MINER'S BRIEF SUBMITTED

Mitchell Presents Demands and Twenty-three Reasons Whu Theu Should be Granted.

ARGUMENT AGAINST

The President of the Mine Workers Asks for Higher Wages and Shorter Hours-A Carefully Prepared Document Transmitted to Operators Through Medium of the Strike Commission-Operators Will Reply in a Few Days.

By Exclusive Wire from The Associated Press.

Hazleton, Pa., Nov. 4.-The state ment of the anthracite mine workers' case, which was filed with the strike commission on Sunday night, was made public today. Copies of the statement have been furnished to the operators who will reply in three or four days The miners' statement in full is as fol-

To the Anthracite Coal Strike Commis

The coal workers make of the operators the following demands, which were formulated by the Shamokin convention held March 18 to 24, and for the enforce-ment of which the strike was inaugur-

First. 'An increase of 20 per cent, upon the prices paid during the year 1901 to employes performing contract or piece

This demand is made on account of th following reasons:
(1) The present rate of wages is much

lower than the rate of wages paid in the bituminous coal fields for substantially similar work.

(2) The present rate of wages is lower than is paid in other occupations requiring equal skill and training.

(3) The average annual earnings in the anthracite coal field are much less than the average annual earnings in the bit-uminous coal fields for substantially sim-

(4) The average annual earnings in the anthracite coal fields are much less than the average annual earnings for occupa-tions requiring equal skill and training.

(5) The rate of wages in the anthracite coal fields is insufficient to compensate the mine workers in view of the dangerous character of the occupation in re-lation to accident, the liability to serious and permanent disease, the high death rate and the short-grade life incident to

this employment.
(6) The annual earnings of the mine

workers are insufficient to maintain the American standard of living.

(7) The increased cost of living has made it impossible to maintain a fair standard of life upon the basis of present wages, and has not only prevented the mine workers from securing any benefit from increased prosperity, but has made their condition poorer on account of it.

(8) The wages of the anthracite min

When in Need

of anything in the line of optical goods we can supply it. workers are so low that their children are prematurely forced into the breakers and mills instead of being supported and educated upon the earnings of their pa-

carnings of mine workers in this industry.
Second—A reduction of 20 per cent in
Second—A reduction of 20 per cent in
Labor without any reduction of hour, day or week. The second demand is similar to the and Eye Glasses :

hourly rate of wages of mine workers employed by the hour, day or week, and all the reasons applicable to the first demand are asked to be applied to the sec ond with repetition.

Plea for Shorter Hours.

In addition thereto, we submit the following:
(10) The ten-hour day is detrimental to

the health, life, safety and well-being of the mine workers.

(11) Shorter hours improve the physical, mental and moral conditions of the

(12) Shorter hours increase the intenity and efficiency of labor,
(13) The tendency of national and state

overnment, of organization of the working day of eight hours is sufficiently long for the best interests of the workingmen and of the community.

The adoption of a system by weighed and paid for the minby weight wherever practicable, the min-imum rate per ton to be 60 cents for a legal ton of 2,240 pounds, the differentials now existing at the various mines to be maintained. This demand is made on account of the following reasons: on account of the following reasons:

(1) Measurement by the legal ton wherever practicable is the only honest and just system of measuring the carnings of

mine workers.
(2) When the operators sell or trans-

port coal it is on the basis of a legal ton of 2,240 pounds. (3) The excessive ton was originally in-

tended to compensate the operator for the weight of the small sizes of coal which were then discarded, but which are now utilized and sold, and therefore there is no present necessity for the use of any other than the legal ton.

(i) The adoption of this system would

remove an incentive, both to the opera tor and the worker, to cheating and dis

honesty, and would aliay jealousy among the miners and prevent unjust discrimination and favoritism.

(5) The change of the present system to the one asked for would prove a strong factor in allaying suspicion and discontent among the mine workers.

Fourth—The incorporation in an agreement between the United Mine Workers of America and the authracite coal com-

of America and the anthracite coal com-panies of the wages which shall be paid and the conditions of employment which shall obtain, together with satisfactory methods of the adjustment of grievances which may arise from time to time, to the end that strikes and lock-outs may be unnecessary. In support of this demand we submit the following reasons:

(1) The anthracite mine workers should

(1) The anthracite mine workers should not be compelled to make or sign individual agreements, but should have the right to form such organization and choose such agents and officers as they desire to act collectively instead of individually when they deem that their best interests are subsected. nterests are subserved thereby.
(2) Agreements between employers and

employes through workingmen's organizations are the ordinary method of regulating production and wages in the bitumous coal fields and in other large industries, and are beneficial, successful, and in keeping with the spirit of the times. (3) Unions of workingmen tend to the better discipline of the men and to the improvement of their physical, moral and mental condition, and to the preservation of friendly relations between employer nd employe.

(4) Experience shows that the trade igreement is the only effective method by which it is possible to regulate questions arising between employers and employed in large industries, and that a trade agreement is the only possible way "to establish the relations between employers and the wage workers in the anthracite ields on a just and permanent basis, and as far as possible to do away with any auses for the recurrence of such diffi-ulties as those you (the anthracite coal strike commission) have been called in to

settle. Respectfully submitted, John Mitcheil, Representative of the Anthracite Mine

FOUR FATAL ACCIDENTS.

Occurred in Mines of Wyoming Region Within the Last Twenty-Four Hours.

By Exclusive Wire from The Associated Press.

Wilkes-Barre, Nov. 4 .- All the mines in the Wyoming and Lackawanna regions are being worked to their fullest capacity to get coal to the market. Four fatal accidents occurred in the Wyoming region within the past twenty-four hours. James Boyle was killed by a fall of coal in Conyngham mine Joseph Matthews was killed by a fall of roof at a mine in Sugar Notch Two foreigners sustained broken backs

by falls. The Red Ash Coal company's mines. which are operated by an individual company, were in operation today with a full force of men, the first time since the strike. All the old employes, including the steam men were taken back. The output at all the collieries was very heavy today. The miners' demands, as submitted to the investigating commission by President Mitchell, meets with the approval of the great army who were recently on strike

WHOLESALE AND RETAIL SHOES.

An Eye Opener.

We have told you for the past 8 years of our great methods of buying for spot cash from manufacturers in need of money, and of our rule of selling for cash only make prices for you that are in most cases below what other merchants are obliged to pay for the goods at wholesale. Now we have strengthened our buying facilities by doing a wholesale business. We are enabled to buy direct from manufacturers who make for jobbing trade exclusively and again we give you a forcible demonstration of our leadership in popular priced footwear.

We Defy Any House to Meet These Low Prices.
