POREMAN KILLEEN TAKES AN INNING

He Resents What He Claims Were Impurtations of His Honesty by President Davis, of Select Council. Addressed Common Council-Other

The discussion stirred up by the sensational resignation of City Engineer F. E. Kupp threatens to be intermin-

Last night there was another echo, and a noisy one. Street Foreman John Killeen had his inning. He went after Chairman Davis, of select council, for certain strictures on him, made by Mr. Davis at Saturday night's meeting of select council. Mr. Killeen got permission to address common council at its meeting last night, and proceeded to resent Mr. Davis' statements.

Mr. Killeen declared that his relations and all his transactions with City Engineer Kupp were honest, and he invited council's inspection and investigation of his career. If he was not entitled to the increase of fifty cents per day, he didn't know; but he supposed Mr. Kupp was acting according to his duty and his rights. Mr. Killen said that after the raise of salary, in the spring, Mr. Davis was among the first to inform him that his wages had been increased. "From what Mr. Davis said," continued Mr. Killeen, "it would look as if I was in cahoots with Mr. Kupp, which isn't true, as all our transactions are as honest as could be." Mr. Killeen further resented the suggestion of Mr. Davis about the number of hours he worked, and claimed that he was out all hours of the night at times, for which he never got a cent extra compensation. "I have been working for the city," said he, "when Mr. Davis and others were in their beds." He cited the work on the

Then he was out at 3 in the morning. Chairman Masters, at this point, could see no reason for Mr. Killeen continuing, and rapping the table with a vigorous swing, declared Mr. Killeen out of order; advising him to go before select council, where Mr. Davis made these statements.

Mr. Davis was present and wanted to answer Mr. Killeen, but Chairman Masters, refusing to allow any further exchange of personalities, brought his gavel down once more, with: "You're out of order, Mr. Davis." Thereupon, Mr. Davis did as the man, who sings,

They do not believe it necessary and are not in circumstances to meet the assessments. As some of the names also appeared on the petition for the sewer, the remonstrance was referred to committee with instructions to report at the next meeting.

A request was read from the Merchants' association asking that the daily test of the fire alarm system be made daily, as the practice some time ago, by sending in an alarm from a different box each day. The communication was received.

TO PORT JERVIS TOMORROW.

Mitchells to Leave on Special Train at 1:30 O'clock in Afternoon.

The Mitchells will be off tomorrow for Port Jervis, on their jaunt of three days, the guests of the Neversink Hose company, in the town on the Delaware. Through judicious use of printers' nk and some hustling by the enterprising and energetic hosemen, the Mitchells have secured a special train. Accordingly they will travel with a degree or more of comfort and expedition than if the regular were to be taken. The special train will leave the city station of the Delaware and Hudon at 1.30 sharp tomorrow afternoon. From Honesdale the Erie will be taken, Port Jervis being reached in time for

The Mitchells will go 100 strong, arrayed in their splendid uniforms of gray and buttons of silver. About 100 additional Carbondalians will accompany the hose men, to join in the festivities and to encourage the Mitchells in their efforts to carry away some of the prizes offered to visiting companies. An enjoyable time during the three days' stay is anticipated, and it is assured before hand that the Mitchells, of whom Carbondalians are justly proud, will give a good account of themselves.
