THE SCRANTON TRIBUNE-WEDNESDAY, DECEMBER 17, 1902.

THE MAINSFRING-

"What the mainspring is to the watch, the stomach is to the body. When the mainspring loses its tension the watch runs down. When the stomach becomes weak the body runs down. When the mainspring breaks the watch stops, When the stomach gives out the man stops, Sometimes he stops temporarily, long enough to be put into a condition to go again. Sometimes he stops once and for all."

Those statements, by an eminent physiologist, are so plain that they are worth remembering in an age when stomach "trouble" is so common. Too much stress cannot be laid upon the fact that the stomach supplies the power which keeps the body and its organs in motion. People may become rundown from causes apart from disease of the stomach. but when the stomach is diseased they must become run-down, because the strengt' of the body is sustained alone by food when properly digested and assimilated. The ve. first result of disease of the stomach is to obstruct digestion, reduce the power of assimilation, and so prevent the full nutrition of the body. Loss of nutrition soon begins to show itself in loss of flesh and loss of weight, and then comes weakness and the worn-out, run-down feeling which indicates in itself lack of adequate physical energy.

Disease which begins in the stomach may end in the heart, liver, kidneys or some other organ. It often does end so, because if the heart or any organ is not nourished it becomes "weak." In fact, when a man is weak physically his total weakness is mer ly the sum of the weakness of all his physical organs.

How are weak people to gain strength?

There's only one source of physical strength and that is food. The one great enemy of strength is starvation. But because food does not nourish and build up the body unless it is digested and assimilated, then the first step to health is to cure the diseases which prevent digestion and assimilation.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition, and so enables the building up of the body in a natural way by the nutrition contained in the food eaten.

"Nine or ten years ago my health became very poor, and in 1892 was so far gone that good doctors pronounced my case the worst Ley had ever treated," writes Mr. Harvey Phipps, of Florence, Ala, "I had acute stomach trouble, liver complaint, catarrh, and was nervous to such an extent I could not sleep. Got so bad I rolled in bed with but a few minutes' sleep each night for three months. I finally got three bottles of Dr. Pierce's Golden Medical Discov-ery and some 'Pellets.' Took them according to directions on the bottles, and in a few days noticed a decided improvement. I commenced to get more rest at night and could eat with pleasure, where formerly food was like chips to me. When I had used

three bottles of the Discovery 1 was a new man; could eat minde pie for supper, go to bed at seven P. M. and sleep until seven A. M. Again, after an attack of Grippe, could not retain food nor doctor's medicine, and a few doses of the 'Discovery' cured me. Food has agreed with me perfectly since. I feel it my duty to acquaint you with my experience and let others know the worth of your remedies. I am now working at my trade (carpentry) every day in all kinds of weather, and think if I had not taken your medicine I would now be under the sod." three bottles of the 'Discovery' I was a new man ; could eat mince pie for supper, go to bed at seven P. M.

One of the great mistakes of men and women whose stomachs are "weak" is to attempt to supply lacking nutrition by pre-digested foods, cod liver oil and its emulsions and other makeshifts. Even if these things are nutritious, they do nothing to cure the diseased stomach. Indeed, they weaken it by lessening its activity. At the best they are mere makeshifts. The real need is to cure the diseases which interfere with nutrition, and let the strength be restored in the natural way. Wind up the mainspring instead of turning the hands of the watch and supposing that the watch is running. That is what "Golden Medical Discovery" does. It cures the diseased stomach. It makes the weak stomach strong and the strong stomach is able to digest strong, body-building food. By the assimilation of this food the body and every organ of the body is nourished and made strong. The proof that these results actually follow the use of "Golden Medical Discovery" is the gain in flesh and increased weight which evidence the actual gain of nutrition.

"For the past two years I have been a very sick woman," writes Mrs. Chesley, of 108 Woodland Avenue, Cleveland, Ohio. "I tried medicines from doctors and to no avail. At last I decided to try Dr. Pierce's Golden Medical Discovery. When I started I was all run-down and had a very unpleasant taste in my mouth. Was choked up, and at times it was very hard for me to breathe. I had severe headaches and cutting pains in my knee-joint. Was so weak I could not attend to my work nor walk up or down stairs without the assistance of my brother or some friend. I am now taking the fourth bottle, and am happy to say I feel like myself again. I can go up and down stairs and perform my duties as well as any one. Everything seems to be brighter, and I can assure you that life is worth living."

Sick people are invited to consult Dr. Pierce by letter, free. All corr

is told in a most natural way. Special LEGAL. matinee prices, 25 and 50 cents. Children 15 cents to any part of the house. Seats
