THE MARKETS

Wall Street Review.

Wall Street Review.

New York, Aug. 11.—There were not lacking today echoes of last week's excited surmises regarding the supposed readjustment of relations in the southern and southwestern railroad world but the entire absence of any official corroboration of countenance for the rumors caused a pause in the speculation based upon them. The necessity for some arrangement to harmonize perfectly the new order of things by reason of change of control in the Louisville and Nashville and the passing of the Chicago and Eastern Illinois to the 'Frisco is generally recognized. Attention was diverted anew to the money market today in view of the heavy inroad upon the surplus reserves of the banks revealed by the Saturday bank statement. Many glowing reports were received in Wall street of the promise of the harvest the large traffic moving on the railroads and the indications for an unusually large fall trade in all branches. The present high level of prices for grain carrying railroads is the result of former buying to discount these very conditions. It is certain, also, that the more active business is the more demand there will be for cash in the country's circulation thus drawing it from bank reserves. Call money rates rose above 3 per cent, today as a result of these conditions on the part of the lenders of money and time money rates were also firmer. During the final hour the pressure to sell became urgent and prices declined sharply throughout the list. St. Louis Southwestern preferred, and Norfolk were conspicuously strong in the early dealings but they lost most of their gains in the later reaction. St. Louis stiffened auddenly to the best at the last. The closing generally was irregular. Total sales today, 60,400 shares. Selling to realize made the bond market easier. Total sales, par value, 81,700,000. United States 3s advanced ½ per cent, on the last call.
