AN OLD AND WELL-TRIED REMEDY.

Offer May Be Withdrawn at Any Time-It Is Important to Call at Once-The Great Quaker Physician's Work for Humanity, One of the Brighest Epochs in Medical History.

It has always been the cardinal principle of the Great Quaker Physician's life to do the greatest amount of good to the to do the greatest amount of good to the greatest number of people. He has realized that during the past few months many people in Scranton have been suffering from financial depression owing to the existing labor conditions. Hundreds of people have asked to be treated at a reduced rate. They have stated that their financial condition was such that it would be impossible for them to pay the ordinary fee charged by physicians.

Doctor Byers' offices are crowded to their utmost capacity. His practice in this city is the largest ever accorded to any physician in the history of medicine. Hundreds of hopelessly sick have been restored to perfect health and his name is a household word throughout the state of Pennsylvania. It would be manifestly unjust to treat a few at a reduced rate and charge others a higher price. In order to give all an opportunity to be cured at a nominal price, he will treat all persons applying at his offices on the following conditions:

All persons applying for treatment at once, no matter what the trouble may be, will be freated for the nominal sum of \$10,00 and the cured. This does not mean \$10,00 a month, but \$10,00 for a complete and radical cure.

He furthermore agrees that if the patient is not completely cured in a specified length of time, to return the money paid without any quibbling or evasion; in other words, it will not cost the patient one cent unless a cure is effected.

Doctor Byers wishes to emphasize the fact that this offer may be withgreatest number of people. He has real-

BI-CHEMIC TREATMENT.

The different tissues of the body are made up of minute cells, and when these cells become disarranged, disease is the result. By supplying the proper nutriment to the cells, perfect health can be obtained. All diseases, no matter how chronic, can be cured by bringing the cells back to their normal condition. The treatment used by Doctor Byers is not allopathic or homeopathic. It is a treatment based upon an exact science and cures with the certainty of a fixed law.

Seven years ago I fell down an elevator shaft and injured my spine, and as a result my legs became completely paralyzed. No one can appreciate the terrible condition I was in except those who have gone through the same orden. From a strong, vigorous man I had been transformed into a helpless cripple. I could only walk by the aid of crutches, and only then with the greatest difficulty. Having read about the almost miraculous cures that were being performed daily by Dr. Byers I concluded, as a last resort to try his treatment. I began to improve almost immediately and this improvement has been so capid and my present condition so satisfactory that I feel it a duty to mankind to make a public statement of what the great Quaker Physician has done for me. Surely a doctor that is able to do such wonders must be possessed of more than human power. I shall never cease sounding Doctor Byers praise wherever I may be."

Mr. John Welsh, Carbondale, Pa., I had a severe cough, which annoyed me greatly. I lost flesh rapidly and became greatly emachated. My appetite was poor, and food did not seem to nourish me. In fact, I had all those symptoms that are characteristic of a consumptive. I tried doctor after doctor without relief. I was forlore and hopeless, and concluded I was destined to fill a consumptive's grave. Having heard so much about the wonderful cures being performed by Doctor Eyers I went to his office and started treatment. Today, strange as it may seem, my cough has left me, I have gained flesh, and the pallor of my checks has been replaced by the rosy tint of health. I am a cured man, and I give all the praise to the great Quaker Physician, whose superb skill has transformed me into a new being. His power over disease is an inform quality which few posses.

"For a number of years I had been ailing with what the doctors called kidney trouble. There were pains across the 'smal' of my back which would at times extend around in front down toward the groin. My appetite was poor, I grew weak, nervous and could not sleep the night through. I treated with doctors here, in New York and elsewhere, but they did not cure me. It was in the early part of May that I began with Doctor Byers' treatment; I improved right along until I was completely cured. I never felt better in my life than I do now."
