WON TWO RACES AT THE WEST PITTSTON FAIR.

L. A. Patterson's Black Gelding Got the 2.17 Event and the Callie K. of C. P. Wentz Won Three Straight in the 2.29 Event-Two Other Scranton Horses Were in These Events-Card for This the Big Day of the Fair.

From a Staff Correspondent.

West Pittston, Pa., Sept. 10.-Lackawanna county horses won the two races held here this afternoon. Two first places and one second is the record for the first day's racing. Timewood, a black gelding, owned by L. A. Patterson, of Carbondale, won the first race, for the 2.17 class, after two heats had been placed to the credit of Callie K. Wentz, of Scranton, saw his white-faced gelding, Prince D., win the second race in three straight heats, with H. S. Gorman's Post Haste

The racing was not very exciting, none of the finishes being of the hairraising order. There were no accidents to mar the day. About 2,500 persons were inside the gates this afternoon In the agricultural portion of the fair the display of poultry breaks all previous records, both in quantity and qual-The Spring Brook Poultry farm has a number of fancy blooded hens, roosters and chicks. Besides these there is a coop of golden pheasants, formerly the property of Colonel Louis A. Watres, of Scranton; a coop of Japanese pheasants and one each of English pheasants and chicks.

In the poultry building the cackle of the fowl, the howling and barking of the dogs and the cooing of the pigeons draws the attention of every visitor In one of the wire-covered kennels a black spaniel and a Maltese kitten get along together very amiably. Two Shetland ponies with ground-sweeping tails are favorites with the children.

ADDITIONAL EXHIBITS.

A large number of additions were made to the exhibits this morning in all the departments, particularly that of household products. Among the special exhibits in the fancy goods is a handsome Paisley shawl, such as our grandmothers wore, which bears a card stating it was bought in England in 1745. There is a ladies' garment embroidered in gold from Cairo, Egypt, and a Scotch tea cosey and Scotch bonnet. Among a lot of hand-painted china are two antique pieces which served as wedding presents in 1818. Among the mercantile displays is one by the Columbus Buggy company, the American Photo Paper company and

Hendricks & Son, of West Pittston, nickle platers. The amusement venders and fakirs are less numerous this year than usual. In fact there are scarcely enough outside attractions. The usual noise made by the "barkers" is missing and those who have games of skill or chance to exploit utter their encomiums in subdued tones. Perhaps there may be a revival of the old-style vociferous yelling tomorrow, the "big day" of the

Today was distinctly horseman's day, as the great majority of the onlookers were solely there to watch the fast steppers. Assembled along the rail, stop-watch in hand, the warming up of the trotters and pacers seemed to have a fascination almost as great as the races which followed.

The first race, which was scheduled for 2 o'clock, was not called until half an hour later, in order to allow the track as much time to dry out as was possible. The officials in the judges' stand were: Starter, James Kelly: judges, C. C. Bowman, C. H. Cutler and C. W. St. John; timers, R. M. Hughes and S. B. Bennett; clerk of course, W. E. Saxe. When the first race was called there were not more than 1,000 persons on the grounds and less than 100 in the grandstand. The races were disposed of as follows:

FIRST RACE. 2.17 class, trot and pace: purse, \$250. First heat—Four starters out of eight en-tries, Frances J., blk. g., owned by C. R. Connell, of Scranton; Director Clay, blk. owned by James J. Mahon, of Scranton; Scherzonda, br. g., owned by William Koch, jr., of Scranton, and Harry Jordan's David Copperfield, of Pitts-ton, having been scratched. Callie K. rew the pole with Tinker second, time-rood third and Clesimstay on the outside. The word was given the second time up to a fair start. On the first turn Timewood drew ahead. At the quarter Timewood and Callie K. were on even terms a length in front of Clesimtay, Tinker being three lengths in the rear. At the half Callie had drawn a length

often the healthiest of a family of chil-dren? The reason seems to suggest it-self. As child follows child the mother has less and less vitality; often not enough for herself and none, therefore, for her child.

Expectant mothers who use Doctor Pierce's Favorite Pre-scription find that it keeps them in vigor-ous health. They eat well, sleep well and When baby comes its advent is practically painless, and the mother is made happy by the birth of a healthy child. If you would be a healthy mother of healthy children use "Favorite Prescription."

"I will be very glad to say a few words for Dr. Pierce's Favorite Prescription," writes Mrs. P. S. Douglas, of Mansonville, Brome Co., Quebec. At six furlongs Timewood dropped back to third place, Callie and Clesimtay making a gallant struggle to get into the homestretch first. The former came up to the wire a length ahead, Clesimtay being second two lengths in front of Timewood, Tinker being fifty feet behind the field. Time, 2.20%.

Second heat—The word was given to a poor start at the second attempt. Timewood being two lengths behind. Clemistay shot out in front at once and led Callie K. two lengths at the quarter,

At the half Clesimtay was holding his distance from Callie K., but Timewood wa sthird and this was the order at six furlongs. At the lower turn Clesimtay went to pieces and Callie K. salled by, with Timewood close up. All the way up the stretch the Carup. All the way up the stretch the Car-bondale horse kept gaining but the dis-tance was too short and Callie K. won the heat by a nose, with Clesimtay third three lengths behind and Tinker still fur-

Third heat—This was an easy heat for Timeowod. The black gelding was never headed, Callie K. was a head behind him at the quarter, a length at the half, a length at three-quarters and two lengths at the finish, all going easy. Tinker was third at the quarter, but dropped behind at three furlongs and continued fourth the rest of the way. Time, 2.194.
Fourth heat-Timewood won this heat

The whole three showed up at the finish so that Callie K., who was in the ruck could finish inside the flag. Time of heat, 2.26%. Summary: I. Timewood, b. g., L. A. Pat-

Dunn, of Scranton, Avoca Girl got the inside position, Annie Bezant shied and upset her sulky, but did no damage. Five times more they came up before they were sent away to an indifferent start. Annie Bezant shot out ahead at the up er turn, but broke right away and Prince D and Avoca Girl made it a neck-and neck struggle to the quarter. At the half Prince D., Avoca Girl and Annie Bezant went by in single file. Post Haste and Gold Rain several lengths beehind. At he three-quarters this condition was the same. Coming into the stretch Avoca Girl went in the air and Annie Bezant went into second place. Prince D. fin ished first. Twenty yards from the wire Annie Bezant broke, Avoca Girl came with a rush and captured second ion by a head, amid cheers from the spectators.

THEATRICAL.

The Japanese Dogs.

In the amusement profession there are dogs and dogs. The exhibition by the old time canine, who shrinks from his master while going through a performance in public, has been supplanted almost en-tirely by the intelligent animals of the who appear to enjoy the fun as well as the spectators.

The little dogs under direction of Master Kudura, the Japanese dog trainer, at Dixie's theater, are the most interestng of the latter class. The antics of the clown dog are particularly funny and are especially amusing to the children.

THE MARKETS

Wall Street Review.

Wall Street Review.

New York, Sept. 10.—For the most part the tendency of today's market was irregular, though opening with considerable strength which was well maintained until the last hour. About that time rumors of the serious iliness of Russell Sage caused a seiling movement in the Gould stocks, the remajuder of the list being sympathetically affected. Conditions as a whole favored higher prices. Early advices told of a truce between the Pennsylvania and Gould interests. Largely as a result of these last rumors and alded by clever manipulation, Pennsylvania and Baltimore and Ohlo, whose interests are virtually identical, advanced over a point each and the Gould stocks also gained. In the same move improvement was shown by St. Paul, Louisville and Nashville, Rock Island, New York Central, Illinois Central and the Wabashes, but the industrial list was neglected save for some activity and better prices in the gas stocks and American Ice preferred Following a brief halt toward the end of the first hour during which the list sagged, there came an active demand for Union Pacific, Reading, Manhattan, Atchisan and some of the specialties. At the same time there was some selling of Missouri Pacific by brokers who had been active on the other side. St. Paul, on persistent rumors of an increased dividend, made a further advance and Reading's strength was well maintained in spite of obvious profit-taking in Pennsylvania, Baltimore and Ohio and New York Central. United States Steel shares were taken up, the common being very extensively traded in and simultaneous strength was shown by Tennessee Coal and from and other stocks of that class. There was no news to account for the increased interest in these issues other than the general prosperity of fine steel and iron trade. The feature of the last hour was a 3 point decline in Missouri Pacific and the recessions in the standard railway list including Baltimore and Ohio, Reading first preferred, Southern Pacific, Missouri, Kansas and Tevans preferred, Webeniag and Isaak

Chicago Grain Market.

Chicago, Sept. 10.—Speculators in the grain markets were disinclined to trade actively today pending the issuance of the government crop report. Weather conditions were sufficient to start liberal selling early in the session, but small receipts of wheat, short stocks of corn and good support in oats kept prices very steady. Contract grades were almost invisible and tended to aid the markets.
