## **GOES TO THE JURY TODAY**

TESTIMONY IN HAAS CASE IS ALL IN.

Before Judge Dunham Yesterday the Trespass Case of John Newell Against Dr. William Decker Was on Trial-Sues to Recover the Value of a Mare-Equity Suit of Walter S. Bevan, Trustee, Against John M. Coleman, of Dunmore. Burnett Renews Bail.

The trespass suit of Mrs. Emma Haas against the Scranton Railway company was on trial all day before Judge Newcomb. The evidence is all in and this morning the closing arguments to the jury will be made,

The witnesses examined for the plaintiff yesterday were George Cobb, George Dunn and Blanche Brooks. The case for the defense was opened by Major Warren and the witnesses examined were John Farrell, Drs. Balley, Van Sickle, Shield, John Lee, P. J. Kelly, J. Dempsey, M. Burke, C. Whitlock, P. J. Swift, M. Collins and Patrick Loughney. The defense is that the troubles from which the woman is suffering are not due to the accident, having existed long prior to that. It is also contended that the company is not responsible for the accident since it was caused by an

obstruction placed on the track. Before Judge Dunham the suit of John Newell against Dr. Wilson Decker a veterinary surgeon, to recover the value of a horse, was on trial all day. Mr. Newell lives in this city and owned a valuable mare which he took to Dr. Wilson's stable to be operated upon. The mare died two hours after the operation for the reason, as is alleged, that the mare was not given the proper kind of an anaesthetic and that the operation was not performed in a proper manner and that the right kind of instruments were not used. Drs. Helmer and Paget gave it as their opinion that the operation was not properly performed and that it ought to have been completed in twenty minutes whereas it was testified that Dr. Wilson was three hours performing it. These veterinarians also gave it as their opinion that the instruments used were not ade-

Dr. Wilson in his own defense described the character of the operation, the manner in wheih it was performed and the instruments used. He sald everything in connection with the operation was in accordance with the methods considered in the veterinary world as the best. The doctor was defended by Attorneys John F. Scragg and M. W. Lowry and the plaintiff by Attorneys O'Brien and Martin. The case will be resumed this morning.

#### Divorce Matters.

Judge Edwards in an opinion filed yesterday, refused the motion for an admission of the letter from wife to husband and in the divorce case of George H. Trauger and Vira Trauger which resulted in a verdict Monday in favor of Trauger.

John R. Lewis yesterday, through Attorney C. W. Dawson, filed a petition for a divorce from Lily Lewis to whom he was wedded July 3, 1896, her name before their marriage being Miss Lily Doebuck. Lewis alleges that his wife deserted him on June 15, 1901, and has since persisted in this de

A rule was granted in the divorce case of Viola V. Tripp against Almon T. Tripp yesterday to show cause why a decree in divorce should not be grant-Testimony will be heard before Judge Newcomb on Oct. 3. Other divorce cases in which orders were yesterday made for hearings on the same day before the same judge follow: Albert Coddington against Elizabeth Coddington, Selino Williams against John Williams, Sare E. Keller against James E. Keller, Jessie Kimble and Frank P.

## Burnett Renews Bail.

William Burnett who on Tuesday night shot Wajclack Majewsky near Archbald was brought into court yesterday to have the amount of his bail fixed. He was released Thursday in \$3,000 bail pending a hearing yesterday to give the district attorney an opportunity to ascertain the condition of the injured man.

Assistant District Attorney W. Gaylord Thomas told Judge Newcomb when the matter came up yesterday afternoon that Dr. Beck, of Peckville, the attending physican, had reported that injured man is in a critical condition and will probably die. Mr. Thomas suggested that the ball be raised from \$3,000 to \$5,000.

Judge Newcomb thought that it would be sufficient to allow the bail to stand at \$3,000 pending definite knowledge as to the condition of Majewsky. John R. Bryden qualified as bondsman.

## Fraud Is Charged.

Walter S. Bevan, trustee of the creditors of John M. Coleman, of Dunmore, yesterday filed a bill in equity to have annulled deeds for two properties in Dunmore and two mortgages against two other properties also in Dunmore which it is alleged were given by Coleman for the purchase of defrauding his

scene eager to learn the cause of the the men to remain at the building and get rested. A regimental guard was

then placed about the building. Eight companies are stationed at the building, including two companies of the Fourth regiment. Three companies of the Eighth were left at Shenandoah, but these will be brought to Duryea just as soon as a battalion arrives at Shenandoah to relieve them.

The armory has been connected with

long distance telephone, and is placed in position to easily be communicated with. A detail was sent to the proposed camping ground yesterday morn ing and the ground staked out. This is the Eighth's fifty-eighth day in service, but the soldiers seem quite contented. Three companies of the Ninth regiment were sent to the Exeter colliery at West Pittston again yesterday morning, but there was no disorder there The strikers seem to have abandoned

the place for the present. Yesterday morning six members of the Exeter borough police force handed their stars in at the office of Burgess Max Gross, saying they would not serve under a "scab" chief of police. The burgess took their stars and will refer the matter to a special committee of the borough council. Sanford L. Geddis, who is chief of the borough, has been an employe of the Lehigh Valley Coal company for some time, and is now serving as a coal and iron policeman for the company at the Pettibone

Wednesday night a gang of men stoned the house of David Owens, on River street, Sturmerville, breaking in a number of windows. Owens is a son of Superintendent W. D. Owens, of the Exeter colliery. Mrs. Owens and the children were the only ones in the house at the time, he being at work.

Emissaries of the strikers have been at work during the past few days and have succeeded in inducing a number of men to quit work. Fifteen Italians have left the No. 6 washery within the past few days.

#### **ACCUSATION BY** PRESIDENT NICHOLLS

The following was given out by President Nicholls yesterday: Scranton, Pa., Sept. 25, 1902. To the United Mine Workers of District

No. 1. Dear Sirs and Brothers: I have just come into possession of facts which are of so vital importance to you that I take this opportunity of making them known to you all. Notwithstanding that the opmade to get the miners to return to work till they came back of their own volition, desperate efforts are being made to bribe a portion of our membership so that they ill use their influence to get the rest

of the men to return to work.
Michael Grimes, formerly a mine fore-man at different collieries in the region, with headquarters now in the Valley hotel at Scranton, is apparently for one or more companies, and has tried to bribe some of our local officers to use their influence to get their local to break

the strike. He offered to give local presidents two thousand five hundred (\$2,500) dollars each if they would get ten other men from their locals to draft a resolution declaring that the local would go to work an have it adopted by the local union

Two of the men were to get five hundred dollars apiece, and the other eight were to receive one hundred dollars each. This would be paid, besides the \$2,500 to

each president.

He offered to furnish money for expenses, and said that if they were exposed they would be taken care of. He said they could get any position under the company that they were able to fill, but not to ask for it until three months after the strike was broken.

He said if they were not qualified for foremen, he could arrange for the certificates as the examining board was con-trolled by the companies. He said for his work he was to receive a lease of

coal land from the Erie company.

Now, be warned by the foregoing and keep your eyes on all member and offi-Let no argument cause you to let go the victory you have so nobly fought for and won.

Beware of "Grimes" and his hirelings

and stand true and manly. Remember that those who have hired "Grimes" to try and corrupt members with money cannot be trusted no matter what their professions, and that to return to work and trust their promises to adjust your grievances will be the height of folly. The above statements were furnished to me by men who are willing to testify to the same in court, if necessary. Fraternally yours.

T. D. Nichols, District President. Attest-John T. Dempsey. Secretary-Treasurer.

## DENIAL BY GRIMES.

Mr. Grimes, when seen last night by a Tribune man, said that Presiden Nicholls' statement was untrue. The coal companies' superintendents who were asked concerning the matter also declared the statement to be false.

It is admitted by the companies that in isolated instances, where lawlessness has been particularly rampant for the past week, a few men have quit work, through fear of bodily harm, but that these losses have been made up many times over by new additions to the working forces. When the men find that they can have protection, the companies contend, there will be constantly increasing additions to the ranks of the workmen, and that, in due time, a break will come and the strike be over.

The mine workers declare positively that such a break will never come, and that since the soldlers arrived here the non-union men are quitting work and applying for admission to the union, saying they will not work under military protection. Stephen Reap, president of the Olyphant sub-district, stated yesterday that twenty-five men in that region quit work yesterday and applied for reinstatement in the union.

## THEATRICAL.

"Sergeant James."

"The romance of a man who 'listed' is the sub-title of "Sergeant Jones," a the sub-title of "Sergeant Jones," a drama which was produced last night at the Lyceum. It is a clean cut play of military life in the west, has good dialogue and an abundance of dramatic scenes. The drama was written by Eugene Walter and was put on the stars. gene Walter and was put on the stage several weeks ago by Kirke La Shelle, whose other military play, "Arizona,"

proved such a winner.
"Sergeant James" is by no means a son bre play. The somewhat tragic theme has the leaven of a delightful vein of com-edy running all through it. The company is not a notable one but it gave a mos effective presentation of the drama las night. The leading roles are in the hand: of Henry Kolker, who has the title role and Miss Ellen Boyer who is the Mrs Lucy Borridge Ferris of the cast. Both of them did excellent work last night, showing the nice discrimination of the

true artist.
Other excellent members of the pany were Joseph Manning, Harry Gibbs, Nina Duane and Jane Field. The play has an exceptionally fine stage setting.

#### "Lovers' Lane."

William A. Brady sends to the Lyceun this afternoon and evening one of his very strongest and most widely popular attractions, "Lover's Lane," of which everybody interested in the theater has neard, is by Clyde Fitch, the lific and popular playwright of the pres

"Lover's Lane" enjoyed a tremendous vogue in New York for five months, im-mediately followed by a record breaking all-summer run in Chicago, and fourteer weeks at the Park theater, Philadelphia, "Lover's Lane" avoids the conventional farm scenes and barnyard effects, and rustic quartettes, but has taken the dis-sensions of the choir and church circle the persecutions of a progressive minded creature, and the abandonment of little children at school play, and a dozen other picturesque elements, blending them al into a composite that is said to be protographic in exactness

#### Irene Myers Stock Company.

Seldom are the local theater goers pro vided with a popular priced attraction which offers such a varied list of standard dramas as the Irene Myers Stock company, which is announced for next week at the Academy. Another feature worty of note is that Manager Myers has purchased the exclusive rights to most of the play contained in the repertoire, and it will therefore be the only opportunity offered this season of witnessing them. Among those to be given during the engagement are: "The Electrician," "The Tide of Life," "The Stowaway," "The Price of Honor," "The White Rat," "My Lady Nell," "Through the Breakers," "The Power of Wealth," "Two Orphans." An elaborate production of "The Elec-An elaborate production of "The Elec-trician" will be given Monday evening, presenting Miss Irene as Nellie Randolph

## STAGE NOTES.

Daniel Ryan will close a successful en-gagement at the Academy today with the presentation this afternoon of "His for Her's" and "O'Brien the Contractor" tonight.

Persons who have failed to hear Orth and Fern at Dixie's theater this week, have missed opportunity of listening to the best coon song singers on the road The programme at the theater this week has been the most entertaining yet presented, and no doubt the attendar the closing performances today will be even larger than at any time during th Next week, beginning with Monday matince an entirely new bill will be presented, headed by Dolan & Len-

The contract recently signed between Klaw & Erlanger and Frank Pixley, the ser, by the terms of which this firm obtains the exclusive control of all their work for the term of five years, is one of the most important agreements between managers and authors made in several years. Messers Pixley and Luders have sprung into great prominence in a comparatively short time through the very pronounced success of three musical uctions of their authorship—"King o," "The Burgomaster" and "The Prince of Pilsen"—each in turn evincing marked ability in book, lyrics and music foretelling of conspicuous future development on the part of these writers. Mr Pixley was formerly a newspaper man in Chicago.

Managers Wagenhals and Kemper are now able to announce that the new play which Stanilaus Stange has written for Blanche Walsh will be called "The Daughter of Hamilcar." The fundamen-tal theme of the play is that of physical affinity. The most dramatic situation in Mr. Stange's tragedy is almost identical with the great scene in Maeterlinck's "Monna Vanna." the performance of which was prohibited by the play censor in London. There is hardly a doubt but that Maeterlinck found his inspiration for "Monna Vanna" in Falubert's "Salambo," as did Mr. Stange for his "Daughter of Hamiltar," the themes being so similar that the successful pro duction of the latter would more tha likely preclude that of the former in this country. Maeterlinek, however, has country. Maeterlinck, however, has given his story a comparatively modern setting, while Mr. Stange has retained the original locale of ancient Carthage Aliss Walsh's play will therefore permit of the greater spectacular treatment, and if the ideas of the author are followed by the managers, the production, it is said, will recall in its ensemble Sardou's "Cleopatra," or rather Charles Kean's pro-duction of "Sardinapalus," The "Daugh-ter of Hamilear" will have its first production at McVicker's theater, Chicago.

The story of "Old Limerick Town," Chauncey Olcott's newest and most successful play, is laid in the county of Clare, Ireland, on the banks of the River Shannon (called the "King of Island Rivers") near Limerick, in 1835. As the River Shannon nears Limerick the hills are covered with villas. Castle Connell is unrivalled in Ireland for natural heauties. unrivalled in Ireland for natural beauties Doonas," where the river rushes over high rocks, affording a passage which only the most daring venture through, for the channel of barely a boat's length rushes along with frightful rapidity, and the deviation of a few inches would be destruction. These falls are succeeded by several smaller ones, between Castle Connell and Limerick. The boatmen are so skillful that they pilot their boats through these rapids with absolute safety. The boats are called "cots," and the boatment use a paddle similar to those used by the North American Indians in their canoes. In the first act of the play, the River Shannon and rapids are shown at the back; in the second act, an exact painting of the "Falls of Doonas" is shown. Doonas," where the river rushes over

## THE MARKETS

Wall Street Review.

New York, Sept. 26.—There was a show of considerable strength in the stock market today. The principal movement was in St. Paul, in Louisville and Nashville and the extreme advance of 5%c. in the latter and 3%c. in the former had considerable sympathetic effect on the railroad list generally. There was brisk buying of Reading nominally based on the supposition that the end of the coal strike is near. Manhattan was largely bought by the speculative interests which have been accumulating the stock for some time. There was a notable disposition to advance on the part of a number of minor low-priced industrials, especially the railway equipment companies. During the final hour the professional operators, whose buying had advanced prices, took their profits very generally with the results that final prices for a number of leading stocks are from 1 to 2 points lower than the best. Net gains are very generally indicated for the day, nevertheless. The special ground for the movement in St. Paul was the publication of a report that important stock subscription privileges are to accrue shortly. Louisville and Nashville was helped by the color of authority given to a report that the control of the system is to be lodged with the Atlantic Coast line. Total sales for the day, 708,400 shares. The bond market was firm in tone. Total sales, par value, \$2,740,000. United States old 48 coupon declined ½ per cent. on the last call.
