CONTRACT FOR THE SEWER HAS BEEN AWARDED.

Council Decided at Its Meeting That M. J. Gibbons Is the Man to Do the Job-His Bid Is \$56,770.75-New Map of the Borough to Be Prepared-Other Business That Was Transacted by Councils-Tournament Conducted by the Tennis Club-Other Items.

The council met in regular session fonday night with all members present. The sewer question, which has been the stumbling block of the council for some time past, was finally disposed of by awarding the contract to M. J. Gibbons, of Scranton, whose bid was \$56,770.75. Borough Engineer Horan. in pursuance of instructions from the council, presented a new estimate of the probable amount of rock to be encountered in the work, which he stated approximately to be 18,000 feet, as against 48,000 feet estimated by ex-Borough Engineer Knight. Based on this latest estimate, which is conceded to be very low, the figures of the three lowest bidders were as follows: M. J. Gibbons, \$56,770.75; O'Boyle & Donahue, \$57,831.60; Hendler Construction company, \$56,175.75. These figures show that the Hendler bid is \$602 low, and for every foot of rock found over 18,000 feet it will be lower, at the rate of thirty-two cents per foot.

Elorough Treasurer Wahlers reported that he had received \$447 from the Scranton Gas and Water company, seing their share of the expense of building the Nay Aug bridge. The electric light committee recommended that an additional light be placed at Mt. St. Mary's seminary, and it was so

Chief of Police Healy reported two wrests during August. The street com-missioner's expense sheet for the month was \$328.50. Mr. McLaughlin introluced an ordinance regulating the peed and management of electric cars within the borough. The speed is limited to four miles per hour and all cars must be stopped at every street crossing. A fine of \$1,000 to be imposed for each violation. It was referred to com-

P. J. Grady, of Drinker street, was elected to the position of sewer inspector, without opposition, Mr. Doudlean moved that the street commissioner suspend work on the borough streets until such time as he has removed all stone now quarried from the Golden lot

on Blakely street. Borough Attorney McDonald informed council that the case of Martin Dolphin against the borough for \$1,000, for the death of his child, caused, it is claimed, by falling into an unguarded ditch at the corner of Webster avenue and Brook street, is on the list for September 15. The secretary was instructed to prepare needed data to enable Mr. McDonald to prepare the case.

A map of the borough is to be prepared, to better enable the ward assessors to find properties. This expense is to be borne jointly by the county commissioners, school board and councils, and it has been estimated that the expense, all told, will be about \$3,000. Borough Engineer Horan was instructed to begin the survey necessary at once and prepare the map as soon as

Unless some unforseen injunction or other hindrance should delay the work. It is expected that work on the sewer will begin within two weeks

Tennis Club Tournament.

The Tennis club held a very success ful tournament on their Dudley stree court during Saturday and Monday Miss Helen Farrar was the winner in the ladies' singles, and Gilbert Close in the gentlemen's.

The gentlemen's doubles were won by H. C. Hubler and George Ellis, and the ladies' doubles by Misses Helen Farran and Mary Decker. Refreshments were served on the grounds, and a very enjoyable day was spent by the members and a large number of guests. Last evening the club was entertained at the home of Miss Kathryn Teeter, on Elm street.

THE MARKETS

New York, Sept. 2:—The resumption of operations in the stock market after the triple holiday was accompanied by increased activity and strength in the entire list. More than a score of stocks established new high records, among them being Atchison common, Canadian Pacific, Cleveland, Cincinnati, Chicago and St. Louis, Colorado Southern second pre-St. Louis, Colorado Southern second pre-ferred, Detroit Southern common and ferred, Detroit Southern common and preferred, Missouri Kansas and Texas preferred, St. Louis Southwestern, Norfolk and Western, Pennsylvania, Baltimore and Ohio, the Readings, St. Joseph and Grand Island second preferred, Toledo, St. Louis and Western common and preferred, Wheeling and Lake Ericommon and second preferred and the Sloss-Sheffield Steel Issues. Contributing factors were last week's favorable bank statement and the strength of Americans abroad, London buying on balance to the extent of 20,000 shares, chiefly Atchisons and Reading. No specific news was heard to account for the improved conditions and general enthusiasm save in the heard to account for the improved conditions and general enthusiasm save in the
case of the anthracite coalers concerning
which there appeared to be a fast increasing belief fostered in high circles
that the strike is nearing an end. Reading common was the feature scoring a
net advance of 5% points and closing at
the highest figure of the day on transactions aggregating over 250,000 shares or
almost one-quarter of the day's total
operations. The other Reading issues
made material gains, as did also Lackawanna, Delaware and Hudson, New Jersey Central and the Eries. There were
rumors that the heavy buying of Reading common had unwillingly created a
condition savoring of a corner. The buying of this stock came in large part from
houses supposed to represent inside interests. Total sales for the day, 1,201,700
shares. Railroad bonds were generally

Chicago Grain Market.

Chicago, Sept. 2.—Trading in grains today was of a dull, though somewhat nervous nature. The fact that there was no contract grade stuff to deliver on September wheat, corn or oats contracts (a condition that was expected), had something of a bullish effect. Weather conditions, however, were improved for both wheat and corn and as a result of the tame conflict between these two factors in a very narrow market mai price changes were slight. September wheat closed 44n3c. down: December, unchanged; September corn, 43c. higher; December, 44c. lower; and both September and December oats, 43c. higher; Provisions closed 5c. lower to 10c. higher.
