

WEST SCRANTON

First Meeting of the Board of Trade Since the Summer Vacation—The Matters That Were Discussed.

The first regular meeting of the West Side board of trade since the summer vacation was held in the Electric City Wheelmen's club rooms last evening. In the absence of the president, Hon. John H. Fellows, the former president, Charles E. Daniels, called the meeting to order and presided.

A report was made to the effect that work on the West Lackawanna avenue viaduct will not be commenced until next spring, owing to the high price of cement, and the scarcity of building materials.

Mr. Daniels reported that a nominal assessment of \$100 a year in taxes on the new silk mill has been fixed by council for a period of ten years, and that work on the plant is being pushed rapidly. Mr. Ashley is anxious to have the mill finished as soon as possible in order to meet the demands for his product.

Repairs on Scranton street were reported and the secretary was instructed to call the attention of the street department to the condition of Washburn street from the end of the pavement to Grant avenue, and ask that it be given immediate attention.

The condition of Price street, between Summer and Lincoln avenues, was also reported to the board. It appears that there is a flat grade there, which causes surface water to stagnate. A motion was passed to recommend to the department of public works that Price street be so graded that the surface water will run from Lincoln to Summer avenue.

After several other minor matters were discussed the board adjourned.

Electric City Wheelmen.

The members of the Electric City Wheelmen held a "club stag" at their house last evening, which was well attended and proved to be one of the best events of its kind held under the direction of the social committee.

A number of interesting bowling matches were played, and other features were enjoyed. Several members of the Dixie theater company were guests of the club after their performance and contributed to the evening's enjoyment.

An oyster lunch was served by the committee in charge and was enjoyed by all.

Interest in Bowling.

With the bowling season now well under way it is remarkable the general interest that is manifested in the game. Four double alleys are now in

use in West Scranton, three of them being public and the other private. The latter is controlled by members of the Electric City Wheelmen, who have two teams in the Bicycle Club league, and among them has been developed some of the best bowlers in the city.

The West Side Bowling club's alleys are located in the St. David's hall building and their team plays in the City league. The other alleys are run by Charles Warnke and John J. Becker. Several excellent players have also been developed on these alleys.

Outside teams are also being organized among business and professional men who enjoy the sport and exercise. A dozen or more teams are now in existence among the young men who reside in West Scranton, and match games are played on different alleys most every evening.

Coming Entertainment.

The next staidedoff of importance, in which West Scranton singers are interested, will be held in Brooklyn, N. Y., on Thanksgiving Day, when the Scranton Choral society will compete for the chief prize. A number of our soloists will also enter the other competitions.

The Sons of Cambria are also talking of holding an staidedoff on Christmas Day. The success that attended the efforts of their glee club during the recent campaign has encouraged them to branch out on broader lines, and they promise the music loving public a most excellent performance.

A sacred cantata is now being rehearsed by the members of the Sherman Avenue juvenile choir, and it will receive a public presentation at a date to be announced later. The work is in charge of Chorister Richard Phillips.

An staidedoff will be held on New Year's day, under the auspices of the First Welsh Congregational Sunday school.

Pastors' Anniversaries.

Rev. John P. Moffat, D. D., pastor of the Washburn Street Presbyterian church, will observe his seventh anniversary as pastor of that church on Sunday, Nov. 23. An appropriate morning service will be held at the morning service, and a special musical programme will be rendered in the evening.

The horse was badly injured about fifteen stitches being required to close the cuts about the face and neck. The tongue was nearly severed at the root but Dr. Helmer, who was called thinks that he may be able

CHANGE OF LIFE.

Some sensible advice to women passing through this trying period.

The painful and annoying symptoms experienced by most women at this period of life are easily overcome by Lydia E. Pinkham's Vegetable Compound. It is especially designed to meet the needs of woman's system at the trying time of change of life.

It is no exaggeration to state that Mrs. Pinkham has over 5000 letters like the following proving the great value of her medicine at such times.

"I wish to thank Mrs. Pinkham for what her medicine has done for me. My trouble was a change of life. Four years ago my health began to fail, my head began to grow dizzy, my eyes pained me, and at times it seemed as if my back would fall, had terrible pains across the kidneys. Hot flashes were very frequent and trying. A friend advised me to try Lydia E. Pinkham's Vegetable Compound. I have taken six bottles of it and am to-day free from those troubles. I cannot speak in high enough terms of the medicine. I feel that I would give it a trial."—Bella Ross, 88 Montclair Ave., Rosindale, Mass.—\$5000 proof if original of above letter proving genuineness cannot be produced.

CAT AND SNAKE FIGHT.

How Pussy Vanquishes the Most Poisonous Reptile.

From the Scotsman.

The fer-de-lance is one of the most deadly poisonous snakes in the world. It is common in Brazil and some of the West Indian islands, and was particularly so in the forests of Martinique, now destroyed by the volcano. The head is flat and triangular, the length five to seven feet, a horny spine on the end of the tail that rasped against hard objects. The bite is almost instantly fatal, and even when immediate death is averted, serious, and eventually fatal, troubles may set in.

The creature which fears the monster least is the brave cat. Seeing a snake, she at once carries her kittens to a place of safety, then boldly advances to the encounter. She will walk to the very limit of the serpent's striking range and begin to feel, teasing him, starting him, trying to draw his blow. A moment more and the triangular head, hissing from the coil, flashes swift as if moved by wings. But swifter still the stroke of the armed paw that dashes the horror aside, flinging it mangled in the dust.

Nevertheless, pussy does not yet dare to spring; the enemy, still active, has almost instantly reformed his coil; but she is again in front of him, watching, vertical pupil against vertical pupil. Again the lashing stroke; again the beautiful countering; again the living death is hurled aside, and now the scaled skin is deeply torn, one eye socket has ceased to flame. Once more the stroke of the serpent; once more the light, quick, cutting blow. But the trigonophagus is blind, is stupefied; before he can attempt to coil pussy has leaped upon him, nailing the horrible flat head to the ground with her two sinewy paws. Now let him lash, writhe, twine, strive to strangle her. In vain! He will never lift his head; an instant more and he lies still; the keen white teeth of the cat have severed the vertebra, just behind the triangular skull.
