## To the Voters of Lackawanna County:

I Beg to Announce That I am a Candidate for the Office of County Commissioner on the Citizens' Ticket.

I have filed nomination papers for my candidacy for the office of County Commissioner and such move was made only upon the urgent request of many friends who, in the interest of good government, directed me to this duty, My nomination papers bore the endorsement of 292 sound representative citizens of this community.

Having taken up the fight, I appeal to the voters of this county to consider my position and recognize the character of my past record. With no small amount of pride I point to the following notice which appeared in the Scranton Tribune,

'It is not every county which can present such a showing in the management of its finances as can Lackawanna this year; but then it is not every county which can boast of commissioners who not only venture to cut the rate of taxation squarely in half, but who actually follow that up by showing a clean reduction of outstanding indebtedness from \$315,000 to \$160,-000, or well nigh 50 per cent. The only possible inference from such an exhibit is that Commissioners Franz, Flanaghan and Halstead, instead of indulging in loud talk, have been quietly sawing wood. And from what I have seen of their methods, this is precisely the milk in the cocoanut. They are business men first and politicians afterward. And the outcome of their labors would seem to clinch the contention that this is the order which

In the interest of the people of this county permit me to call your attention to the fact that in addition to standing resolutely for honest government I have been an aggressive and persistent fighter for improvement on the county roads, bridges und other affairs under the jurisdiction of the County Commissioner and a watchful guardian of the county's finances.

I have not the means to hire carriages on election day and have no committeemen to extoll my virtues from the street corners, but I do go before you as a plain, honest citizen, who promises, if elected, his best service, and one who can point to his past record as a guarantee of what may be expected of me in the future.
