HOME MATTERS.

SCOTT CONVENTION.—The Scott Convention for Western Pennsylvania will assemble at the rear of the American Hotel on Penn street, near the canal bridge, on Wednesday, the 20th inst. at 1 o'clock, P. M.

The Committee of Arrangements have procured Union Hall corner of 5th and Smithfield sts., (entrance from 5th st,) as the Scott head-quarters. The Committee will be in attendance on Tuesday and Wednesday at that place, where delegates are requested to report themselves on their arrival.

There will be a meeting at the American Hotel grounds on Wednesday evening, at 7½ o'clock. Gov. Johnston and other speakers will address the meetings.

By order of the COMMITTEE OF ARRANGEMENT.

GREAT SCOTT AND JOHNSTON MEETING.

A very large and enthusiastic meeting of our fellow citizens, assembled in the Market House of Allegheny City, yesterday evening.

The meeting was called to order by appointing JOSIAH KING, Esq., President, and ALEXANDER SEMPLE and ANDREW DAVIDSON, Vice Presidents.

Messrs. James K. Kennedy and R. S. Hays were appointed Secretaries.

Josiah King, Esq., in taking the chair, observed that they had met in pursuance of a call which summoned all the friends of Scott, Johnson and protection to home industry, to meet in the Allegheny market house, at early candle-light. He was warranted in announcing that a promise contained in that call, namely that Governor Johnson would address the meeting, would be fulfilled.

He begged to be allowed to return his sincere thanks for the honor conferred upon him in calling him to preside, on an occasion so interesting. It was an honor which he did not expect, and he feared he was not competent to discharge the duties devolved upon him, pleasant and gratifying to him as they were.

It was scarcely necessary for him to bespeak good order on the part of those attending the meeting, on an occasion of so rare occurrence, namely, the attendance of the Chief Magistrate of the people, from whose lips they would learn the principles which had governed his administration, and which would again govern it, in case of his re-election. He trusted that in a short time the Governor, who was not present, would arrive.

Mr. Darsie was called on for a speech, and rising, said that his fellow citizens had met that night for the purpose of hearing an expression of the views of the Governor of Pennsylvania, in relation to the policy which had governed him during his administration. He had been called on to occupy the stand until his arrival, and for the life of him, he did not know what to say.

He did not wish to occupy any ground which the Governor would take, and handle so much more ably. He would say a few words, however, and he might observe that the peculiarity of our Government was, that all power under it, was lodged in the hands of the people. If they made a mistake in selecting incompetent officers, the consequences fell on their own heads, and they were obliged to pay the results of their want of judgment. He had no doubt that in that assembly there were men of all parties. In every large meeting there was a diversity of opinion, but he could not help believing that all our citizens were honest in their opinions. (Applause.)

It was interesting to assemble on occasions like the present, and compare their views, one with the other. The Governor had taken up a new ground, but one which he believed was correct. He had determined to address his fellow citizens, in the various counties, and explain what he had done, and what he intended to do. As Pennsylvanians they had surely a deep stake in what he had done. This old Commonwealth, known among her sisters as the Keystone State, was disgraced some years ago. She was almost on the verge of repudiation. Under the shelter of her sovereignty, she refused to pay her honest debts.

By reforming a vast number of abuses, by restricting the expenditures of the State, Governor Johnston had enabled them again to get up hill, and within the first six months of his administration, he had paid a temporary loan of $200,000. Since then the interest of the State debt had been paid, and more than $700,000 had been appropriated for the completion of the public works, which had been previously abandoned; $600,000 had been paid for the completion of the North Branch Canal, and a large sum to avoid the inclined plane. Half a million of dollars had likewise been appropriated to the formation of a sinking fund, to ultimately pay the principal of the public debt.

These facts were stronger than arguments, and showed that never before had we had so good a Governor as Wm. F. Johnston. (Cheers.) He knew Wm. Bigler. He had sat for six years in the Senate Chamber with him—he believed that he was an honest, clever man, but he told them, from his knowledge of him, that he was not the man Johnston was. He wanted Johnston's courage and firmness—that firmness which should make him resist *demands on the public treasury*. He could illustrate this by a number of anecdotes, but could bring nothing stronger than facts to prove his assertions. A bill was introduced into the Senate when Mr. Bigler belonged to it, now well well known as the "General Manufacturing Law"—a law by which our mechanics could associate themselves together, and become manufacturers. Mr. Bigler would not vote for it, but asked it to be postponed, until he went up the Susquehanna, and attended to his rafts. This was the character of the man—he always wished to avoid responsibilities.

At this point of Mr. Darsie's speech, the Governor arrived, and Mr. D. gave way.

Mr. King said that as a public character, Gov. Johnston needed no introduction, since he was known to all, but he might not be known as a private citizen to some present, and he would therefore take the liberty of introducing him to the meeting.

We regret that the lateness of the hour at which the meeting adjourned, prevents us from giving a copious report of the Governor's remarks, which we had prepared. It will appear to morrow.

ALLEGHENY BRIDGE CASE.

Before the Hon. Wm. B. McClure, President Judge, and Wm. Boggs and T. L. McMillan, Associate Judges.

SIXTH DAY.

The Court met at ten o'clock this morning, but one of the jurors did not make his appearance until eleven o'clock.

John Harper re-called—Mr. Staunton proposed to put in evidence the books of the Company so as to give the counsel on the other side an opportunity of examining them, while they proceeded with their abstract.

Mr. Alden said that they could not do two things at once, examine the books and attend to the abstract. They had not had an opportunity of examining the books hitherto, owing to the refusal of the other side to furnish them.

Mr. Harper—I am Secretary of the Bridge Company. Mr. Harper proceeded, pointing to the books. These book is the subscription book for the stock of the Allegheny Bridge Company for Pittsburgh. It is the only one I can find.—This contains the names of the original stockholders, with instalments paid or not paid, as may happen. It is the earliest record I can find of the proceedings of the Company. This is the minute book of the Company. This is a sort of stock leger and general account book of the Company. It also contains some of the reports furnished to the Auditor General.

This is the transfer book. This is the receipt book of tolls from the opening of the bridge until the first dividend was declared. This is a day book. These two books are the dividend books, Nos. 1 and 2, showing names of stockholders, and dividends declared up to the present time. These are the legers 1 and 2. These are the semi-annual reports, and copies of statements made to the Auditor General.

I received all these books from my predecessor in office, except those which I have opened myself.

The books were then offered in evidence.

By Mr. Woods—Mr. Harper, where did you find this book? (the subscription book.)

Answer—I found it with some books that were not in the Court House when you asked for it before. This is the only subscription book of which I have any knowledge. There is a day book not here. The stock book is in the handwriting of Alexander Johnson, the first Secretary. I can't say I have ever seen him write, and am familiar with his hand writing from having to go over the records of the Bank of Pittsburgh.

Mr. Alden objected to the offer of the books in evidence, so far as they went to contradict the defendants' plea and demurrer, thereto, namely—that the capital stock was enlarged beyond the original 3000 shares. The plea admitting that the capital stock had not been enlarged, and avoiding that confusion of that plea, to which the Commonwealth and joinder. Mr. A. said that the plea clearly set forth that there had been no enlargement of the capital stock. By the rules of pleading, the party are concluded by their plea and demurrer, how then can they be permitted, after that plea, to contradict it, and say that the capital stock was enlarged 401 shares? Did not this go directly to the issue that they had defrauded the State of one-half at least of that stock, because, being joint partners with the Commonwealth, in proportion to the original stock subscribed, if the stock was good, the State had a right, having taken 1600 shares to their 1400, to reap their proportion of the benefit of such enlargement of stock. Besides, if the stock were enlarged, the Managers should have published that fact, so as to give to all an equal chance, and not, as appears to have been done in this case, considered the money borrowed for the completion of the bridge, a debt, until the stock became valuable, and then when a dividend was declared, turned the debt into stock, on which dividends had been declared for many years, thus clearly defrauding the State by not permitting them to share in this advantageous arrangement. This fact went to every issue.

Mr. Woods also objected that the books were offered in the last stage of the proceedings, and not been produced hitherto. They had not been offered when they had been called for.

Mr. Staunton declared that the books had been furnished to the other side when called for.

Messrs. Shaler and Loomis contended that Mr. Alden's objection did not apply, because, whether such were the fact or not, it was not triable before this court, but must be settled on argument before the Supreme Court, on demurrer.

Mr. Alden contended that the whole record being necessarily before the court, they were bound to take notice of the facts admitted in the pleadings.

Judge McClure overruled the objection, and Mr. Alden sealed a bill of exception.

Mr. Staunton proposed to show that 2,412 shares of stock were subscribed by individuals. That of these 452 shares were abandoned and nothing paid on them. That on 146 shares, partial payments were made, but not being fully paid up, they were forfeited. That 20 other shares were partially, but not entirely paid up, and no dividend ever declared on them. That 3,394 shares of stock, including the state and individual subscriptions had been paid up—of which 1,794 were taken by individuals, and 1600 by the State. Every dollar of the 3,394 shares was paid up, without the application of any tolls.

As a part of the same offer, he proposed to show that by the returns to the State, the value of the shares was $85,075, consisting of the following items, 1600 by the State equal to $40,000; 1794 shares, wholly paid by individuals; 44,850, those two being the whole amount on which dividends were declared; and a third item of 20 shares on which $225 were paid, but no dividend was ever declared, as it was not wholly paid up.

Mr. Woods objected, unless the time of enlarging and the manner in which the stock was enlarged, &c., was fixed. He wished to know what part of the books was offered in evidence.

Objection overruled, and bill of exceptions filed by Mr. Alden.

Mr. Staunton proceeded to read from the subscription book, showing that the book was opened on the 17th April, 1816. Here followed the conditions of subscription, each stockholder agreeing to pay $24,00 per share.

Mr. Alden objected, unless the names of the subscribers were read. Objection overruled. Bill of exceptions filed by Mr. Alden.

Mr. Staunton offered to prove by the minute-book, the time when the Commissioners met to organize the Company. No objection, and Mr. Staunton read the proceedings of the meeting of 8th of July, 1816.

William Robinson, Jun'r., was there appointed President. At the next meeting, on July 9th, various committees were appointed.

Mr. Staunton proceeded to read various extracts from the minutes, to which we have already alluded, and the Court adjourned at half past twelve o'clock.

AFTERNOON SESSION.

Mr. Staunton proceeded to read extracts from the minutes of the Bridge Company, referring to points previously stated.

John Harper recalled—I have examined the first book, showing the original stockholders, sums paid in, &c.

Mr. Staunton was proceeding to ask Mr. Harper its contents, when Mr. Woods objected. The book itself was the best evidence.

Mr. Staunton said that he wished Mr. Harper to read the original names of the subscribers, the stock subscribed, the amount paid, and the number of instalments.

Mr. Woods said, that from the first they had been anxious to get the time when the stock was paid in. They maintained that many of the stockholders had been so dilatory in paying up, that the dividends declared, ultimately paid for the stock. If they wished to read a part, he insisted on Mr. Harper's reading the whole.

Mr. Alden objected, farther, that they should not be allowed to proceed, unless they showed, as a preliminary to the whole, that the books of subscription had been kept open according to the act of assembly incorporating the bridge, so far as regards the subscription of 1400 shares by individuals, and unless they proved that they had proceeded to enlarge the capital stock, in the manner pointed out by the 9th section of the act.

Both objections were overruled, and Messrs. Alden and Woods filed a bill of exceptions.

Mr. Harper proceeded. This book is in the hand writing of Alexander Johnson. The heading purports to be "a list of stockholders of the Allegheny Bridge Company." Stockholders' names—Number of shares—1st instalment, 2nd do, 3rd do, 4th do, 5th do; Remarks. The number of shares subscribed amounts to 2412.

Mr. Harper then proceeded to read the names of the stockholders, and the amounts of instalments paid.

By Mr. Staunton—Does it appear from that book, whether or not the instalments of Thomas Backhouse for 5 shares, were paid?

Mr. Woods objected. Whatever inference is to be drawn from the book, must be drawn from its face by the jury, and not from the opinion of Mr. Harper.

Mr. Staunton contended that Mr. Harper was an expert.

Objection overruled, and bill of exceptions filed.

Mr. Harper—It does not. Mr. H. next read an entry from the book, containing a transfer of stock, originally in the name of William Baggs, to the administrators of James Jack.

Objected to by Mr. Alden, unless the minute book ordering the transfer, was produced, which was the best evidence.

Objection overruled, and Mr. Alden sealed a bill of exceptions.

Mr. Harper proceeded to read the names of the stockholders, and the amount paid. Mr. H. soon came to another person (Mr. B. Balsley), whose stock (The letter F, in the handwriting of Mr. Johnston, stood for forfeiture) was declared forfeited. Mr. Staunton offered to prove by the book, the number of shares forfeited.

Mr. Alden maintained that that book was no evidence of forfeiture. They must prove it in the manner pointed out by the act of the Legislature. The letter F, which they said stood for forfeiture might as well stand for anything else.

Exception overruled. Bill sealed by Mr. Alden.

Mr. Alden further objected to the reception of the book, on the ground that some of the notations which were read, were made upon it, in pencil marks, contrary to the legal mode.

Objection overruled, and bill of exceptions filed.

After the book had been read, Mr. Staunton asked—From your examination of the book, how many shares have been abandoned, how many paid in part, and forfeited, and how many fully paid?

Mr. Alden objected because—1st. There could be no shares on which five dollars were not paid according to the charter.

2nd. Before there could be any forfeiture, the facts relative to non-payment must be regularly proved, and the order for the sale of the stock which should be entered on the minutes of the corporation.

Mr. Staunton said the case was not a question between the corporation and its stockholders.—No charge was brought by the stockholders that any forfeitures were illegally made. They wished to prove on the part of the corporation how many shares had been fully paid, and how many had been abandoned. Scarcely any one subscribing stock, ever paid the money on the spot, but waited until they were called on afterwards.

Mr. Alden contended that any fact of this kind must be regularly proved. The power of forfeiture was a high prerogative, and there was no appeal from the decision of the Company. First. It must be proved that the shares were legally forfeited. Second. That they were regularly sold; and third, that if the corporation bought in this stock, the State had their fair share of it, and received the dividends thereupon.

Objection overruled by Judge McClure, and bill of objections filed.

Examination resumed—146 shares were forfeited; 452 shares were abandoned. On twenty shares, partial payments, amounting to $255 00, have been made, but they have not been forfeited. 1794 shares are entered in the names of individuals, and 1600 by the State, which have all been paid. This appears by this and other books. This book has been in my possession since I became Treasurer. Some of the tally marks on the books were made by myself, and some by Mr. Bakewell. The marginal letters on the pages were made by Mr. Johnson.

Mr. Staunton was proceeding to ask Mr. Harper a question relative to another book, when Mr. Alden objected. They had concluded with the book, and he had a right to cross examine on its contents. Objection overruled.

The book containing the stock leger and accounts, was handed to Mr Harper.

Mr. Alden objected to its reception, on the ground that it was not an original book, and that it was only copied from original entries.

Examination resumed—

If I might name the book, I would say, that it was a kind of petit leger. At some time Mr. Johnson endeavored to put down the names of the stockholders, the amount subscribed, and the amount paid up. It differs from the first book, because between the time the former was written, and the latter, there were transfers of stock. The account in the beginning of the book, is drawn from other sources.

Mr. Alden objected to the book, so far as that account was concerned.

Objection overruled and bill of exceptions filed.

Mr. Harper proceeded to read the account containing the names of shares of stock, and the amount paid on them.

A paper marked B was handed to Mr. Harper. I found this paper among the records of the Bridge company. It is in the handwriting of Alexander Johnson and is dated January 5th, 1824. It purports to be a statement of the condition of the Bridge Company, at that time, (which was the date on which the first dividend was declared.)

Mr. Alden objected to its reception, on the ground that it was not an original paper, but showed on its face that it was a copy. If the original was lost, and it was proved that this was a faithful copy, it might be evidence.

Objection overruled, and bill of exceptions filed.

The paper was then read in evidence. From it, it appeared that the total number of shares which had been paid, amounted to 1601. Amount paid on it, $40,000. Number not paid up 215- Amount $3,534.

Mr. Staunton then offered to prove from the dividend books, that no dividend had been declared on any shares, except those which had been paid up.

Mr. Harper proceeded to read an abstract of the dividend book, showing the amount of the yearly dividends, which have been made since 1824.

I have made a careful examination of the books, and this is a correct abstract. I find no evidence on the books that dividends were declared on any stock not paid up, but the reverse. The dividend book No. 1 is in the handwriting of Alexander Johnson. In no single instance do I find any dividend not carried out to the stockholders.

The transfer book was then offered in evidence, and a number of extracts read, after which the Court adjourned at 5 o'clock.

Gody's Lady's Book, Graham's and Sartain's Magazine for September have been received at Holmes' Literary Depot, No. 74, Third street, opposite the post office; they are excellent numbers, containg a large number of steel engravings, and fashion plates for fall dresses; also the Model Architect, containing original designs for cottages, villas, suburban residences, &c. Each number will contain four lithographic engravings of original designs for residences, varying in the cost of erection from eight hundred to fourteen thousand dollars; there are also six pages of details correspoding to these designs.

THE RAILROAD.—Quite an interest is being awakened westward of us, in favor of pushing through the Warren and Franklin Railroad, and securing a connection with the Sunbury and Erie road at its most available point. At Ravenna, Franklin Garrettsville, Newton Falls and other points, the people are stirring in earnest, and we are assured that a large amount of stock will be taken along the line.

We see by the Pennsylvania papers, that the counties and towns of that State proposed to be intersected by the Sunbury and Erie Railroad, are holding conventions and subscribing stock largely. There seems now to be no doubt but that this road will be completed, and the cars running between Philadelphia and Erie in less than two years.

Correspondence is now being had on the part of our citizens with the President and Directors of the Sunbury and Erie road, and we expect, in a week or two, to be able to place our readers in possession of some accurate and reliable information with regard to the proposed connection of the two roads. It is proposed, moreover, to hold a convention at Warren, in a few weeks, for the purpose of inviting public attention more fully to the enterprise. The project is certainly worth looking at, and we trust our farmers, capitalists and business men will inform themselves in the matter. In the meantime, let those already alive to its importance work earnestly.—*Trumbull County Whig.*

HEMPFIELD RAILROAD.—THE SURVEYS.—We learn that the surveying party on the eastern end of the Hempfield railroad line have nearly completed the location of the road from Greensburg to West Newton. They report the route as exceedingly favorable. But little regarding will be necessary, the rout being nearly level the entire distance. The distance between these two points is some two miles shorter than the first calculation made.

The party on the Western end of the road are progressing rapidly towards this. They are now near Clarksville, and will be here probably next week. We learn that the distance by the road surveyed, from here to Wheeling, will be two miles shorter than by the turnpike.—*Washington Reporter.*

We publish the foregoing slip from the Washington Reporter for the purpose of making some necessary corrections. Our neighbor is in error. We are informed upon proper authority, that there is no reason to suppose that the distance by the line surveyed from Wheeling to Washington will be any shorter, or even as short as that by the turnpike. What was gained near Wheeling will be lost near Washington. We have authority for saying, also, that the distance between Greensburg and West Newton will not be two miles nearer than the first calculation made. There is no reason, to doubt the first estimate was pretty near correct, though the distance will of course depend on the route selected.—*Wheeling Gazette.*

The College of St. James.
WASHINGTON COUNTY, MARYLAND. (The Diocesan College of the Protestant Episcopal Church.)

THE TENTH ANNUAL SESSION will open on MONDAY, October 6th, 1851, and continue until the next "commencement day," the last Thursday in July, 1852. New students are recommended to enter at the opening of the session, but are received at any time they apply, and the charge is estimated from the date of their entrance.

THE COLLEGE has the usual number of classes, affords all the opportunities for a complete education, and at the successful termination of the collegiate course, confers on its graduates the usual academical degrees.

THE GRAMMAR SCHOOL, immediately adjoining the College, and under the supervision of the Rector, but under distinct discipline, receives lads at the beginning of their academical course, and prepares them for the collegiate classes. The oversight and direction of the Professors of the College secure special advantages to the pupils in the Grammar School.

In the MERCANTILE CLASSES, the study of Greek is omitted, and its place supplied by additional studies in Modern Languages, Book-keeping, &c.

The situation of the College is entirely healthful, and by its distance from towns and villages, very favorable to good morals and order.

KEMP HALL, a new building, 90 feet by 40, will be ready for occupation in the course of the coming session. In addition to the former corps of Professors, the Trustees have recently appointed Hugh Davey Evans, LL. D., Lecturer on Civil and Ecclesiastical Law, and John H. Alexander, LL. D., Lecturer on Physics and Chemistry.

The whole charge for the session of ten months (the same in the College and Grammar School) is two hundred and twenty-five dollars, payable semi-annually in advance. Applications for admission to be made to Rev. JOHN B. KERFOOT, D. D., Rector, College of St. James P. O., Washington county, Maryland.

N. B.—Persons in Pittsburgh wishing any information respecting this Institution, are referred to the Rev. Theodore B. Lyman, who was formerly a Trustee. aug15:dlaw:St

WE, the undersigned Commissioners to receive subscriptions and organize a company, appointed by the Act of the General Assembly of Pennsylvania, entitled "An Act to incorporate the Pittsburgh and Steubenville Railroad Company," approved March 24th, 1849, hereby give notice, that Letters Patent, bearing date July 22d, A. D. 1851, under the great seal of the Commonwealth, and signed by Wm. F. Johnston, Governor, have been issued, constituting the subscribers and those who shall hereafter subscribe, to the capital stock of said Company, their successors and assigns, a body politic and corporate, in deed and in law, under the name aforementioned.

And we, therefore, agreeably to the laws of the said Commonwealth, hereby appoint and give notice that a meeting of said subscribers to organize said Company will be held, at the Rooms of the Board of Trade, corner of Third and Wood streets, in the city of Pittsburgh, on Thursday, the twenty-first day of August instant, at ten o'clock in the forenoon, and that an election will be then and there held, by said subscribers, at the said time and place of meeting, to elect a President and twelve Directors of the said Railroad Company. The election will commence at ten o'clock in the forenoon.

Kentucky Mutual Life Insurance Company.
GUARANTY FUND, $100,000.
THIS COMPANY offers to the insured all the security and advantages of the Mutual and Joint Stock Plans (as heretofore applied) combined, namely: low rates of premium; an annual return in cash of the per centage required for the contingent risk of the year; an adequate, but not excessive [illegible] interest in the accumulating fund secured to such members, payable at death, by policies; a guaranty fund provided for the permanent security of short term members, and also for the present security of those for the whole term of life.
This is the only Mutual Life Insurance Company whose rates of premium are fixed at a fair reduced standard, with a provision for an annually increasing accumulation of funds for future security in proportion to the amount of business and the increasing risk from advancing age among the members.
Pamphlets, tracts, &c., giving in detail the plan and rates of the Company, furnished gratis, and applications for insurance received by J. TURBETT, Agent, 129 Wood street, Pittsburgh.

To the Public. INDIA RUBBER SHOES.—Our attention has been called to an advertisement by Horace H. Day, published in the New York Herald of 11th July, 1851, and the Courier and Enquirer of same date, in which, after much unmerited abuse of our attorney, Wm. Judson, Esq., he asserts that we dare not charge him with pirating Goodyear's Patents, in his manufacture of shoes. We take this occasion to give notice that we charge him with pirating Goodyear's Patents in the manufacture of Shoes.
We have purchased our licenses for the manufacture of India Rubber shoes under Goodyear's Patents, and paid our money, and are daily paying a tariff for the same; and any other person who infringes the said Patents, (if disposed to do so, rather than pirate upon Goodyear's Patents. We think it more just to purchase a right, to use a valid patent, than to infringe it. Mr. Day having been prosecuted, acknowledged Goodyear's rights, made a settlement, and agreed in future not to infringe his patents. He is now attempting, not only to infringe said patents, but to injure ourselves, who have, for a large consideration, purchased our licenses and now work under them; and we charge him as publicly as he has charged us, that he is now pirating upon Goodyear's Patents, in the manufacture of shoes, and we shall prosecute him and all parties purchasing or vending his shoes, made in violation of said Patent Rights, will be prosecuted.

Professor Alex. C. Barry's Tricopherous, OR MEDICATED COMPOUND, for restoring, preserving and beautifying the hair, eradicating scurf and dandruff, and curing diseases of the skin, glands and muscles, stings, cuts, bruises, sprains, etc. It has been ascertained by experiment, that Barry's Tricopherous has produced the same effects in curing diseases of the skin, etc. of the horse, and all the animal kingdom. The following testimonials, selected from hundreds of similar import, will serve to show the value of the preparation, and the estimation in which it is held by those who have given it a trial:
NEW YORK, Sept. 22, 1850. PROF. BARRY—Dear Sir—I have been afflicted with a cutaneous eruption of the scalp, of a most aggravated character, for the last sixteen years, and during that period have had the advice of some of the most eminent physicians, and have tried all the preparations for the hair and skin now known, without the least benefit. I was advised by a friend to try your Tricopherous. I did so, as a last resort, and to my surprise and gratification, found myself cured in about two months. Such was the violence of the disorder that at times I was partially blind. Respectfully, yours, J. W. M. RAPELYE, 145 Columbia street, Brooklyn.
NEW YORK, Oct. 23, 1850. PROF. BARRY—My Dear Sir—About two years ago my hair came out a great deal, and my head was much afflicted with dandruff. I was told by a friend to try your Tricopherous, and I did so, and to my astonishment, my hair was firmly rooted, and all the dandruff disappeared, as the head now shows for itself. With respect, I am your obed't serv't, J. S. TREADWELL, 663 Broadway.
If any lady or gentleman doubts the authenticity of the above, they will please call at Professor A. C. Barry's office, 137 Broadway, New York, where he will produce the original letters.
[From the Military and Naval Argus, Nov. 9, 1850.] There is no remedy for the permanent cure of baldness and diseases of the cranium generally, that has reached the popularity enjoyed by the article known as Professor Barry's Tricopherous, or Medicated Compound. It is extensively used by the upper classes of the community, in almost every nursery in the land it is used in preference to other articles of the kind. It imparts vigor to the roots of the hair, and thus promotes its growth to a remarkable degree. It destroys the dandruff and scurf, and makes the hair fine and glossy. It will cure all diseases of the scalp, such as scald head, dew worm, and other obnoxious disorders of the skin; in cheapness as well as efficacy, it stands unrivalled. It is sold in large bottles, price 25 cents, at No. 37 Broadway, and at the Druggists generally, throughout the United States and Canada. app20:if

MISCELLANEOUS.

AYER'S CHERRY PECTORAL, FOR THE CURE OF COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, CONSUMPTION.
AMONG the numerous discoveries Science has made in this generation to facilitate the business of life, increase its enjoyment, and even prolong the term of human existence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this vast country, has proven beyond a doubt that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a remedy has at length been found which can be relied on to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we present the following opinions of eminent men, and refer further enquiry to the circular, which the agents below named will always be pleased to furnish free, wherein are full particulars, and indisputable proof of these facts.
From the President of Amherst College, the celebrated PROFESSOR HITCHCOCK. "James C. Ayer—Sir: I have used your Cherry Pectoral in my own case of deep-seated Bronchitis, and am satisfied from its chemical constitution that it is an admirable compound for the relief of laryngial and bronchial difficulties. If my opinion as to its superior character can be of any service, you are at liberty to use it as you think proper. EDWARD HITCHCOCK, L. L. D."
From the widely celebrated PROFESSOR SILLIMAN, M. D., L. L. D., Professor of Chemistry, Mineralogy, &c., Yale College, Member of the Lit. Hist. Med. Phil. and Scientific Societies of America and Europe. "I deem the Cherry Pectoral an admirable composition from some of the best articles in the Materia Medica, and a very effective remedy for the class of diseases it is intended to cure." New Haven, Ct., Nov. 1, 1849.
MAJOR PATTISON, President of the S. C. Senate, states that he has used the Cherry Pectoral, with wonderful success, to cure an inflammation of the lungs.
From one of the first Physicians in Maine. SACO, Me., April 26, 1849. "Dr. J. C. Ayer, Lowell—Dear Sir: I am now constantly using your Cherry Pectoral in my practice, and prefer it to any other medicine for pulmonary complaints. From observation of many severe cases, I am convinced it will cure coughs, colds, and diseases of the lungs, that have put to defiance all other remedies. I invariably recommend its use in cases of consumption, and consider it much the best remedy known for that disease. Respectfully yours, I. S. CUSHMAN, M. D."
Prepared and sold by JAMES C. AYER, Practical Chemist, Lowell, Mass. Sold in Pittsburgh, wholesale and retail, by B. A. FAHNESTOCK & CO., and J. M. TOWNSEND. In Allegheny City, by H. P. SCHWARTZ, and J. DOUGLAS; and by Druggists generally. je2:daw2m:T

SELLERS' VERMIFUGE:—"It has never, in a single instance, failed to expel worms." Cabell Court House, Va., July 23, 1847. Mr. R. E. SELLERS—You will recollect that when we were in Pittsburgh, in November last, you prevailed on us to try your Vermifuge, to test its virtues. We purchased through the winter we sold what we purchased, which gave it a fair reputation. In May last we purchased more, which was disposed of immediately. We then ordered more, which reached on the 13th of the present month, and on yesterday we sold the last of 3 doz. bottles. We now wish you to send us by the first safe conveyance, 6 doz. more. We find it so valuable a medicine, that every person of a family wishes to have it in their possession. Those who have purchased it would be perfectly willing to give certificates of its excellency. Out of the quantity we have vended, it has never, in a single instance, failed to expel worms. WM. C. MILLER & CO. Prepared and sold by R. E. SELLERS, No. 57 Wood st. aug4

To the Deaf! DEAFNESS, noises in the head, and all disagreeable discharges from the ear, speedily and permanently removed without pain or inconvenience, by Dr. HARTLEY, Principal Aurist of the N. Y. Eye and Ear Surgery, and of 99 Arch st., Philadelphia, begs to announce his return for a few days. The number & importance of the cases under his care on his recent visit, and the gratifying amount of success which attended his treatment, have induced him to expedite his return—His stay here will depend much upon circumstances, and it will be advisable for those who wish to consult him, to make an early call. Dr. H. may be consulted, until further notice, in Allegheny, second brick dwelling beyond the School House, on Rebecca street. jy25

A Valuable Improvement in Trusses. DR. HARD'S Improved Patent TRUSS and RUPTURE REMEDY, by which a permanent cure can be effected. This Truss is entirely different in form and principle of action from other Trusses, having all the advantages of a well-regulated and uniform pressure. The pressure can be so regulated as to give ease and comfort in the most difficult cases of Hernia, and can be increased to almost any force desired. The pressure is natural, and being brought to bear immediately over the hernial opening, and being prevented from the danger of strangulation, or any other dangerous or painful symptoms, which is not an unfrequent occurrence in the wearing of illy adapted trusses. It is a very common practice for persons afflicted with Rupture to select a truss and apply it themselves. This is a bad practice, which can be done only by those who understand the anatomy of the parts affected in hernia. We would most respectfully call the attention of Physicians to this Truss, as we know they will appreciate its value. We also have a variety of other Trusses at the lowest prices. Infant Trusses kept constantly on hand. KEYSER & McDOWELL, Agents, je2 140 Wood st., Pittsburgh.

Dr. Hard's Abdominal Supporters. THESE SUPPORTERS are intended chiefly for the cure of Prolapsis Uteri, and all those diseases where a mechanical support to the Abdominal Viscera is required. They give perfect support to the abdominal organs, and may be worn with comfort by all. The diseases produced by a weakness of the abdominal muscles are Prolapsis Uteri, Inflammation of the Bowels, Piles, Costiveness, Pains in the Back and Spine, Lassitude and Extreme Feelings of Prostration, Bronchitis, shortness of Breath, Palpitation of the Heart, Dyspepsia, and general debility. KEYSER & McDOWELL, je2 140 Wood st., Pittsburgh.

Sellers' Liver Pills. BIRMINGHAM, (opposite Pittsburgh,) June 24, '46. MR. R. E. SELLERS:—I take this opportunity of testifying in favor of your invaluable medicine. About two years ago, I was taken down with severe inflammation of the liver, and was so reduced by night sweats and other effects of this dreadful disease, that my life was despaired of. After other means had failed, I was advised by my physician to try your Liver Pills, and I must say that after taking one box and a half I have been restored to reasonable health, which I enjoy at this time. I therefore take pleasure in recommending them to others afflicted with disease of the Liver. Yours respectfully, JOHN GIVENER. All other Pills called "Liver Pills," are counterfeits or base imitations. The genuine are prepared and sold by jy4 R. E. SELLERS, 57 Wood st.

X. Bazin's (successor to Roussel) Perfumes for the Handkerchief. EXTRACTS of Rose, Orange Flower, Jessamine, Portugal, Verbena, Sweet Pea, Vanilla, Patchouly, Violet, Mignonette, Millefleurs, Honey, Pink, Magnolia, Bouquet de Caroline, Geranium, Heliotrope, Cedrat, Mousseline, Tuberose, Bergamot, Camelia, Honeysuckle, Jonquille, Jockey Club, Lilac, Marechale, Spring Flowers, Clematite, West End, Jenny Lind, Canelle, Citronelle [illegible], and Extract Musk, in one ounce bottles, with glass stoppers. All the above Extracts, which are only a part of his assortment, are of the very best quality, being manufactured with especial care. The most extensive sale made in this country, fully test the high estimation in which they are held by the community. For sale by je27 R. E. SELLERS, 57 Wood st.

White Paint. 1 TON OF WHITE OXIDE OF ZINC, received and for sale at Nos. 7 and 9 Wood st. N. B.—We invite the attention of House and Steamboat Painters to this article, which we have been using for upwards of three months, and can recommend to be superior to white lead paint in every respect. Instead of absorbing the light like white lead, zinc white reflects it, and consequently has a fresher and more brilliant tone. It acquires greater hardness, and is more durable for inside or outside work. It will not rub off, and can be washed without injury; and as it covers more surface with equal weight, it is really as cheap as white lead. je27 J. & H. PHILLIPS.

Sims' Fire Proof Mineral Paint. THE subscriber, having completed his establishment for the preparation of the above named article, near the head of Federal street, Allegheny, is prepared to furnish it, through his agents, either dry, or ground in oil. MEDICAL.

Judd's Medicated Liquid Cuticle. THIS ARTICLE is intended for family use, and should be found in the possession of every family in the land. Mechanics who are in constant danger of injury to their persons through accident, and the improper or careless use of tools, will find this article to be invaluable to them, and after a fair trial will consider it indispensable.
This may certify that we, the undersigned, having frequently made use of Judd's Medicated Liquid Cuticle, prepared by Messrs. Penfield & Camp, Middletown, Conn., cheerfully recommend it to our professional brethren, as an excellent substitute for adhesive plaster, in dressing burns, cuts, scalds, bruises, and all kinds of fresh wounds; also, for sore Nipples, a remedy unequalled. CHARLES WOODWARD, M. D., WM. B. CASEY, M. D., D. HARRISON, M. D., F. WOODRUFF, M. D., HAMILTON BREWER, M. D., ELLSWORTH BURR, M. D., Botanic. THE GREAT KENTUCKY REMEDY! DR. JOHN BULL'S SARSAPARILLA. IT IS put up in quart bottles, and contains the strength of six bottles of such pure Sarsaparilla as any similar preparation in America. Price one dollar per bottle, or six bottles for five dollars. It has been a well established fact for years past, that Sarsaparilla, when pure and properly prepared, was the only true panacea for all diseases originating from an impure state of the blood, the use of Mercury, intoxicating drinks, evil habits in youth, barrenness, &c. We boldly assert that JOHN BULL'S EXTRACT OF SARSAPARILLA is the only preparation before the public that is prepared on strictly scientific principles and of uniform strength. The Sarsaparilla is [illegible] without regard to price, and every pound [illegible] is subject to the strictest chemical test, and its [illegible] ascertained before being used! Bull's Sarsaparilla also contains the virtues of several other valuable agents, together forming the best compound, and producing the greatest curative agent in the known world!
WILL CURE WITHOUT FAIL! Scrofula or King's Evil, Cancers, Tumors, Eruptions of the Skin, Erysipelas, Chronic Sore Eyes, Ringworm or Tetters, Scald Head, Rheumatism, Pains in the Bones or Joints, Old Sores, Ulcers, Swelling of the Glands, Syphilis, Dyspepsia, Salt Rheum, Diseases of the Kidneys, Loss of Appetite, diseases arising from the use of Mercury, Pain in the Side and Shoulders, General Debility, Dropsy, Lumbago, Jaundice, Costiveness, Sore Throat, Bronchitis, Coughs, Colds, Weakness of the Chest, Pulmonary Affections, and all other diseases tending to PRODUCE CONSUMPTION: Liver Complaint, Female irregularities and complaints, Sick and Nervous Headache, Low Spirits, Night Sweats, Exposure, Imprudence in Life, Chronic Constitutional Disease, and is a spring and summer drink, and general tonic for the system, and gentle and pleasant purgative, far superior to Blue Lick or Congress water, salts, or Seidlitz.
TESTIMONIALS. The following is the verbatim copy of certificate now in the possession of the proprietor of Bull's Sarsaparilla.—Rev. E. W. Sehon is widely and generally known as an eloquent and accomplished pastor of the M. E. Church, and Rev. E. Stevenson has been known as one of the most talented and zealous members that the Kentucky Conference could boast of for many years, and at this time is filling the high and responsible station of agent for the M. E. Book Concern. Can the world produce better, or more satisfactory testimony in favor of any medicine? *Better Testimony than was Ever Offered in Favor of Any Medicine.* REV. E. W. SEHON—REV. E. STEVENSON. LOUISVILLE, May 20, 1850. We have used John Bull's Sarsaparilla, and have known it to be used, with entire satisfaction; and we have no hesitation in stating that we believe it to be a safe and valuable medical compound, and calculated to produce much good and relieve much suffering: and would therefore cheerfully and most earnestly recommend it to the afflicted. (Signed) E. W. SEHON, E. STEVENSON.
A BEAUTIFUL CLEAR SKIN. How we all admire a clear beautiful white skin, and a rosy colored cheek. How often do we see persons, not possessing this "desideratum so devoutly to be wished," resorting to cosmetics, lotions, washes, paints, and coloring materials, to restore to them a semblance of what disease has deprived them of, and that too, with great injury to the skin. Bull's Sarsaparilla is the best cosmetic known. It beautifies the skin, by removing every particle of morbid and diseased matter from the blood, making it pure, healthy, and vigorous, giving activity to every minute vessel, and changing the yellow and dark countenance to the bloom and freshness of youth. Ladies, abandon the use of paints and mixtures, and use Bull's Sarsaparilla, the only effectual remedy. "A word to the wise is sufficient" and a hint is enough to the ladies. *Testimony Like the Following, Renders Superfluous all Comment on the Efficiency of Bull's Sarsaparilla.* From Dr. L. P. VANDELL, Professor of Chemistry in the Louisville Medical College. "I have looked over the list of ingredients composing John Bull's Compound Extract of Sarsaparilla, and have no hesitation in saying that they form a safe compound, and one that promises well in chronic diseases to which it is applicable." L. P. VANDELL, M. D. LOUISVILLE, June 6, 1848.
What DR. PYLES, Physician by appointment to the Louisville Marine Hospital, says of BULL'S SARSAPARILLA: LOUISVILLE, March 30, 1848. I have examined the prescription for the preparation of John Bull's Sarsaparilla, and I believe the combination to be an excellent one, and well calculated to produce an alterative impression on the system. I have used it both in public and private practice, and think it the best article of Sarsaparilla in use. M. PYLES, M. D., Resident Physician at the Louisville Marine Hospital. CAUTION—Beware and ask for the original DR. JOHN BULL'S SARSAPARILLA, from Kentucky—and take no other. KEYSER & M'DOWELL, 140, Wood street, Pittsburgh, Pa., Wholesale and Retail Agents. Also for sale by D. M. CURRY and JOS. DOUGLASS, Allegheny city, and by Druggists generally. je1:dlaw2mT

—IN QUART BOTTLES.—

FOR PURIFYING THE BLOOD—the best Female Medicine known. Incipient Consumption, Barrenness, Leucorrhoea or Whites, Irregular Menstruation, Incontinence of Urine, General Prostration of the System, Depressed Spirits, and Gloomy State of Mind, are cured by *Dr. Guysott's Extract of Yellow Dock and Sarsaparilla*, which gives immediate relief by renewing the fountain of health and strength, the blood. It neutralizes bad humors, stops unnatural secretions, and gives healthy action to all the vital powers.
Its mild alterative properties render it peculiarly applicable to the slender and delicate constitution of the female. It immediately counteracts that distressing nervousness and lassitude so common to the female frame, and imparts an energy and buoyancy as surprising as they are grateful. We have evidence on file which induces us strongly to recommend this medicine to married people who have not been blessed with offspring.
Prolapsis Uteri, or Falling of the Womb, of five years standing, cured by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla, after every other known remedy had been tried without relief: WASHINGTON, O., Feb. 15, 1849. This certifies that my wife, aged 27 years, has suffered under the above complaint for five years, nearly all that time confined to her bed. I have for four years constantly employed the best medical talent that could be procured in this section of the country, without any benefit whatever. I have also purchased every instrument recommended for the cure of such diseases, all of which proved worthless. In the spring of 1848, I was induced by my friends to try Dr. Guysott's Yellow Dock and Sarsaparilla, which was used for four months. After she had used it for about four weeks, it was evident to all of us that she was improving, and from this time she improved rapidly, and gained flesh and strength, until she is now enjoying most excellent health. WM. MONFORT. We, being neighbors to Wm. and Julia Monfort, know that the above statements, as to the sickness of Mrs. Monfort, and as to the cure being effected by Guysott's Yellow Dock and Sarsaparilla are strictly true. JANE EDDY, SARAH POWERS.
King's Evil—Case of O. M. Leonard. BLOOMING GROVE, Dec. 1, 1849. Messrs. S. F. Bennett & Co:—Gents: Some time in 1843 I was attacked with King's Evil in my arm, which became so sore I could not use it, and in 1845 mortification set in. I employed, at different times, each physician of celebrity within my reach; all told me my arm must be amputated. From the shoulder to the forearm was full of running sores. My strength at this time was completely exhausted, and my person much emaciated. I continued in this state until 1848, when I saw an advertisement (Guysott's Yellow Dock and Sarsaparilla) which I read, and sent for a bottle of the article. Guysott's Yellow Dock and Sarsaparilla cured me; I took no other remedy while using it; and felt myself perfectly well before using the sixth bottle. Had I used it at the first appearance of the malady, I am sure it would have saved me from years of pain and suffering. I most earnestly recommend every person suffering under any similar disease, to use Guysott's Yellow Dock and Sarsaparilla, which will restore them to health. Yours, in gratitude, O. M. LEONARD.
Cure of an aggravated case of Erysipelas. The cures performed by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla, are lasting. The patient's general health continues to improve after disease is removed.—Cures are not chronicled until time has fully tested that there can be no relapse or return of the disease. NORWAY, Herkimer co., February, 1850. S. F. Bennett & Co.—Gents: It is with great pleasure that I write you about the very happy effects of your Yellow Dock and Sarsaparilla upon my son, who has long been suffering under that dreadful and loathsome disease, Erysipelas, with which he was attacked in 1845, and for several months attended by some of our best physicians, who tried their skill perseveringly for five months, without any beneficial results whatever. He became reduced to a perfect skeleton. He had ulcers from his hip to his knee, which were continually discharging disgustingly offensive matter. Medical and surgical skill was baffled. Physicians said that his case was hopeless: there could be nothing done to arrest those terrible gangrening ulcers. My neighbors and myself thought his dissolution near at hand. One of my neighbors (who had cured a child of Scrofula with your invaluable medicine) wished me to make trial of it; and, more from the restless desire to do something while life lasted, than from any hope of getting relief, I procured three bottles of your Yellow Dock and Sarsaparilla, and commenced using it; and to my astonishment he began to improve before he had used the third bottle; and before he had used a half dozen bottles he could walk out. He used in all twelve bottles during the year 1849, and by October last he was perfectly restored. Every vestige of the disease, except the scars, is removed, and he remains in perfect health at the present time. His recovery, under the blessing of God, is entirely owing to the use of your Yellow Dock and Sarsaparilla; and I assure you that I feel myself under great obligations to you, and it is with great joy that I inform you of what your Sarsaparilla has done for my son. Respectfully, JAMES RUSSELL.

Beyers' Piano Preceptor. H. KLEBER has just received Beyers' celebrated preceptor for the Piano, which is acknowledged by professional men in this country and in Europe, to be the best work of the kind ever published. Beyer, well known as one of the most successful composers for beginners and pupils, has here supplied a want long and severely felt by the musical public, viz: an elementary book, progressive and interesting to the pupil, both in its exercises and tunes, thus greatly facilitating and smoothing the somewhat tedious and irksome first study of music and piano playing. The following Professors who have examined the work, are referred to: Professors Harboras, Landmann, Feine, Noth. ja1
