LACKAWANNA LAUNDRY

AMATEURS KEEP IT UP.

Two Ball Games Between Scranton and Wilkes-Barre Teams.

It seems destined that the old-time base ball rivalry between Scranton and Wilkes-Barre is not to be allowed to die out. Two games between teams representing the sister cities are scheduled for today.

The court house employees of Lackawanna and Luzerne counties are to play at Wilkes-Barre, and the printers of the two towns are to play here.

The Lackawanna court house team is made up as follows: William Wirth, catcher; R. Watkins of W. Jones, pitcher; Sidney Owens, shortstop; John Von Hergen, first base; J. Griffin, second base; Reese Lewis, third base; C. J. Mirtz, left field; Peter Neuls, center field; J. E. Watkins, right field.

Half a hundred "rooters" will accompany the Lackawanna team.

The printers' game will take place at Athletic park at 3.15. Admission to the park will be free. After the game the visitors will be tendered an entertainment and lunch at the Star theater.

Those desiring to attend may procure their tickets from the committee, the members of which are: J. H. Ross, chairman; J. S. Burke, John J. Donnelly, G. Oliver, A. J. Langan, John J. Collins, D. J. McCaffrey and John P. Ketric.

LETTERS FROM THE PEOPLE.

[Under this heading short letters of interest will be published when accompanied, for publication, by the writer's name. The Tribune does not assume responsibility for opinions here expressed.]

Mrs. Newmuir Denies.

Scranton, July 25, 1902.
To Whom It May Concern:
I saw in The Tribune of the 25th where it said that I, Louisa Newmuir, was arrested for carrying beer at 12.25 on Wednesday night. Now I contradict that. I did not go for beer. I went after my son, who had gone after beer to eat with his lunch, after working hard all day.

Yours respectfully,
Mrs. Louisa Newmuir.

Go with the Band to Cranberry Lake.

It is anticipated that one of the largest excursions of the season will leave Scranton (Delaware, Lackawanna and Western railroads) at 8 a. m. Sunday, July 27, to Cranberry Lake, 102 miles from Scranton, at the low rate of \$1 for the round trip, under the auspices of Bauer's band, one of Scranton's best musical organizations, which gives the public an opportunity of a day's outing at one of the most pleasant summer resorts in this section of the country, and at the same time show their appreciation of the band, and assist them a little financially at the same time. Waldner, the caterer, will accompany the excursion, and supply the needs of the people on route.

NOT ANXIOUS, BUT WILLING

PRESIDENT TRUESDALE ON THE MINERS' STRIKE.

Company Is Not Making Any Particular Effort to Operate a Colliery, but Will Open One, Up, if Enough Men Apply to Operate It—First Installment of the National Relief Fund Arrives and Is Being Distributed—One Woman Has Another Arrested for Calling Her Scab.

President W. H. Truesdale, of the Delaware, Lackawanna and Western railroad, who was in the city yesterday, reiterated his former statement regarding the strike that "there is nothing to arbitrate," and that "the collieries will not be started up until the men are ready to resume work."

Regarding the published statement that the company is making preparations to resume operations at an early day, he said that this is not true, but in the event of a sufficient number of men applying for work, a colliery will be started up.

The situation is unchanged, he said, and the only inducement the company will offer as a basis of settlement is to the effect that the men shall return to work under the former conditions, and submit their grievances to the company as employees. When informed that mine workers are receiving relief from their organization he did not make any comment, but smiled and shrugged his shoulders.

Secretary John T. Dempsey, of District No. 1, United Mine Workers, yesterday, received the first installment of the national relief fund for the striking miners. It was in the shape of a \$25,000 check and represented the first district's share of the \$50,000 subscribed by the national organization of the United Mine Workers. There are 73,000 mine workers in the first district.

Secretary Dempsey was busy yesterday making out checks, with which to meet requisitions for and from various locals whose treasuries have been depleted. Representatives of these locals crowded the headquarters all day long.

Money is being received daily at the national headquarters, and in the course of a few days another allotment of relief is expected to arrive here.

ORDERED BY MITCHELL.

District President T. D. Nicholls said yesterday that the plan of distributing the relief, now being followed, in this district was advised by President Mitchell, and will be continued until the officers are convinced that some other method should be adopted.

If any action has been taken by the rank and file of the strikers to protest against the officers' decision to distribute relief only to the needy and then only in the shape of store orders, it has not as yet leaked out. It is known, however, that there is much opposition to this plan, and that unless the money is divided equally per capita in cash there will be considerable discontent.

The company superintendents report that each day brings additions to the forces of ex-strikers at work underground, but none of them admit that they have any definite idea of when the mining of coal will be attempted. Superintendent Hayes, of the People's Coal company, which has been actively engaged for a week past in forcing its ex-strikers at work underground, is expected to return to work to enable the firm to try to supply the local demand for coal. It is a comparatively small affair, having a capacity of about 100 tons a day, which is all used to supply the home demand.

WANTS THE REVOLVERS.

Action in replevin was yesterday instituted by the Delaware and Hudson company against Burgess Kennedy and Police Officers John Dragonis, Louis Vishniski and John Shofeski, of Dickson City, to recover the revolvers taken from the three coal and iron police arrested in Dickson and jailed two weeks ago, for carrying concealed weapons. The property sought to be recovered consists of two 44-calibre revolvers, one 38-calibre revolver, two holsters and two belts. It is valued at \$100. Welles & Torrey, Robert J. Murray and O'Brien & Martin represent the company.

More Than Pleased with Wonderful Progress

The following letter was sent by the father of Mr. Harry Wilkins, whose pianoforte recital, given in the Parish House June 10th, was such a pronounced success:

Scranton, June 7, 1902.
Dear Sir:—On the eve of my son Harry's recital, allow me to sincerely thank you for the painstaking manner with which you all times conducted his lessons. I can assure you that I am more than pleased with the wonderful progress he has made. I think he will demonstrate satisfactorily at the recital work harmoniously, i. e. where hard work and perseverance are required. As a student of the teacher, aside from the method of instruction at the National Conservatory of Music, I should by special stress on the refining influences with which the student is surrounded, surely the most necessary adjunct in adding the pupil to some day really be what he has so long worked for—"the finished execution." Again thanking you, believe me to be
Yours truly,
HENRY WILKINS.

ARBITRATORS NOT KNOWN

Announcement of Their Identity Is Likely to Be Made Today—Mr. Burns Is Mentioned.

No announcement was made yesterday by either the trolley company or the union employees as to whom they had selected to act as arbitrators of the dispute regarding the interpretation of the clause relating to seniority of service.

The arbitration proposition as drawn up by the executive committee of the employees was endorsed at a meeting of the street car men's union yesterday morning, and afterwards submitted to General Manager Silliman. He promised to look it over and let the executive committee hear from him later.

It is likely the names of the arbitrators will be made known today. The employees have picked on two men, but until they have the acceptance of these two, they do not deem it advisable to make their names public. Ex-City Solicitor I. H. Burns is said to be one of them.

The employees will ask their arbitrators, that in case a fifth member of the board is deemed expedient, they will ask that some prominent member of the National Civic Federation be asked to act. Nathan Straus and Ralph M. Easley are mentioned as among those whom the street car men would desire as the fifth man.

DR. BATESON'S DISCOVERY.

Has Found Out What There Is to Christian Science.
Dr. J. C. Bateson, of this city, after years of study and careful investigation, says he has discovered and demonstrated, beyond a doubt, that the power to heal the sick accredited to Christian Science, Faith Cure, Clairvoyance, Hypnotism, etc., is the same in each case, and is due to the proper adjustment and application of the laws of human temperament and not to any supernatural intervention.

In referring to superstitions and fads, Dr. Bateson in a paper read at a meeting of the Medical Society of the State of Pennsylvania held in Wilkes-Barre, September 19, 1900, made use of the following language:
I will venture to state that if there was a general interest taken in the study and promulgation of the laws of temperament, especially by the medical fraternity, that there would soon be almost a complete cessation of the superstitious notions and fads cherished and advocated by many intelligent and conscientious people of today. Such, for example, as the so-called Christian Scientists, Hypnotists, Spiritualists, Faith Healers, etc. These people would learn that the secret of their power to cure is not in any manner exercising the law of healing in accordance with certain conditions of human temperament, and not on some supernatural power.

The healing process is in itself a law like cohesion or growth, and is exercised by various means in accordance with the susceptibility of the temperament to the remedy used, whether by faith, suggestion, drugs, diet or nursing. So that when a cure is effected by faith alone, it is the result of natural law under favorable circumstances, and thus is removed the skeptic's objection to the doctrine that God raises up the sick in answer to prayer.

32. John Mackie, Evimohance, 16
33. Elmer Williams, Elmhurst, 16

Three contestants scored points yesterday in The Tribune's Educational Contest, as follows: Frank B. McCreary, of Hallstead, 6; A. J. Kellerman, of Scranton, 6; and Chas. W. Dorsey, of Scranton, 12.
Frank McCreary passed Miss Beatrice Harpur, of Thompson, and now holds fifteenth place in the list.
Charles Dorsey increased his lead over A. J. Kellerman in the struggle for the July prizes. He also opened up quite a gap between himself and L. E. Stanton, who has been pressing him closely for ninth place in the contest.
A. J. Kellerman is getting close to the four hundred mark and nearer to first place. He now lacks 67 points to tie Charles Burns for the premiership of the competition.
Those contestants who are content to sit idly by and not try to improve every chance are liable to be badly disappointed when the contest is over. While they are "taking it easy" others further down the list are not and a sad awakening awaits some who have let golden opportunities drift by.
The ten contestants who have secured the largest number of points since July 1, with their standing since then, follow:

Leading Contestants for July.

- First Prize—Birdseye Maple Writing Desk.
- Second Prize—Waterman Gold Fountain Pen.
1. C. W. Dorsey 106
2. A. J. Kellerman 95
3. Albert Freedman 70

Mid-Summer Sufferings.

PAINE'S CELERY COMPOUND

Quickly Dissipates Tired Feelings and Gives New Life to the Weak, Nervous and Debilitated.

Tired, languid and despondent feelings prevail to an alarming extent during the heated term of summer. Such feelings indicate depleted blood and a feeble condition of the nervous system.

This is just the time when Paine's Celery Compound is needed to build up flesh and muscle, brace the nerves and clear and strengthen the brain.

Sick headaches, nervous prostration, sleeplessness and a general feeling of mental and physical depression by which life is made almost intolerable in the hot weather, can all be speedily banished by the use of a bottle or two of Paine's Celery Compound, nature's summer renovator and strength-giver.

Paine's Celery Compound never fails to repair the wasted and worn-out tissues; it calms and perfectly regulates nervous action and brings that sweet and restful sleep that makes life happy.

The medicine that in the past has done such marvelous things for others, is the kind you should use at this time.
