TODAY IS LABOR DAY

MANY OPPORTUNITIES FOR CELEBRATING HOLIDAY.

Big Labor Day Parade Will Be Held This Morning and Excursion to Lake Ariel Promises Day's Enjoyment—Base Ball at Athletic Park, Racing at Speedway, and Drama, Burlesque and Vaudeville at Playhouses—Parade Starts Promptly at 9 O'clock This Morning.

Today is Labor day, and it's going to be a Labor day observed as few have ever been in this city, without any disparagement being intended of the very complete demonstration which have occurred here in the past on the great labor holiday.

Special pains have, however, been taken by the labor unions of the city and county to make today's observance red-letter event in the local history of Labor. This morning's parade is expected to be the largest and best arranged which has ever trod the city streets, and nothing has been left undone to assure the success of the excursion to Lake Ariel, and the complete enjoyment of the thousands who will attend.

The great majority of city merchants have responded to the Central Labor union's request that they close their places of business today and allow their employees to enjoy and properly celebrate the occasion, and in addition a number of storekeepers have gone to considerable pains and expense to decorate their places of business, which are along the route of the parade's line of march.

At the lake the principal attraction will, of course, be the choral singing, which was such a notable feature at last year's labor demonstration at Lake Lodore. In addition to this, the usual picnic diversions will be open to all desiring to avail themselves of their pleasures.

NO SPEECHMAKING. There will be no speechmaking this year. President John Mitchell, of the United Mine Workers, whose stirring speech at last year's excursion is still well remembered, will be unable to be present at Lake Ariel today, but even in event of his presence it is doubtful whether there would be any addresses, as the committee of arrangements had decided to omit that feature of last year's programme.

Those who prefer to remain in the city and celebrate the day at home will also be given many opportunities of enjoying themselves to the utmost. At each of the local theatres, with the exception of the Lyceum, there will be a special Labor day matinee, and those who prefer to spend their afternoon in contemplation of more athletic amusements can either visit Athletic park and see a good game of base ball, between the Scranton team and the Luzerne ball tossers, or journey to the Speedway and witness some excellent horse racing.

It was announced at the meeting that President T. J. Foster, of the International Correspondence schools, had complied with the request of the committee, and all the company's employees will be promptly dismissed from work at 10 o'clock, in order that they may enjoy the day properly.

P. J. Conlon, of the Carpenters' union, was made an additional member of the committee in charge, and Jacob D. Keller, of the carpenters, was appointed chairman of the sub-committee and given charge of all train arrangements and sale of tickets.

The grand marshal of the parade and his aides, the executive committee of the parade, and the sub-committee will meet at the Central Labor union headquarters, 32 Library building, at 7 o'clock this morning.

The parade will be started promptly at 9 o'clock. Trains for Lake Ariel will leave the Erie station at 8:45, 11, 11:20 and 1:35 o'clock.

The members of Local No. 52, Garment Workers of America, will distribute Brownies to the children during the parade this morning. The ladies will ride in a trolley-ho.

DYNAMITING AT THE NATIONAL

MINOOKA THE SCENE OF TWO EXPLOSIONS.

The First Put a Pump Out of Service Late Friday Night, and the Second, Last Night, Did No Damage. Teamsters Called Upon to Stop Hauling Coal—West Ridge and Marvins Collieries Expected to Start Up This Week—Searchlight at the Oxford.

Dynamiting is now being done down Minooka way. Last Friday night, between 11 and 12 o'clock, and last night again at 8 o'clock, the National washery of the North American Coal company, just across the city line, was the scene of explosions.

The Friday night explosion was a daring piece of work. The company had a pump at the river's edge to supply water to the washery, and two men were kept there on guard day and night. Despite this precaution, some one succeeded in crawling unobserved to the pump and placing a dynamite cartridge under it.

TO STOP HAULING COAL. At yesterday's meeting of the Central Labor union the miners' delegates asked that the teamsters be called upon to stop hauling coal. The matter was discussed at length and a resolution finally passed calling on the teamsters to comply with the miners' wishes.
