Court Martialled.

Two members of the First regiment of Philadelphia, were court martialled today for insulting Governor Stone by making disparaging remarks as he drove through Gettysburg yesterday. It is said the men will be drummed out of camp. Major General Miller, who has been ill since yesterday, is still confined to division headquarters.

A rumor has been circulated about to the effect that the Thirteenth and Ninth regiments would be retained in camp, to meet any difficulties which might arise among the strikers. Said Governor Stone to The Tribune corres-

pondent: "The idea is absurd. In case of any outbursts those regiments will be near en the scene of difficulties, right at home. Moreover, we do not expect any The mine workers' officials have thus far showed a commendable willingness to co-operate with the civil authorities in suppressing any disorder, more so in fact than they have ever before done. There may have been small local outbreaks, and they are matters for the local authorities to attend to and can be easily coped

with by any sheriff with a backbone. "The military is not a force to be used for policing purposes, as is generally and erroneously supposed. is rather a reserving force, only to be appealed to in cases of great emergen-As matters stand now, the leaders of the strikers realize it is to their advantage to maintain peace and order and up to date have done so. There is no reason to suppose that their men will suddenly resort to lawless actions. Governor Stone also expressed himself as highly pleased with the Thirteenth's

showing at inspection. Visited the Governor.

Tonight General Gobin and staff, ac companied by the colonels and regimental staffs of the Third brigade paid a visit to Governor Stone's headquarters. Tomorrow afternoon Battery C. of the United States artillery, under Captain Foot will execute a drill, on brigade grounds and General Gobin will order brigade dress parade in return,

Colonel C. V. Seldon, state inspector of rifle practice, last night met the three brigade inspectors of rifle practice, and held a brief session with them, discussing plans for the coming year. Colonel Loree, who has been acting as provost marshal, was today relieved from his position, at his request, on account of personal business cares. Colonel James W. Oakford, of Scranton, judge advocate on Governor Stone's staff succeeds

Among today's arrivals in camp, were Vice President Voorhees, Superintend-ent Garrett and a number of other Philadelphia and Reading railroad officials, Mrs. J. P. S. Gobin and the Misses Howell, of Lebanon and Mrs. W. S. Millar, and Miss Bess Rice, who

are guests of Major W. S. Millar.

Condition of Camp.

General J. P. S. Gobin was seen by The Tribune correspondent this morning, and expressed himself as extreme ly gratified by the condition of the Thirteenth's camp, when he inspected "Everything in that camp is in first class condition. It's undoubtedly one of the best camps of the division." said he. In discussing the strike situation, General Gobin said: "Personally, I do not think there is

going to be any trouble. Still, it is always the unexpected which happens. No one expected that the sheriff would shoot a crowd of men and precipitate a riot at Lattimer. In case of any trouble in Carbon county, I think it is only natural to assume that my brigade will be ordered out. In fact any brigade commander would consider it an affront, if a call were made upon any other brigade to take care of a disturbance in his region."

The regular schedule, upon which the regiment's movements are timed is as follows: First call, 5.25 o'clock; reveille, 5.30 o'clock; police call, 6; mess call, breakfast, 6.30; sick call, 7.30; guard mount, 8; drill, 8.30; mess call, dinner, 12; drill and regimental evolutions, 2: parade, 6; mess call, supretreat, sunset; platoon, 9.30;

Colonel Watres yesterday found it necessary to condemn a large portion of the state food supply, inasmuch as after an examination he considered none of the bread or canned corn fit for eating. He made a thorough examination, with Commissary Koehler and Surgeon Keller, and the result was the condemnation of the bread and corn. The former was soggy, and heavy, while the corn was found to be covered with a poisonous green film.

The particular pride of Company B is its kitchen, which the men claim is the finest in the brigade. Its fame has spread throughout the camp and has even attracted visitors from headquarters.

The trials and tribulations of the regimental band since their arrival at camp have now been satisfactorily adjusted, and peace and harmony reign among the musiclan sons of Mars. When the regiment arrived Saturday it was discovered that no provision had been made for the tenting of the band, as Questern. that no provision had ben made for the tenting of the band, as Quartermaster Vandling had been unable to receive sum-cient space in the encampment allotment. Last year the bandmen had a street to themselves, and therefore when they found out that this time every man would have to shift for himself, moans and lamentations arose on high. The large number of Carbondalians in Company C are all devoted adherents of their captain, Thomas Murphy, and already rejoice in the euphonious title of "Murphy's Indians."

There are a large number of embryo soldiers in camp, in the persons of sons or brothers of officers and other members of the regiment. Among these is Raymond Watres, the young son of Colonel L. A. Watres. He wears a full khaki uniform, and, by the way, is quite an expert bugler. Theodore Vandling, son of Captain F. M. Vandling; Francis Gunster, son of Dr. P. F. Sergeant Ralph Gregory, of Company D, who came down with the advance, was greatly appreciated by the members of the company. Everything had been pre-

pared in tiptop shape, and the boys were nuick to realize the fact.

Too much celebration, Monday night,

and too lively a part played in Company F's midway performance, landed Private Peter Grimes in the guard house. Peter took his enforced retirement stoically, however, and peacefully smoked away throughout his day's imprisonment. There is a possibility that a general field day of sports will be arranged, some

Corporal Frank Coffin, of Company D is probably the premier sprinter of the regiment, and for the matter of that would probably give any man in the division a pretty good run for his hon-ors. Although Coffin is heavy of build and doesn't look like a runner, still he is fleet as a hare, and the members of his company would like to see him meet some outsider. Sergeant Major "Bob" Vail is another young man, who can run a little. On July 4, 1900, he won the 100-yard dash in a running match open to all the United States soldiers in that district of the Philippines, where his regiment was stationed. He received a gold medal in token of his victory. Coffin has, however, beaten out Vail. The former has a record

of 10 flat for the 100. MINERS ARE GOING BACK

SIX RETURNED YESTERDAY TO THE DICKSON.

Reported That Trere Are Eighty-Three Men at Cayuga-Ex-Strikers Assisting at arpentry and Brick Work and in Cleaning Up Roads in Other Local Collieries-Delegates Leave for the Indianapolis Convention-Board Member Henry J. Collins in Charge of Headquarters.

Six striking miners yesterday re-turned to work at the Dickson colliery of the Delaware and Hudson company. They waited on Superintendent Rose in body and asked to be given employment saying they were "tired of the strike" and unable to stand the hardships of idleness any longer. Mr. Rose dranged to give them work cleaning up roadways and the like and yesterday they went into the mine.

This is the first instance of a number of miners returning to work together. For two weeks past the different companies have made places for individual applicants for reinstatement, but until yesterday none of them reported a numper of miners banding together and going back to work.

Superintendent Phillips, of the Delaware, Lackawanna and Western company, said yesterday that not a day passes but what several miners come the office and ask to be given work. They are, as a rule, told there is no work for them, and that if they want to go to work it will be necessar, for them to make application in numbers sufficient to start up a colliery.

WILL CONSIDER MATTER.

The company is not anxious just yet o resume operations at a single collery, but if seventy-five of the miners at any one colliery apply in a body he will consider the advisability of start-

ing it up. It is reported that there are eighty three men now employed at the Cayuga most of them in cleaning up the debris and repairing the damage of last week's fire. Two miners started to work yesterday at the Brisbin. At the Marvine, a number of ex-strikers are said to be employed in helping bricklayers con struct a new air course, which requires in its building 198,000 bricks. It is also reported that miners are acting as company hands in large numbers at various other collieries, assisting in brick and carpentry work, cleaning up roads

The local delegates to the Indianapolis convention left yesterday. Those from district No. 1, numbered about one hundred. Thirty went by way of the Delaware, Lackawanna and Western. The others went over the Delaware and Hudson to take a Lehigh Valley special train bearing the delegates from the lower counties.

COLLINS IN CHARGE.

During the absence of President Nicholls and Secretary Dempsey, the local headquarters will be in charge of Board Member Henry J. Collins. District Vice President Adam Ryscavage will be in charge of the Wikes-Barre headquarters. The convention opens tomorrow and will likely continue into next week. A mass meeting of the North End locals will be held in St. Mary's hall. noon. Addresses will be destered by Fred Dilcher and others.
