APPROVES OF PLAN

By Exclusive Wire from The Associated Press, Wilkes-Barre, July 8 .- A national defense fund to which all organized labor and the public in general will be asked to contribute, is the latest proposition placed on foot to help the striking anthracite coal miners if they need assistance in their struggle for higher wages and a shorter workday. Harry White, of New York, secretary of the National Garment Workers and member of the conciliation committee of the civic federation, held a long conference with President Mitchell today, during which the plan was approved by the miners' chief, and Mr. White will at once begin preparations to carry out John Boney, of Plymouth. the plan. President Mitchell wants it understood, however, that the miners' of among them being one protesting union will accept no aid until their own against the appointment by the goverresources are exhausted. Mr. White nor of ex-Sheriff James Martin, came here authorized by several labor organizations to place the proposition before Président Mitchell. After the conference, President Mitchell had nothing to say about the matter, bethe following statement:

Mr. White's Statement.

President Mitchell will accept the co-operation and whatever ald may be renlabor organizations of the country and others, but with the understand Ing that it is to be only used when their own funds become exhausted, which will The Statement of the Operators Ap-

on this point, agreed to it. They now see the king was right, and that it is far better for him to get through the turmoil of the coronation as soon as possible than to have it hanging over him for months. King Edward has determined not to break up the court at Buckingham pal-

ace until after the coronation. He may go on board his yacht for a few days' cruise, but he is more likely to remain in London till the affair is over,

TRACEY LOCATED.

News of the Desperado Received at the Sheriff's Office in Seattle.

by Exclusive Wire from The Associated Press. Seattle, Wash., July 8 .- News was re ceived at the sheriff's office today that Harry Tracey, the escaped convict, was at Rancher Gerald's house, below Renton, a suburb on the Cedar mountain road. A little after 2 o'clock the 17year-old son of Gerald arrived at the sheriff's office with a gold and silver watch, saying that Tracey had arrived

at his father's house at 10.30 o'clock this morning, and after eating a hearty meal, had sent him to a neighbor's house with the two watches, with instructions to try to sell them. Tracey said if he "were given away" he would kill the whole family, the boy included. The boy, knowing that it was Tracey, concluded to bring the watches to the sheriff's office, hoping that the des-

perado would remain there until a searching party could arrive. The watches answer the description of those stolen from the Johnsons last Saturday. Young Gerald described Tracey accurately, and the officers think that he is trying to make the Palmer cut-off by the Cedar mountain road.

Johnson's white boat, used by Tracey is escape from Port Madison, has found on the mud flats in South

Two Farmers at Hinton Shoot Themselves by Agreement.

Exclusive Wire from The Associated Press. Hinton, W. Va., July 8 .- William A. Mahan and Charles H. Blaker, two prominent farmers of Sweet Springs. Monroe county, committed suicide by shooting themselves. It appears they had been threatening to kill themselves and were being closely watched by their relatives. At an early hour they left their homes with their guns and said they were going hunting. Their families thought but little of their going until 4 o'clock in the morning when they heard two gun shots. A search revealed the men. Mr. Mahan had evidently placed the muzzle of his rifle to his mouth and was dead

when found. Blaker had shot himself through the breast with a breech load ing shot gun and was unconscious, but only lived a few minutes. Both men were 42 years of age and cousins. They gave no reason for wanting to die.

UNDERTAKER TESTIFIES IN DISBROW CASE

Gives Description of Appearance of the Murdered Man-Mrs. Foster Also Heard.

By Exclusive Wire from The Associated Press. New York, July 8.-The hearing in the case of Louis A. Disbrow, accused

of having murdered Sarah Lawrence and Clarence Foster, was continued at Good Ground today.

The first witness today was Samuel Thompson, the Sag Harbor undertaker, who had charge of the funeral of Foster. He said there was blood on Foster's face and ears, and that the face was black and swollen. Thompson was not cross-examined.

Ellsworth Howland, a fisherman, said he saw Foster's body on the day of burial. There was a cut over the right eye an inch and a half long. The face was black and swollen, and blood came from the eyes and cars.

Edward Croker, 18 years old, a son of-Chief Croker, of the New York fire de-partment, testified to finding Neison Squires' rowboat adrift in Tiana bay, full of water, and with oarlocks tied to the seat. Henry Jacobs, 18 years old, corroborated young Croker's testimony.

Precautions Against Effect of a Political Change in the Government of the United States-Protocol Being Modified to Meet the Objections of the Senate.

By Exclusive Wire from The Associated Press. Washington, July 8 .- The state department has decided to press forward the Colombian treaty looking to the acquisition of right of way for the isthmian canal. That is a slight change in the original programme, which contemplated the complete adjustment of the juestion of title before concluding the treaty.

Secretary Hay has taken steps to give the protocol submitted to the last session of congress the form of a treaty and to have it signed formally by accredited representatives of the governnent of Colombia and of the United States, so that it may be laid before the senate as soon as it convenes in December. By adopting this course the state department will remove, it is expected; any chance of having the agreement with Colombia disturbed by anything that may occur as the outcome of political changes, for it is the purpose to hold that such agreements, once duly entered upon, are not subject to repudiation, even in the event of the change of government.

The protocol referred to was drawn, so definitely that not many changes required in order to adapt are it for use as a treaty. The senate, however, found one or two points of objection. While they are not material. the department officials, in accordance with their usual practice, will seek to obtain such modifications as will meet them.

No difficulty is expected in procuring an abatement of the old provision in the canal franchise requiring the use of French material only in the construction of the canal. The state de-partment has received an assurance

for some time. Mr. Mitchell sa; that before soliciting outside support the miners at work must set the example themselves by contributing a considerabl rtion of their earnings to sustain thei fellow-members in the hard coal fields. who are fighting their common battle. This will be determined upon at the Indianapolis convention. Mr. Mitchell also welcomed the aid tendered by m means and influence outside the ranks of organized labor.

Efforts will at once be made to originate a movement throughout the country, so that the unions and others may be pared to collect funds when the time is propitious.

Public men will also undertake an independent movement and solicit subscriptions from those not connected with la-bor organizations. This movement will be inaugurated in New York city, and the labor organizations and sympathizers in all the principjal cities of the country will be called upon to appoint committees to on similar work.

All friendly newspapers will be asked to co-operate. The scheme, in brief, con-templates the concentration of the energy and resource of organized labor in behall of the miners' cause, a result which has never before been achieved. It involves the raising of a given amount of money each week for which provisions and other necessaries of life will be purchased plan has the approval of President samuel Gompers, and it will be placed be fore the executive council of the Amer-ican Federation of Labor next week. Mr Gompers in his letter of approval said: "I beg to say that your action meets with my hearty approval, and you can say so to President Mitchell, Anything which I can do toward bringing about the end desired will be cordially done."

Of course, it is understood that the en-tire plan is contingent upon the Indianapolis convention of the mine workers voting down a motion for a general strike, as in that event the aid which the soft coal miners wil be able to render cut off, and it would be out of the question to try to maintain the vast number of people who would then be involved. operators are counting upon the means of the miners soon becoming hausted and when it is demonstrated to them that the funds will be forthcoming to prolong the contest indefinitely, i the situation will be changed materially.

Disapproves Sympathetic Strikes.

Personally, Secretary White disapproves of the proposed general suspen-sion order of mining, as well as of sympathetic strikes in general. He expressed his views on the subject as follows:

I believe that should the Indianapolis convention order a general suspension of mining, a great disturbance will be created without in any way benefiting whom it aims to help. Besides, it would make necessary a violation of agreements which would be so conspicu-ous as to discredit the entire labor movement. Such a mistake would be all the greater because there would be no ap-parent advantage to be gained by it. If trades unions can violate agreements whenever it is convenient to do so, then the employers will be justified in doing the same, consequently agreements have no binding force and no effect. If labor organizations are to improve their standing in the business world, they must
