REGARDING POLICE REMOVALS.

Doubt as to Director Wormser's Power in Matter Removed.

Some doubt as to the right of Director of Public Safety Wormser to remove members of the police force without a trial having been expressed it is interesting to note the particular section of the schedule to the "cleanup" bill which gives him this power. The section in question is Section 2 of the schedule, which says in reference to heads of departments appointed by the records named by the governor:

"The officials so appointed shall have power and are hereby authorized to remove any and all of the officers and employes holding position and employment in their respective departments and to appoint their successors."

Section 11 of the same schedule provides that no policeman or fireman shall be removed until charges preferred against him shall have been heard by a court composed of persons of equal or superior rank to himself, and until such court shall decide against him. The section of the bill because of the schedule, does not go into effect until April 1 next, when the first recorder elected by the people will take office, so that Director Wormser could remove the whole police force if he saw fit.

TO BE TORN DOWN TODAY.

Old Lecture Room of First Church Scene of Social Gathering.

The lecture room of the First Presbyterian church was the scene last night of a delightful informal social gathering which followed the regular prayer meeting. It was the last time the old lecture room will be used as the work of tearing it down will be begun today by the Williams' brothers, who have purchased the church property.

The prayer meeting proper was held in the main auditorium of the church, which had been most tastefully decorated with large branches of autumn leaves. The pastor, Rev. Dr. James McLeod, presided and a number of the members of the congregation led in prayer. The general wish for a continuance of the prosperity which the church has long enjoyed after the old church is abandoned ran through all the prayers offered.

The social session in the old lecture room was participated in by several hundred members of the congregation, and a number of the members of the congregation of the Second Presbyterian church. Refreshments were served by a committee of ladies.

WILL LIKELY BE VETOED.

Ordinance for Sidewalks on Gibson Street Defective.

The ordinance providing for the laying of flag-stone sidewalks and curbing on Gibson street between Quincey and Harrison avenues will probably be vetoed by Recorder Connell because of numerous defects.

The ordinance provides for the laying of sidewalks in conformity with the contour of the surface, a method to which the recorder is unalterably opposed. Chief Engineer Phillips has always held that when both curbing and a gutter cannot be put in, a gutter is preferable to a curb because of the washing away of the dirt in case the latter is put in. This ordinance providing for merely a curb and for this reason the recorder objects to it.
