BUST OF M'KINLEY TO BE ERECTED

Memorial Association Decided Last Night to Place One in the Albright Memorial Library.

At a meeting of the McKinley Memorial association, held last night in the board of trade rooms, it was decided to have a bronze bust of the late president cast in bronze and placed in the Albright Memorial Library.

The attendance at the meeting was not large and the contrast between it and the first gathering just about a year ago, was very marked. Then everybody was in the first flush of enthusiasm over the erection of a fitting memorial to the martyred president, and nothing short of \$50,000 was to be raised for the purpose.

The members present seemed to be unanimous in favor of the erection of a memorial in the form of a bust. Secretary C. H. Sanderson had received a number of bids from various bronze firms and sculptors, as well as several photographs of bust models of President McKinley.

A SOURCE OF SURPRISE

To Physician and Patient Alike.

Dr. Redmond, a specialist in the study and treatment of piles and rectal diseases, recently stated that the Pyramid Pile Cure, the new discovery for the cure of piles, was the most remarkable remedy he had ever seen or tried in his respect, and that was the instant result experienced in all cases, no matter how severe, from the moment the remedy was applied.

Physicians look with great favor upon the Pyramid Pile Cure, because it is rapidly taking the place of surgical operations and because it is so simple, so easily applied, and contains no mineral or other poisons so commonly used in pile cures.

Dr. Esterbrook reports that the Pyramid Pile Cure not only cures the various forms of piles, but never fails to give immediate relief on the first application, no matter how severe the pain or discomfort may be.

TEN TEACHERS ARE EMPLOYED

SCHOOL BOARD MAKES MORE APPOINTMENTS.

Seven of Them Permanent and Three Temporary—Negotiating for Nearly \$30,000 Worth of Additional Land for New High School and No. 33 Buildings—Night Schools to Be Opened Next Monday—Dr. O'Malley Wants to Do Away with Clay Modeling—It Is Unsanitary.

Ten new teachers were appointed and negotiations opened for the purchase of \$30,000 worth of land at last night's meeting of the school board. The board also arranged for opening night schools next Monday and discussed a proposition to do away with clay modeling at the schools.

The new appointments were as follows: Miss Mary Doyle, to succeed Professor M. D. McTavley, deceased, as principal of No. 12; Miss Mary Finnerty and Miss Margaret Dougher, to No. 12; Miss Helen O'Malley and Miss Edna Stevens, to No. 13; Miss Sadie Alkowsky, to No. 35; Miss B. McDowell, to No. 36 annex; Miss Jessie Cavell, temporarily to No. 26, to succeed Miss May O'Malley, transferred to No. 28; Miss Catherine Hicks, temporarily as assistant to the principal at No. 28; Miss Howitt, temporarily as assistant to Professor Murphy at No. 7.

It was unanimously agreed that the eighty feet on the south side, or the ninety feet on the north side of the site for the new high school and the South Manual Training school, on the old Home for the Friendless plot should be acquired to permit of the new high school building being erected with its longer dimension facing the street and to make room for the proposed central steam heating plant.

It was agreed that controllers should be authorized to employ teachers for night schools on the basis of one for every twenty pupils, Thursday and Friday nights of this week principals of night schools will be at the several buildings where night schools are to be opened to enroll pupils.

The proposal to do away with clay modeling came from Dr. O'Malley. He declared it to be a useless fad, objectionable on sanitary grounds, owing to its liability to communicate skin disease, and with nothing particular to recommend it above dozens of other things as an exercise or study.
