MITCHELL STILL IN THE WITNESS BOX

His Cross-Examination by Wayne MacVeagh Is as Yet Not Finished.

DAY OF INTERESTING DISCUSSION

Position of the Witness on Limiting Individual Effort, on Treatment of Non-Unionists, on Boycotting and on Violence, Is Sought—Statement of the Non-Union Men Filed.

Practically all of yesterday's session of the mine strike commission, like the sessions of the two previous days of the hearings, was devoted to a discussion of the proposition of the expediency and desirability of the operators entering into contract relations with the United Mine Workers of America.

Stiffly parrying on the part of Mr. MacVeagh would present a statement of a condition and ask Mr. Mitchell for an expression of opinion on it, or something to that effect.

Once Mr. MacVeagh related an incident from Forest City, where a hotel-keeper refused to board non-union men, and would up by asking the witness if he thought that was right.

A minute later the remnant of the crowd on the outside began pushing against the door till it fell into the room and a man standing against the glass panel was pushed completely through it.

Said Boycotting Was Wrong. On the question of boycott the witness said it was wrong to deprive people of the necessities of life, by inducing merchants not to deal with them, but defend the right of union men to deal or refuse to deal with an untried merchant...

Two Men Killed and Several Injured at Globe Village, Mass. Fall River, Mass., Nov. 17.—Two men were killed and several injured in the collapse of a building which was being razed in Globe village today.

Steamship Arrivals. By Exclusive Wire from The Associated Press. New York, Nov. 17.—Arrived: Vaderland, Antwerp; Palatia, Genoa and Naples. Cleared: Brompuz, Wilhelm. Bremen via Plymouth and Cherbourg; Lizard-Passed: Neodam, New York for Rotterdam. Brown Head—Passed: Georgia, New York for Liverpool.

part of the strikers not only did not help, but hurt their cause. To prove his declaration that men were not deterred from returning to work by fear of bodily harm, Mr. Mitchell told with much stress how, when the whole National Guard was called out, he had the strikers, union and non-union express themselves by vote as to whether or not they were deterred from going to work by fear of bodily harm and how every man of the more than 100,000 voted that it was not this that kept them from work...

Shill Looking for Them. Mr. MacVeagh ironically told of a recent election in Mexico, where Diaz received all but two votes and then added: "They are still looking for the two men who voted against Diaz."

Mr. MacVeagh was particularly aggressive in showing that the strike could never have been terminated except in a complete victory for the operators, if it had not been for the intimidation practiced by the strikers, and that President Mitchell was responsible for it. Once he declared unequivocally: "Mr. Mitchell, you could have prevented this intimidation and you didn't."

Door Smashed. A lot of excitement interrupted the afternoon proceedings. The tipstaves had allowed enough to come in to fill up the spectators seats and then blocked the swinging door. The crowd massed on the outside could see through the long glass panels that there was considerable standing room left and clamored for admission.

Said Boycotting Was Wrong. On the question of boycott the witness said it was wrong to deprive people of the necessities of life, by inducing merchants not to deal with them, but defend the right of union men to deal or refuse to deal with an untried merchant, as the case might be, and to induce others to do the same.
