GOVERNOR STONE ALSO CRITICIZED

Accused of Having Broken a Promise to the Three District Presidents, to the Effect That He Would Not Permit the Troops to Be Used to Escort Non-Union Men to and from the Mines—Jay Cooke Aims His Views of the Labor Revolt—Other Strike Developments of a Day.

Philadelphia, Aug. 31.—The Central Labor Union of Philadelphia, at its regular meeting today, unanimously adopted a resolution denouncing Brigadier General J. P. S. Gobin, in command of the troops now on duty in the anthracite coal fields, for issuing an order calling on his men to shoot strikers if they resist the authority of the troops.

His order of the night, General Gobin has directed Major Gearhart, in command here, to arrest all women and girls who insult troops in any way. The turbulent spirit of the strikers, evidently heeding the strict orders given by General Gobin, did their best to maintain order and it proved to be the most peaceful since the inauguration of the strike.

JAY COOKE'S VIEWS ON MINE STRIKE

Says He Would Have Met Men Half Way and Charged It Up to the Consumer.

New York, Aug. 31.—The Herald prints an interesting interview with Jay Cooke, the veteran financier and man who in his busy days transacted more and bigger business than Pierpont Morgan ever dreamed of. Mr. Cooke predicts a continuation and growth of present prosperity; credits our wonderful development to the economic doctrine of Protection; and on other topics says:

The constant outcry against wealth merely because it is wealth is wickedly wrong. We know of only a few men who are capitalists, and if they use their capital for the development of the country's resources they should be encouraged and not antagonized.

AMERICAN PURPOSE PLAINLY SET FOURTH

To Educate the Natives to Fitness for Self-Government, They Then to Choose Between Independence and a Relation Such as Canada or Australia Bears to the British Empire. Favors Gold Standard of Currency. Vice-Governor Wright Also Speaks.

Manila, Aug. 31.—Governor Taft was given a banquet by the American chamber of commerce at Manila Saturday night. In an address replying to a toast the governor discussed the future of the Philippines. He said the United States would retain the islands indefinitely with the view of educating the Filipinos to a state of self-government and other conditions which would enable them to decide whether they desired to become independent or be made into a state like Canada or Australia under Great Britain. Governor Taft said he believed the relationship between the two people would be continued and that the Americans were here for the benefit of the Filipinos.

He said the Americans did not desire the islands for selfish purposes, and promised that American capital would get fair treatment here. Continuing, the governor expressed his belief that commercial interests must ultimately rely upon Filipino labor, although a temporary relaxation of the immigration restrictions was possible. He said the United States civil commission would again recommend congress to give the Philippine islands a gold standard of currency, as the present fluctuating silver standard was a disadvantage to everybody.

Luke E. Wright, who acted as civil governor of the islands during the recent absence of Governor Taft, also spoke at the chamber of commerce dinner. He expressed the opinion that the true future of the islands depended upon the admission of their products to American markets. Commissioner Wright regretted that the Philippine question had been made a football in American politics.
