STRAINED RELATIONS WITH TURKEY

State Department Admits That There is a Renewal of Tension Between Both Countries.

ORIGINATED DURING ARMENIAN TROUBLE

To Some Extent the Ill Feeling Has Grown Out of Long Pending Claims—The Stone Abduction May Also Have Added to the Irritation. Department Officials Refuse to Disclose Condition of Affairs.

Washington, Aug. 19.—It is admitted at the state department that there is a renewal of tension between the United States and Turkey, but the officials do not deem it prudent to disclose the present condition of affairs. They say, however, that the condition is in no way grave, but is of that strained character which has occurred from time to time with Turkey in recent years. It is gathered that the present tension grows out of the long pending claims of Americans who suffered loss during the Armenian outbreak. To some extent the Stone abduction case added cause for irritation.

Minister Lechman has been given the latitude to deal with the situation as circumstances may demand. There is the fullest confidence on the part of the authorities here in the course being pursued by our minister, and as he has been given such a free hand in directing affairs, it is not thought desirable to prejudice any steps he may be taking by official comments as to what has been or will be done.

SHAW TALKS ON TARIFF

The Secretary of the Treasury Is in Favor of a Moderate Re-Adjustment.

ADDRESS DELIVERED AT MORRISVILLE

Speaks for Some Modifications, but Presents Clear Arguments Against a General Revision—Tariff Not the "Mother of Trusts"—What Would Follow Removal of Duty on Meats.

Morrisville, Vt., Aug. 19.—Secretary of the Treasury Leslie M. Shaw, who attended school at this place, delivered an address here today. The secretary said, in part:

I have been quoted as opposed to a revision of the tariff. I have never opposed readjustment of the tariff. Whenever congress reaches the conclusion that the friends of protection are strong enough to support it, I am in favor of it. I have expressed some doubt, however, about the wisdom of including by resolutions or existing laws, and mandating for congress, when the effect is liable to precipitate a protracted debate with very uncertain results. There ought to be some more tangible reason for such a dangerous expedient than the existence of a sentiment in certain localities, now as always, that commands a reduction of the tariff on articles consumed and not produced, while it stands ready to fight to a finish any reduction on the thing there produced.

Wreck on the Pennsylvania
Trains Telescoped—Several Killed, Many Are Injured.

Asbury Park, N. J., Aug. 19.—A regular Pennsylvania train on the New York and Long Branch railroad, bound north, was run into from the rear at the Belmar station tonight by a special Central Railroad of New Jersey train. The Pennsylvania train had stopped at Belmar station to pick up passengers. The Central train was running north also, and was empty. The engine of the Central train telescoped the rear of the Pennsylvania train. Six cars were wrecked, several persons were killed and a number injured. At midnight, two bodies had been taken from the wreck. A little girl was killed as she was being put aboard the waiting train. The engineer and fireman of the Central train have not been seen since the collision. It is believed they are under the wreckage.

The wreckage is piled thirty feet high. The freight shed at the depot was demolished and the depot badly damaged. Their wreckage added to the heap on the rails.
Fitzpatrick, a brakeman, was caught in the wreckage and badly scalded by escaping steam and hot water. He was released from under the wreckage which held him down, and ran almost four miles to his home, where he is being attended by a doctor.

POSITION OF OPERATORS

No Foundation for Rumor That They Will Make Concessions.

New York, Aug. 19.—The president of the anthracite coal roads had their usual weekly conference here today. Before going to the meeting Mr. Truesdale, president of the Delaware, Lackawanna and Western Railroad company, said:

"There is no foundation in fact for the rumor that the anthracite coal operators will make concessions in order to end the strike. I think work will be resumed in time to produce plenty of coal for the fall demand. The operators are ready as they have always been to adjust with their men any grievance that they may have and they have never discriminated against any of their men because they have belonged to the union. What the operators will not do is to discuss their business affairs with outsiders."
