## **WASHERY RUNS** AT DURYEA

NO TROUBLE YESTERDAY AT WARNKE PROPERTY.

Small Crowd Congregated About the Warnke Washery Yesterday Morning, but Maintained an Orderly Attitude-Large Number of Deputies Augment Force Guarding the Property-Sheriffs Schadt and Jacobs Were Present with Twenty Men Each-Thirty Men at Work.

The Warnke washery at Duryea resumed operations yesterday morning at o'clock and work was continued throughout the day, without molestation of any sort. A crowd of about thirty or forty men and boys congre-gated about the place early in the morning but created no disturbance. They dispersed shortly after the machinery had been started, and work

was under way. A number of deputies quietly patrolled the property throughout the day. They carried no rifles, but were each armed with a brace of The guards taken to the washery Tuesday were yesterday reinforced and the total number of deputies at the washery is over sixty. About forty of them were brought down yesterday by Mr. Warnke himself . The washery was yesterday run at its

full capacity and Mr. Warnke has expressed his belief that it will continue to run, without any further trouble, "I certainly see no reason why we alone should be molested," he declared. Practically every washery in the district is now running, without any in-terference and just why we should be picked out as the butt of all the pent up violence in these parts is beyond me. However, I think we have now 00000000000000000 passed the danger point, and operations can go on without any fear of trouble."

In addition to the coal and iron police who were yesterday on duty, the washery was given ample protection by the county authorities of both Lackawanna and Luzerne. Both seemed to realize that strong show of force would tend to nip in the bud any tendencies towards violence, and accordingly Sheriff C. H. Schadt of this county and Sheriff Jacobs of Luzerne were each on hand, with twenty deputies apiece.

The small crowd which gathered did not even evidence any embryo attempts at riot. The authorities of the mine workers realize that any acts of violence workers realize that any acts of violence are most inimical to their cause, and united with the county officials in pre-serving order, by frowning down the least indications of uneasiness or dis-content among the residents of Duryea. Organizer Schlosser was present, before the washery started, and counseled the few men about the washery, to avoid all disorderly conduct.

I am happy to say that my charming wife, as well as the chaplain, have hope of a good recovery from shock and exhaustion, and if ever entirely well, will recall the events of our trip with some pleasure."

If public sentiment is any criterion, he officials of the bureau of police made no mistake when they advanced Patrolman James Feeney to the posttion of lieutenant and gave him charge of the most important precinct in the city, the central district. Lieutenant Feeney has proved himself a splendid officer. While a comparatively young man, Lieutenant Feeney is one of the veterans of the force, and was for a ong time a familiar figure on the South Washington avenue beat, which he toured in the company of Patrolman

He was a young urchin then, and with small boys' curiosity had followed the mob of strikers, to watch developments. Curiously enough, Robert Deiter, now city detective, was another youngster, who had trailed along to see the excite-"The memory of the day is ment. strong in me yet," said Lieutenant Feeney, "and when I think of it, I feel tempted to tell people that they don't know what they're talking about when Bunday Excursions.

NEGRO PROBLEM

IN SOUTH AFRICA. Serious Conflicts Between Boers and

Blacks Imminent.

By Exclusive Wire from The Associated Press. London, Aug. 20 .- Mall advices received here from Johannesburg indicate that the negro problem is growing more acute and is causing the authorities infinite worry. To quote the words of one of the foremost South African

On the question of the natives depends the whole future of the new colonies— whether the Boers will loyally accept British rule or continue in a state of sullen resentment. Among the immediate dangers, native attacks on Boers returning to their farms and attempts of natives to assault white women are threat-ening to lead to serious conflicts be-tween Boers and blacks. Under the old regime the crude but simple retribution for assaults on women was shooting on sight. Now, however, there is no legisla-tion on the subject, and the English au-

ulent effrontery.

Another phase of the problem is the unwillingness of the blacks to forego their lazy existence in the concentration camps, where thousands were gathered during the war. But far more serious is the fact that a great number of blacks in the country have managed to secure arms. There is, therefore, the anomalous situation of unarmed whites and armed blacks living in proximity on outlying farms. Experienced British colonials strongly favor universal disarmament of the natives and prompt legislation, making the assaults on women a capital of-
