The hour of the generals' departure from London was kept secret; consequently the streets were deserted, when the three generals, accompanied by their secretaries, but by none of the ladies of their party, started for Cowes.

Upon arriving at Southampton the Boer generals were welcomed on board the commander-in-chief's yacht Wildfire, by Earl Roberts and General Lord Kitchener. They immediately visited King Edward on board the Victoria and Albert and were taken for a trip around the fleet in the Wildfire. They returned to London this evening accompanied by Earl Roberts and General Lord Witchener, who took leave of the Boers at Waterloo station.

In an interview with a representa-tive of the Associated Press, General Botha's secretary described the visit to his majesty. He said that when the Boer generals boarded the royal yacht King Edward came forward and, after they had been introduced shook hands with each of them. The Boers were highly pleased with their reception. After a brief and informal talk of a non-political character with King Edward they were introduced to Queen Alexandra and Princess Victoria.

The reception by his majesty lasted quarter of an hour. The king spoke of "the gallant and brave manner" in which the generals had fought through the long and arduous campaign" and "the consideration and kindness" with generals had treated Britis wounded. His majesty expressed his warm wishes for their future. It was at the king's suggestion that the Boers took the trop around the fleet on board probable, and that this union will give Shah of Persia, arrived at Dover at the Wildfire.

Rome, Aug. 17.-The pope is in such good health that it was not thought necessary to suspend the Saturday audiences as has hitherto been the costom, in order to give the pontiff strength for a fatiguing ceremony, such as the great Name day reception of today. Dr. Lapponi, the pope's physician, insisted, however, upon limiting the number of guests to 200, instead of the unusual 500. The efforts to obtain invitations to the Name day reception were so persistent and came from such of them, overruled his physician's adnames added.

The reception lasted for one hour, His holiness talked about the collapse of the Campanile of St. Marks at Venice, and expressed a wish to see the restoration of the roof of the Lateran

Palace before he died. Among the telegrams of congratulations received by the pontiff was one of twenty thousand words from the Catholics of Catania, Sicily. The receipt of this long message caused amusement, as under the settlement with the Italian government all telegrams for the vatican are accepted and

## AGRICCLTURAL MORTGAGE LOANS

May Be Granted Small Land Holders Under Government Supervision-A Plan That Has Been Successful in Turkey-An Enterprise That Will Be of Great Benefit to the Small Farmers if Put Into Effect.

By Exclusive Wire from The Associated Press. New York, Aug. 17.-Some data regarding mortgage loans to small landholders, under government supervision, has been forwarded to Judge Henry C. lde, secretary of finance in the Philippine islands, by Charles A. Conant, who was in the Philippines last summer for the purpose of studying coinage and banking institutions there. Mr. Conant says it appears that mortgage loans under government guaranty are successful, even under the conditions existing in Turkey, and that Lord Cromer is preparing to extend the system in Egypt. The national bank of Egypt has already made loans of about \$2,000,-000 of this character, but as it is a commerciai bank, is indisposed to lock up further capital in this form of security. A new bank is, therefore, in process of formation, to engage exclusively in small mortgage and agricultural loans. The government is to guarantee dividends of 3 per cent. on the capital, and is to employ the public tax-gatherers, if necessary, to collect the interest on loans. Mr. Conant said today:

arate conferences with John Barrett, "I have sent some information on commissioner-general for Asia of the this subject to the Philippine commis-St. Louis exposition, have concurred in sion, in the belief that they might find it useful if they wish to prepare a similar project for the Philippines. By Exclusive Wire from The Associated Press, Fort Worth, Tex., Aug. 17 .- Alvin N. Jack, who was an eve-witness of the execution of thirty Yaqui Indians at Torin, State of Sonora, Mexico, arrived here today. He says the Indians came down out of the Sierra Madre mountains to get water and were surprised by Mexican soldiers, who captured them after a slight skirmish.

The Indians were marched two miles, to Torin, and placed in a large adobe building. One by one, they were marched out, stood against the adobe wall and shot. A detachment of six soldiers lined up a few paces from the Indians and fired the bullets into them. The execution was in compliance with a general order issued by General Torres, which, in effect, means the total extermination of the Yaquis in Sonora. There are now only about eight hun-

dred or a thousand Indians in the state and they are rapidly being annihilated. The bucks are being executed wherever they are captured and the women are sent to Yucatan. As many Yaquis as can are stealing over the line into Arizona.
