The Question of the Hour.

NOW THAT the strike is out of the way it is none too early for the voters of Lackawanna county to give attention to politics.

Naturally a great deal of clap trap is to be expected from those opposed to the government, hence it is well to remember that there is one issue overshadowing all others in this campaign.

But it is not going to get the chance. The voters of this country, state and county are not fools. They are not afflicted with short memories.

The Democratic party has its uses. It makes a splendid horrible example. It is very good to kick and criticize. But it is simply stating a demonstrated fact to say that it is a poor investment for the taxpayer who puts it in office.

The best way to show appreciation for what President Roosevelt has done in lifting the clouds from the coal fields is to send him Republican supporters in congress by a large majority.

A Lesson from Experience.

THE FACT that during the period covered by the strike there was only one non-business failure in the city of Scranton that during the same period last year, while the aggressive liabilities were smaller, is a wonderful showing in behalf of the good judgment and substantial character of our business men.

It could be untrue to say that Scranton has not felt the strike keenly but having weathered it so well there ought to be quick recovery from the ill-effects and a general determination to push ahead regardless of its drawbacks.

It is to be hoped that for a season, and a longer one, too, we are to have a respite from strikes and crazy agitation. But nothing is more certain than that these periods of disturbance are inevitable.

prepare for the next one. Having had abundant and convincing proof of the necessity of diversified industries to keep the wolf from the door...

Make hay while the sun shines. We have been in the trough of the wave. We are due for a ride on its crest.

There isn't a name on the Republican ticket that doesn't stand for character, ability and experience.

John Mitchell.

WHEN A MAN can impress the force of his personality upon several thousand of his fellow-citizens to the extent of causing them to give to him their implicit confidence and obedience...

Napoleon was such a man and he reconstructed history. In our day John Mitchell is such a man and it would be foolish to deny it.

No doubt Fahy & Co's Anti-Machine combination would speedily be converted into a head-smashing machine if it could once get into office.

Let's We Forget.

DESPITE the fact that the Republican party has earned through its intrepid leader, President Roosevelt, the sincere gratitude of the people of the nation in settling the coal strike...

The Democrats were going to make an issue of the empty coal field but a Republican president caused it to be filled too soon for them.

It is well enough for the people to know that the present abundant prosperity of the country cannot be maintained by the negative application of the principle of "letting well enough alone."

Had Coler had ducked Dave Hill's government ownership of coal mines plank, if Bradford himself emitted stomachic when he is running for governor on it, he need hardly expect the intelligence of New York state to stand for it.

The Democratic remedies for the evils of the trusts would smother most of them all right, but at the same time they would kill the manufacturing industries of the country.

The end of the strike will not only release a large quantity of coal that has been stored up for emergency, but will also utilize many hoarded dollars.

Coming events are expected to cast their shadows before. Has anybody seen any shadows of another Pattison victory?

While the president and many Republican senators bent every effort to settle the coal strike, there was not to

Exports Are Again on the Up Grade

Financial fronts are liable to touch those who have gone "long" on anthracite.

Special Correspondence.

WASHINGTON, Oct. 17. THE EXPORTS of anthracite coal are showing an extremely encouraging trend. They are the largest ever shown for September, with the single exception of that month in the year 1896, and fall less than half a million dollars below the high water mark in that year.

This decrease in exports, as is well known, was due to the crop failure of last year and to the low price of coal, and while the new crop has not yet begun to make its appearance in the export figures of the bureau of statistics, the movement of the new crop has been active and is the primary cause of the upward trend in the export figures.

The following table shows the September exports in each year from 1885 to date.

Table with columns: Year, Exports (Short Tons), Exports (Long Tons), Total Exports (Short Tons).

Uncommon Clothing For Men and Young Men....

Not the common kind. Not the kind made for the forty millions of men in the United States—the usual ready-made, too often part cotton, and that has as much style about it as a flour bag; but clothing that is made to our special order for the particular customers whom we have the pleasure of serving.

When you wear one of these Suits or Overcoats you have the satisfaction of knowing that no other clothing is made just like it.

The style and fit show for themselves at once. The wear will show at the end of the season—when the suit or overcoat is good enough to lay away for another year.

In Black Suits every one from the \$10 up has hand-made collar and lapel—and hand-work is worth all it costs.

In Fancy Business Suits hand-work begins at \$15 and runs through the \$18, \$20, \$22.50, \$25 and \$30. Others for \$12, \$10 and \$8.50.

Heavy Overcoats, \$12, \$15 and up to \$30—hand-work begins at \$15.

In Light-Weight Overcoats it begins at \$15, though we have others that will give good service for as little as \$8.50.

Young Clothing for young men; conservative styles for the banker or business man; modest and comfortable clothes for those up in years.

Youths' Suits begin at \$7.50 instead of \$8.50—no quite so much stuff needed.
