#### STRIKING SCHOLARS BEFORE SCHOOL BOARD

A Curious Spectacle of Forty Children Being Disciplined for Deserting Their Lessons-Superintendent Garr, in an Address, Impresses on Parents and Scholars the Seriousness of the Offense of Disturbing Session-School Board to Act Tonight.

There was a curious spectacle in the Central school building last night, one without precedent in the history of the About two-score scholars were arraigned before the school board for having participated in the strike demonstration at No. 3 school on South Main street, on Thursday last.

The locked-out scholars were allowed to go after being lectured by City Superintendent of Schools Garr, on the seriousness of the offense of disturbing not to relinquish his seat. Prevailed a school session, and the parents present were impressed with the necessity of maintaining order and discipline among the pupils. They will be readmitted to the school this morning. after being debarred since Thursday, and tonight, the school directors, at their meeting postponed from last night, will officially declare themselves in the matter.

It was not intended to hold a meeting of the board last night, but the children being on hand, President Kerwin and Messes. Hughes and Gallagher decided to take cognizance of the happening. Director W. E. Evans was sent for and a quasi-court of school directors was convened. President Kerwin presided. The first class room off the entrance of the Central building on strange hearing. The room was crowded with the forty scholars and a doz n of their fathers and mothers,

Prof. W. L. Gilmartin, principal of No. 3, related the circumstances of the unusual occurrence. The reason atleged for the pupils' demonstration was the presence at school of the children of non-union mine workmen. Mr. Gilmartin explained that he sent the scholars home when they returned until such time as they could present themselves to the school board to square themselves for their misconduct. It was the first happening of its charneter, and he deemed this course the prudent one.

One of the fathers suggested that some of the offending children had been allowed to return to school, while the others were debarred. He inquired if the board would stand for such disthe suggestion, asserting that none of the pupils, so for as he knew, were allowed to re-enter the school before the board. The protesting parent, when pressed for what knowledge he had of such scholars, admitted that what he ary successor to Mr. Davis. suggested was based wholly on hearsuggested was based wholly on hearconsiderations moved Mr. Davis to

Disturbing a school session or church service is a serious offense, punishable by law. We don't want children to grow up with that kind of spirit. We want the co-operation of you, parents, so that the children will get the best out of the schools that there is in them. By you corresponding with us we can develop the children and have them grow up with

the right ideas and spirit." Bartley Biglin, a prominent United Mine Worker, whose children attend the school, suggested that the children might be wrong, but inquired if there was not another way of punishing the children aside from keeping them at home. "I know" said he, "that when I was a child I would be highly elated if sent home."

Mr. Hughes and Superintendent Carr explained that if the meeting night of the board, last night, did not immediately follow the occurrence, a special meeting of the board would have been called to dispose of the nectice. As it was, but two school days intervened,

The children having been impressed with the feeling of the board in the matter, President Kerwin dismissed them, informing them that it would officially come before the directors at posed of. Then the scholars, apparentsucceeded, and was laformed that

The item in question states that the Carbondale Indians expected to play Wyon.ing seminary on that day, Sat-urday, Oct. 4, and that the manager of the Carbondale team was not notified of the seminary's inability to play until Thursday. Now, the truth of the matter is as follows: In the first place, I never definitely arranged a game with the Carbondate Indians for any time or place. Shortly after school opened I did write the manager asking them if they could play on October 4, or October 25, and on the same r following day I wrote him asking if could give us a game at Carbondale on the last named date. He replied to the letter and said he could not pay expenses for a game at Carbondale, but would like to play us in Kingston. He incidentally mentioned October 4, but also said that his team did not necessarily have to play on a Saturday, and that any week day would do. This last letter of the Carbondale manager was dated Sept. 22. I courteously replied on Sept. 23 to his letter and stated that we probably could not play his team this season. So far as my knowledge goes, this is the last correspondence between us.
