Superintendent of Public Schools George Phillips is desirous of moving to the bureau of health's office, and there is a possibility that Superin-

MAY PROVE FATAL. -

Woman Who Was Accidentally Shot at Johnson's Patch Is Critically Ill of Blood Poisoning.

Mrs. Cecilia Kelly, who was shot accidentally by a boy named Robert Miller in a field near Johnson's patch, on the night of June 2, is lying in a critical condition at her home, No. 13 Parker street, North Scranton.

The attending physicians said last night she might not live till morning. The bullet struck her in the bosom, but was checked by a rib and the wound was considered to be only trivial. After being in the Lackawanna hospital for two weeks she was discharged and went home to be cared for further by her family physician. All danger of results had apparently passed, but the symptoms, it seems, were misleading, for a week ago, blood poisoning set in and now Mrs. Kelly is in danger

of death. The shooting was a rather peculiar eccident. Mrs. Kelly, in company with neighbor, went to see a man in Johnson's patch for the purpose of renting house. The man was not at home and the two sat down in a field near the louse to await his return. While seated there in the dark, young Miller happened along the Erie track with a flobert rifle and fired a shot at some mark or other. The bullet missed the mark and sped on into the field, striking Mrs. Kelly. The boy heard her scream and ran to inquire what had happened. When he realized that he had shot a woman he disappeared, but afterwards disclosed himself.

\$500 Reward.

In pursuance of a joint resolution of city councils, approved June 18th, 1902, the city of Scranton offers a reward of five hundred dollars to any person fur-nishing the information which will lead to the arrest and conviction of the person or persons who murdered Mary Quinn on Monday night, June 2nd, 1902. W. L. Connell, City Recorder.

Another Offer from Guernsey Hall. Whether you know anything of the merits of the "Kurtzmann" plano or not, it may pay you to investigate the terms under which we are going to dispose of one of these planos today. This plane is the only one of that name we have in stock and will be sold for cash only, at less than one half the usual John W. Guernsey, Guernsey Hall.

CANDIDATES ARE NUMEROUS

OPENING OF THE MINE FORE-MEN'S EXAMINATION.

Board Conducting the Examination Is Composed of Mine Inspector H. O. Pryterch, J. G. Hays, Mine Superintendent, and John D. Griffiths and W. J. Garvey, Miners-Those Who Are Taking the Examination and the Questions They Were Yesterday Asked to Answer.

Examinations for the positions of mine foremen and assistant mine fore-men in the Second district were held yesterday morning and afternoon in the council chambers in the municipal building, thirty-one candidates being

Mine Inspector H. O. Prytherch, J. G Hays, mine superintendent; John D. Griffiths and W. J. Garvey, miners, were the examining board. The questions given were as follows:

Give your name, age, place of birth postoffice address.

1. State your experience in coal mines

in Tully.

2. Name the gases commonly found in anthracite mines. State the experience you have had with each. 3. Why is the Davy lamp more generally

used for detecting firedamp, than other types of safety lamps?

4. Name the precautions you would expect your assistant or fireboss to take in case a body of gas is found in a section of the workings in Tully.

5. If the air in a mine contains 5 per cent, of CH 4, how will the flame of the safety lamp be affected? How would you proceed to ascertain if your safety lamp is in good working order, before entering a mine giving off

7. Give the provisions of the amend ment to the anthracite mine law of 1891. 8. In case a person is seriously injured in a mine under your charge, state briefly your duties as foreman in the matter.

9. Name the appliances required to kept in the medical room. Where should the medical room or hospital be located 10. Write a report such as you would make in the hospital book after treating an injured person.

11. How should a chamber in coal

ed, providing practically for the safety of the miner and laborer? Tully. This morning and afternoon the sessions will be continued, and the results will probably be announced in about two weeks. Those who took yesterday's examinations were the following:

feet high on a pitch of 7 degrees be work
