a minute, the repeating mechanism being nearly the same as that in the ordinary Winchester repeating rifle. A volley from five or six of these guns directed at an advancing mob would be almost as effective as a volley from a Gatling gun. It is said that they will do execution at a distance of 300 or 400 feet.

STEPHEN REAP ARRESTED.

Stephen Reap, of Olyphant, a member of the United Mine Workers executive board of District No. 1, was arrested yesterday on a warrant issued by Alderman Kasson charging him with interfering with an officer in the discharge of his duties.

Constable Ira Mitchell was sent up Delaware and Hudson teamsters. several of whom had offered to assist him.

Nealon was turned over to the care of Harry Cardell, who is a former member of the Philadelphia police force. It is claimed that Reap came up followed by a crowd of strikers and questioned Cardell's right to be in charge of Nealon, claiming that he had no authority except on the property of the company employing him. It is further alleged that Reap and some of the other members of the party threatened and intitmidated Cardell to such an extent looked upon this manoeuver with wonthat he let Nealon go because of a fear that he would be mobbed.

Nealon was later rearrested and brought to this city for a hearing together with the other three men. Reap and a number of other strikers followed and assembled in Alderman Kasson's office. Here a warrant was sworn out for Reap's arrest and he was held under \$300 ball for his appearance at court. Reap is the man who led a party of strikers from the Catholic church at Olyphant some months ago because a non-union man was attending church. He later made a public apology which was read from the altar on the following Sunday.

The cases of the four men arrested by Constable Mitchell were held under advisement by Alderman Kasson after and the gathering crowds were kept he had heard the evidence. George Ryan and Joseph McGinty, two young boys, were held under \$300 bail each, however, on the same charge.

#### CAUSED ARRESTS.

John Bufton, of Priceburg, a nonunion workman, employed at one of the mines there, yesterday caused the arrest of Isadore Barden, Joseph Wacow-

ski and David Arachoski, on the charge of malicious mischief. At a hearing late yesterday afternoon before Alderman M. J. Ruddy, Bufton testified that the three men battered down his front door and otherwise damaged his house to show their resentment. Alderman Ruddy held all three defendants in \$400 bail for their appearance at court.

the place and the occupants were com-pelled to walk to No. 8 washery, a distance of a mile or more. While passing through a rock cut near by, the deputies and men were stoned by a crowd on top of the bank. None of them were struck, and although they fired a dozen or two shots in the direction from which the stones came, they failed to hit any of the throwers. Alex. Wilson, a night watchman at No. 8 washery, while returning home

from work yesterday morning, was stoned shortly after he had left his place of employment. Wilson was struck several times, and although painfully bruised was not seriously in fured.

## MR. ROOSEVELT'S DATES CANCELLED

[Concluded from Page 1.]

dian street between rows of banked up humanity, held back from the stree by ropes. A slight rain had begun to fall and this appeared to furnish the to Olyphant yesterday morning to ar-rest William McNally, Michael Nealon, the president should be entirely closed. John Davis and Thomas Hefferon who Amid the sound of many horses trotting were charged with throwing stones at upon the asphalt, and the rattling of Frank Whitesall and James Rose, two the carriages could be heard the cheer As of the people, who, though they could soon as he arrested each man he turned not see the chief executive, thought him over to a coal and iron policeman. they were bidding him a good-bye. For three squares along South Meridian street, the carriages and escort wen at a good gait, distancing those who attempted to keep up with them by running. Finally, the station was reached, and a slight delay arose in

crossing the tracks, because of a train that was about to leave. The engine was stopped as it started on its way across the street and the carriages went galloping over the tracks and onto South street. The crowd that had gathered at the east end of the depo der, but the carriages turned sharply to the east on South stret and in a

few minutes the distance of several squares to the St. Vincent hospital was covered. As soon as Captain Hyland, of the police, arrived, he alighted, and running to the door of the president's carriage, which had stopped, he assisted him to alight and walked with Senator Fairbanks and Governor Durbin up the steps of the hospital. The occupants of the third carriage quickly followed and at the same time Captain Callor had stationed his men about the en trance and a squad of police, which had been sent to the hospital, before the president left the club, appeared and

formed a cordon about the building. Everything was done with dispatch at a distance. No one was allowed to enter the hospital, except those belong-

ing to the president's party, or those who had special business there. From the time the president left the Columbia club until he found himself in a hospital

soldlery not more than ten minutes had lis. elapsed

#### First Public Knowledge.

The whole movement had been carefully planned at the Columbia club before it was carried out, and the utmost effort was made to keep any inkling of what was to occur from reaching the street. The necessary orders to the police and soldiers were not given until the last moment, and in this way the

knowledge that something was amiss Mrs. Roosevelt Will Go to Wash-Alex. Slavinaski, of Priceburg, had was confined to those who had an offlington.

Their packs were taken away from them and their clothes badly torn. They went to the Lackawanna hospital, where a number of ugly scalp wounds which they had received were dressed.

### **EXETER COLLIERY IS** TO RESUME OPERATIONS with a smille:

A reliable mine official stated to The Tribune correspondent last evening that tic gloves of the surgeons. the Exeter colliery of the Lehigh Val-Coal company will resume work a smile, "it is always in order to wear Wednesday morning. One hundred cars, gloves at a president's reception.' about two hundred tons, at least, will be taken from the mines every day and run through the breaker. This is about 15 per cent, of the total capacity of the colliery. Every ton of the output will be shipped to tidewater, and not a ton will be offered for local consumption. About forty men will be at work inside the mine, tomorrow, it was stated, most of them having been at work for the fore the needle had been removed. past few days getting the interior of the mine ready for resumption. Most of these men have been secured from out of town. Fifteen of them arrived Bunday night from Hazleton and vicin-

No. 14 colliery of the Erie company has been working every other day for the past week, and yesterday turned out about 200 tons of coal. It is rumored that other Erie collieries will attempt work within a day or two.

An unsuccessful attempt was made resterday morning to wreck the spe-Fial train which carries deputies and chatted pleasantly to those in the room. workmen back and forth from No. 7 He made several kind remarks to the function, near Pittston, which is head- attending nurses about the trouble he quarters, to No. 8 washery. Strikers or was causing and shifted his position their sympathizers removed a fish-plate several times nervously. At 7.40 p. m. from the rails at a curve in the road a white blanket was thrown around near Rock street. A coal train hap-pened along before the special and as it stretcher and, escorted by a company truck the track that had been tampared with, the spreading of the ralls de-tailed the engine and two gondolas. The the train. He bade good-bye to the lerailed cars ran along the sleepers for a distance of fully 150 feet before the train could be brought to a standstill. them for their kindness. He did not No one was injured. The special train was unable to pass Fairbanks, Governor Durbin and other

eaving on the 10 o'clock train. She will take her daughter Ethel and her oungest boy, Quinton, with her.

DIET FOR YOUNG MOTHERS.

From Harper's Bazar. A little thought will shof that before he child's birth a rather large amount of laxative food should be used, partly because Nature seems to call for it, the

digestive organs not being on their usual working basis, and also because t is best to have the muscles, while strong, yet somewhat relaxed. The

foods which tend toward this are fruits in abundance. There is a small sour ariety of prunes, called the prunella, which is a pleasant change when one tires of the dead sweet of the prune tself: it has a certain tonic effect on the stomach, also. Then there are apples raw and cooked, which are most eneficial, and grape-fruit and oranges in winter, and peaches and pears in summer; small seeded berries are not

good; indeed they often produce intescareful and stay off your feet until the tinal indigestion. Cereals, always well cooked, are called for, and the coarse breads, whole wheat, shredded wheat, corn bread, and Boston brown bread

"Very well, then, it will have to be Meat should be eaten in moderation at this time, notwithstanding the new the-"I will do as you gentlemen say. ory that its use should be abandoned, especially for some months before the The president was told to remove his baby comes. The best physicians say shoes and stockings and nether garthat where there is no personal peculi-arity calling for its disuse, it is a postments. He also removed his coat and vest. A moment later, however, he was tive harm to give it up, as it means

told simply to remove his shoe and the loss of strength to those accustomed to physicians would be required to bare it, and besides this, its place is filled the leg only. This was done. The presiwith starchy foods which are fat-formdent walked to the operating table ing and the worst thing possible. But, alone and as he lay down, he remarked of course, the meat should be chosen with a view to its digestibility. Vege-"Gentlemen, you are formal. I see tables are good, and the ordinary quantitles of tea and coffee may be taken. This was a reference to the antisep-

but milk and alcoholic drinks should be avolded. There is a decided difference of diet

called for before the birth of a child and after. In both cases the mother needs nourishing food because she has two to care for, but what is advisable to use at the one time is not always the

best at the other. The operation was begun without de-The best thing to keep up the strength lay. The pain caused the president to of both the mother and baby is milk mutter several time in a low voice. itself, good cow's milk, and foods made but he said nothing that was distinct, from milk. If one will drink enough, drink it hot and cold, at table and beexcept to ask for a glass of water between meals and at bedtime, she will have no trouble in keeping up her After the operation was over, he health and flesh, and she will be sure made several laughing remarks con-

of a strong child. The usual objection cerning trivial matters and asked if he to this diet is that it makes one billwould be allowed to use his leg long ous, and so it does if it is not taken innough to walk up stairs himself. "You telligently. Milk should be usually will be hauled up stairs in a wheeled taken as hot as possible, though not scalded, and with plenty of salt; cold milk should be mixed with vichy, and When they brought the vehicle in, both may be taken alternately with malted milk for the change. After being taken to an upper room should be freely used, made from milk from the operating room, the president and water and chocolate, which is not was served with a light luncheon and too heavy. The mother should remember that while tea will make milk in quantities, yet it will be only poor stuff. and will keep the baby hungry and make it nervous. As to the rest of the diet, eggs are excellent, raw beaten in milk, and cooked, and hot soups with rice and barley, beef juice, creams of vegetables, ice cream, custards, milk of infantry, was carfied to the car, a toast, broiled meats, fish, chicken, vege-

tables, and fruits.
