It would be manifestly unjust to treat a few at a reduced rate and charge others a higher price. In order to give all an opportunity to be cured at a nominal price, he will treat all persons applying at his offices on the following conditions: All persons applying for treatment st once, no matter what the trouble may be will be treated for the nominal sum of \$10.00 until cured, medicines included. This does not mean \$10.00 a month, but \$10.00 for a complete and radical cure. He furthermore agrees that if the patient is not completely cured in a specified length of time, to return the money paid without any quibbing or evasion; is other words, it will not cost the patient one cent unless a cure is effected. get the benefit of it, it is important

to call at once. His practice is so large that it will be impossible for

him to continue this offer indefinitely.

**BI-CHEMIC TREATMENT.** 

The different tissues of the body are made up of minute cells, and when these cells become disarrange., disease is the result. By supplying the proper nutriment to the cells, perfect health can be obtained. All diseases,

no matter how chronic, can be cotained. All diseases, no matter how chronic, can be cured by bring-ing the cells back to their normal condition. The treatment used by Doctor Byers is not allopathic or homeopathic. It is a treat-ment based upon an exact science and cures with the certainty of a fixed law.

Social Session of the St. Aloysius Society Held in Pharmacy Hall. Features of Entertainment.

A most enjoyable evening was spent it Pharmacy hall on Pittston avenue, last evening, when St. Aloysius' Total Abstinence society convened in social session. It is the custom to hold a smoker once a month, and last night's session was one of the series. A first class vocal and instrumental programme had been provided by the committee, and it was heartily appreciated by those present. Rev. Father Boland was introduced by Chairman Hubert  $\nabla$ . Coyne, and made the address of the evening. He spoke strongly on the value of total abstinence, and his good

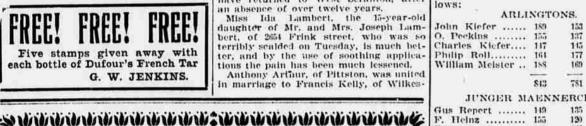

advice was well received. Among those who took part in the exercises were: Joseph McCann, who rendered a vocal solo; John Murphy and Thomas Barrett, who gave recitaions, while songs were given in good voice by Hubert Covne and John Courtney. Patrick Moran rendered a clever solo on the mouth organ. A buck and wing dance by Frank Lavelle was also highly appreciated. Selections were given at intervals by Flore's orchestra, who closed the musical part of the programme shortly after 10 o'clock, with a medley of popular airs.

Refreshments consisting of lemonade and cake were then served, and the igars were afterwards passed. St. Aloyslus society was organized

about seven years ago. It has a membership of 150, and has been a power for good in the community.

Mrs. Barbara Dickson, Parker street, Providence: "I had chronic diarrhoes for fourteen years, which caused violent bear-ing down and dragging pains in my abdomen and ioins. My bowels were often moved as high as seven times in one day. The strain-ing finally brought about severe protruding piles. These caused me much misery. When I want to Doctor Byers' office I was so weak from my suffering that I could hardly drag myself along. The first treatment he gave me drove all the pains out of my hips and legs. The pain was something terrific; no one will ever be able to appreciate the torture that I endured. I tried various doo-tor only to get temporary relief. Finally after hearing so much about the wonderful cures being performed by Doctor Byers' treatment I concluded to go to his office and place myself under his care.
