HOME MATTERS.

FATAL ACCIDENT.—James Ramsay died yesterday morning, from the effects of injuries received by him, in jumping from the passenger cars on the Ohio and Pennsylvania Railroad, while they were in rapid motion. He will be buried this morning from his residence, in Mowry's row, on the North Common, in Allegheny City.

FIRE.—A fire broke out last night, at about nine o'clock, in the cap store of Mr. Richardson, on Market, a few doors below Third street. The rooms below were filled with a dense smoke, which prevented the wife of Mr. Richardson's brother, and her two children, who were up stairs, from coming down.

Mr. James D. Alexander, of the Bank Exchange, however, gallantly mounted to the second story window, and aided by some of his fellow members of the Vigilant Fire Company, rescued them from danger. The fire was soon extinguished, though Mr. Richardson's stock suffered considerable damage, more from fire than from water.

BURGLARY.—The dwelling of Mr. Cuddy, of Sligo, was broken open on Monday night, and an iron safe being broken open, eighteen hundred dollars were stolen from it. The burglar then attempted to set the house on fire, but the smoke penetrating into the chambers, caused the fire to be discovered by the inmates, and it was extinguished.

ASSAULT AND BATTERY.—Wm. Spalding, alias Butler, was committed to prison on Monday, by F. A. Helsley, Esq., of the Sixth Ward, charged, on oath of Sarah Simpson, with assault and battery.

POLICE BUSINESS.—Not a single commitment was made out yesterday, by any of our magistrates.

LOCAL NEWS.—Owing to the pressure of the Cuban news upon our paper, the local column is not so full as usual.

DR. McLANE'S LIVER PILLS.—The astonishing demand for this great medicine seems to be on the increase. Where it has been introduced, it has attained a popularity unprecedented in the annals of medical practice. Physicians are using it in many cases, at least when they can obtain it. Patients, however, need not be under the expense of asking medical advice, as they can purchase a box of the Liver Pills, with which directions will be furnished, which will work a speedy cure. The following letter from an agent shows its popularity in the section from which the letter is dated:

BURNT CABINS, Belford co., Pa., March 23, 1847.

J. Kidd & Co.—Gentlemen, We had on hand a great many more of Dr. McLane's Liver Pills than your agent left with us. These Pills are rapidly rising in favor, and we have almost sold all that we had. If you can send us 10 or 12 dozen more boxes, they will last perhaps until your agent can bring us a new supply.

TRUTH FLOATS ABOVE FICTION LIKE OIL ABOVE WATER.—The sick man can tell a good medicine by trying it, as quick as a Dr. can tell a good dinner by eating it. And if one has tried it, and find it poor, it will destroy the popularity with the whole city. You can't introduce a medicine into popular use unless it possesses really substantial virtues, free from all bad effects of valid objections, and it is this fact that has established the reputation of "Bull's Compound Fluid Extract of Sarsaparilla," beyond all cavil or dispute. Its action upon the human system is in accordance with rational and philosophical principles—it promotes the various secretions and exertions of the body, removes obstructions, dis stomach morbid and diseased matter, creates new, pure, and healthy blood, and regulates the various functions of the different organs of the body. This is all performed without the least danger of harm, the preparation being as safe as it is efficacious. It may be thought by the skeptical that it purports to cure too many diseases, but upon examination, it will be found that a large majority of the diseases which afflict the human family originate in an impure state of the blood. Be not deceived, then, by other Sarsaparillas being offered you by busy sellers of nostrums and water preparation as a substitute for the original John Bull's Sarsaparilla? This valuable preparation the proprietor warrants to be superior to all others.

CAUTION.—Beware and ask for the original Dr. John Bull's Sarsaparilla from Kentucky—and have no other. See advertisement on another page.

BY TELEGRAPH.

RECEIVED BY THE O'REILLY TELEGRAPH LINE, AND REPORTED FOR THE PITTSBURGH GAZETTE.

THOMASTOWN, (Me.) Aug. 29.

The brig Grecian, Captain Gilchrist, arrived to-day from Savannah, with the loss of all her officers and crew, with the yellow fever. The captain, the only survivor, was alone without the crew, five days, steering, cooking &c. The vessel was also struck by lightning.

LATE AND IMPORTANT FROM HAVANA.

SAVANNAH, Sept. 2.

The schooner Merchant, arrived here to day from Havana, bringing advices from that city to the 23d of August, being four days later than those received by the Empire City, at New Orleans.

The Merchant brings the important intelligence that General Lopez has been successful in every engagement with the Spanish troops. In the engagement of the 17th, Gen. Enna, commander in chief of the Spanish forces, was killed, with several other officers, and a large number of men.

The force of Gen. Lopez was from 1500 to 2000 strong, and was daily receiving reinforcements. He was marching towards Havana.

Gen. Enna was buried with great pomp in Havana, on the 20th of August.

Great excitement prevailed at Havana, and much apprehension was felt. There are now only about 700 troops remaining in the city.

The above despatch is from the Editor of the Savannah News.

BALTIMORE, Sept. 1.

We have one mail from New Orleans to night, leaving the latest still due. The Picayune, of the 24th, says that the Cuban Liberators, of whom there is a large number, have given the whole management of their affairs into the hands of Gen. Felix Houston, who, in carrying out their views, will take care and not violate the laws of this country.

The Washington Telegraph says, that arrangements have been made in the United States, for landing 5000 men in Cuba in a short time, under the command of distinguished leaders, and adds, that it could give all the details of the project, if it were politic to do so.

Several Hungarians left Montgomery, Ala., on Monday, to join Gen. Lopez.

WASHINGTON, Sept. 2d.

The Secretary of the Treasury yesterday received despatches from the Collector of New Orleans, stating that 2000 men are waiting there to embark for Cuba. The Collector was informed in reply that should these men embark, certain officers of the U. S. and Orleans, would be held responsible. The Republic of this morning states that upon the American Consul at Havana, calling upon the Captain General, complaining of the firing upon the Falcon, the latter expressed regret at the occurrence, and said it should not again occur; that it probably happened because the Spanish vessel had a new commander, recently come to Havana, who did not know the Falcon.

The Cuban meeting here last night, was largely attended. Gen. McCalla presided. The resolutions adopted are moderate in their tone, and the speakers were very temperate in their addresses.

FURTHER FROM CUBA.

NEW ORLEANS, Sept. 2.

The details of the steamer Cincinnati come down to the afternoon of the 25th. The steamer "Allied Ares" arrived at Havana on the morning of that day, with fifteen soldiers, who were wounded in a battle fought on the 21st at Cadala.

The Spanish report says that 40 pirates were killed, and 40 prisoners taken.

A dispatch from the Commandant at Bahia Honda says he shot six pirates on the 22d, including Adjutant Geo. Graham and Lieut. Fercanding.

The Captain General issued a proclamation, offering quarters to all insurgents who will surrender within four days after the publication of the notice, irrespective of districts; also pardon to those who will deliver up Lopez.

The Spanish loss at Cadalria would seem large.

Letters say an express train had left Havana with several surgeons to attended the wounded Spaniards.

The Patriots were always shot as soon as captured.

A letter says that Lopez is in a position to hold out two months.

The Crescent, of this morning, publishes a letter from Crittenden, written half an hour before his execution, in which he says he had not a single musket, or cartridge: and that Lopez has no artillery.

The authorities here are using vigilant measures to prevent the expedition for Cuba. Money comes in very slowly.

EXTENSIVE FORGERY.

CINCINNATI, Sept. 2.

Davenport, the publisher of school books, was arrested to-day charged with forgeries on J. A. & H. P. James, E. Morgan & Co., and others, of this city, to the amount of $20,000. The notes were all discounted. He had redeemed previous forgeries at majority.

NEW ORLEANS, Sept. 1.

The steamer Cincinnati arrrived from Havana with dates to the 25th, confirming the accounts by the schooner Merchant. She passed the steamer Pizarro at sea on 26th.

INAUGURATION OF GOV. POWELL.

LOUISVILLE, Sept. 2.

Gov. Powell was inaugurated to day at Frankfort. He appointed David Moriwether, late Democratic candidate for Congress, in this district, Secretary of State.

LOUISVILLE, Sept. 2.

The Cuba excitement is dying off. A Cuba volunteer, returned from New Orleans, states that 1400 men were assembled there, without means of subsistance. No provision has been made to send them off or pay their expenses.

Tobacco—Receipts this year 4000 hhds; exports 54,500; and the present stocks 23,800 hhds.

Flour—The year's receipts are 960,000 bbls; exports 581,000; and present stock 21,000 bbls.

The value of domestic produce for the year is $106,900,000.

THE TARIFF OF '46.—When Secretary Walker procured the passage of the Tariff of '46, he asserted that, in a few years, it would greatly increase our exports. In one sense the prediction of the Honourable Secretary has proved correct. We have exported, for instance, since the last of May last, *in a single article alone*, over thirty millions; of which, a million and a half have been exported during the present week. It is true that the article alluded to is one, which old fashioned people like to keep at home. The export of gold used to be considered, we believe, no very desirable result. But our modern financiers, especially treasury clerks and Tariff fabricators, appear to think the contrary: for we are now reaping the fruits of their pet measures, in this excessive exportation of gold. Meantime we hear nothing of the export of wheat; which, according to Walker, was to go forward in such immense quantities. The English, it seems, are too old fashioned in their notions to take corn when they can get gold; what wheat they want they buy in the Baltic, paying for it perhaps, with the very dollars extract from us. We felicitate our citizens, especially those who sustained the Secretary's tariff, on the brilliant results it has produced. If we are doing rather a poor business in the exportation of wheat, we are operating magnificently in that way with California gold. Let us be properly grateful. Hurrah for "the good times" of the Tariff of '46! Won't somebody, the agriculturists for example, get up a service of plate to Warlker, for the coin he has brought into the country, to pay for the late immense exportation of American wheat?

FOREIGN VARIETIES.

Dreadful Loss of Life in Russia.—A letter from Moscow states that on the 20th, as the monks of the convent of Wladimir, a town about 120 miles to the northeast of that city, were setting out in procession, to visit an image of the virgin at a neighboring village, a wooden bridge thrown over the moat of the convent (formerly a fortress) gave away, and out of 200 of the monks 158 were drowned. This immense loss of life was caused by the water being 45 feet deep, and the sides of the moat being perpendicular.

Duty and Work.—I have found a good in everything I have learned. By degrees your destiny will open before you. You will learn what you are made for. I can say nothing more definite, and this is definite enough, and full of animation; do your duty, and you cannot fail to fit yourself for an honorable work.—*Dr. Channing.*

Letters.—A parliamentary return, gives the total and estimated number of letters delivered in the United Kingdom in 1850 at a little over 347 millions. In 1839, previous to penny postage, the total was not more than 82 millions, or less than one fourth of the present amount. In 1839 the gross revenue arising from the Post Office was 2,470,763*l.* and the net revenue was 1,689,486*l.*; in 1850 the gross revenue was 2,264,784*l.*, and the net revenue 694,374*l.*; so that although the profits of the postal service have fallen off so largely, in consequence of the reduction of charge, still the actual receipts have nearly attained their former level.

Dr. M'Hale, the Roman Catholic archbishop, has caused his titles to be changed in the National Bank of Tuam from that of archbishop of that see to the Most Rev. Dr. M'Hale, in consequence of provisions of the Ecclesiastical Titles Assumption Act.

At Smyrna a party of brigands had recently carried off Mr. Van Zennep, the Dutch Consul, whilst he was walking with his children in the garden of his country residence, about four miles from the city. He was forced to accompany these brigands to the mountains, and was there detained until their demand for 50,000 piastres (416*l.* sterling) had been paid as a ransom for his liberation.

Moral Reflection on France.—We see that the lotteries are tolerated again in France—but the greatest lottery of all is decidedly the Government itself. We are afraid this is a lottery that is full of so many turns and strange revolutions that it will take years to alter it, much less suppress it. Every statesman plays at it in the hope of gaining the grand prize. For instance, who can tell what may turn up next year? In the meantime, Louis Napoleon is buying up as many tickets in the grand lottery as he can.—*Punch.*

A few days back, in a printing-office in Vienna a Hamburgh compositor refused to set the types of a manuscript, because he found it utterly impossible to decypher it. The factotum complained against him to the director, the latter denounced him to the military authorities, he was forthwith arrested, and after one month's investigation sent for one week in chains to the blockhouse, for being a blockhead.

The Rival Fathers.—A little boy having asked his intelligent papa what was the difference between the Papal hierarchy and the Episcopal bench, the parent replied, 'Now that the Ecclesiastical Titles has passed, my little dear, our bishops are the right reverend and the Pope's are the wrong reverend fathers.—*Punch.*

Several presumed agents of the revolutionary propaganda in Paris have been arrested in various parts of Germany.

A Paris journal says that in consequence of the numerous suicides which have taken place in the army of Paris, General Magnan, the commander-in-chief, has addressed to the troops a feeling exhortation against this sinful and cowardly proceeding, and quoted the language of the Emperor in reprobation of it.

The Guardian says there if a well founded rumor that the Synod of Exeter is to be followed immediately by a similar pronunciation on the part of the diocese of Chichester; while other reports not yet perhaps clothed with so tangible a form, but still bearing every mark of probability, indicate the cathedral cities of Wells and Oxford as likely to follow in the same path in the course of the present autumn.

During the recent eclipse of the sun, Jupiter, Venus and Mars were distinctly seen at Konigsburg, where the eclipse was total, with the naked eye. The observatory of that town was covered with astronomers from the leading capitals of Europe.

During a recent political trial at Nuremburg one of the witnesses declined being sworn, on the ground that, as solemn oaths had been violated of late years by various governments, all oaths had lost their sacred character. The witness was ordered by the judge to "stand down."

A contract for the proposed submarine telegraph between England and Farnce has been taken by Mr. T. Crampton; and the works which are to consist of four lines of wire, are to be finished by the 30th September. The wire is to be insulated by gutta percha, and already a considerable portion, it is said, has been completed and subjected to the requisite proofs.

The Architect says the High Dutch Railway Congress will be held this year at Nuremburg. Forty-six delegates of railway companies have been named.

The College of St. James.

WASHINGTON COUNTY, MARYLAND.

(The Diocesan College of the Protestant Episcopal Church.)

THE TENTH ANNUAL SESSION will open on MONDAY, October 6th, 1851, and continue until the next "commencement day," the last Thursday in July, 1852. New students are recommended to enter at the opening of the session, but are received at any time they apply, and the charge is estimated from the date of their entrance.

THE COLLEGE has the usual number of classes, affords all the opportunities for a complete education, and at the successful termination of the collegiate course, confers on its graduates the usual academical degrees.

THE GRAMMAR SCHOOL, immediately adjoining the College, and under the supervision of the Rector, but under distinct discipline, receives lads at the beginning of their academical course, and the oversight and direction of the Professors of the College secure special advantages to the pupils in the Grammar School.

In the MERCANTILE CLASSES, the study of Greek is omitted, and its place supplied by additional studies in Modern Languages, Book-keeping, &c.

The situation of the College is entirely healthful, and by its distance from towns and villages, very favorable to good morals and order.

KEMP HALL, a new building, 90 feet by 40, will be ready for occupation in the course of the coming session. In addition to the former corps of Professors, the Trustees have recently appointed Hugh Davey Evans, LL. D., Lecturer on Civil and Ecclesiastical Law, and John H. Alexander, LL. D., Lecturer on Physics and Chemistry.

The whole charge for the session of ten months (the sum) in the College and Grammar School) is two hundred and twenty-five dollars, payable semi-annually in advance.

Applications for admission to be made to
REV. JOHN B. KERFOOT, D. D., Rector,

Ship MARY PLEASANTS, R. R. Decons, Master.
" SHENANDOAH, Wm. P. Gardiner, Master.
" EUROPE, Nathaniel C. Harris, Master.
" BERLIN, Alfred F. Smith, Master.
" SHACKAMAXON, (new,) W. W. West, Master.

The above ships are built of the best and most costly materials, and are noted for the rapidity of their passages; they are fitted up with all latest improvements, are most thoroughly ventilated, and are unsurpassed for their accommodations for *Second Cabin and Steerage Passengers*; they are commanded by men of acknowledged talent, who are unequalled for their experience in the packet service.

Persons desirous of bringing their friends from the Old Country can obtain certificates of passage, which will be good for eight months, and our agents in Ireland and Liverpool will furnish them with the proper information and instructions relative to their departure.

For the convenience of passengers wishing to send money, we supply drafts for £1 sterling and upward, payable at sight without discount, which will be cashed by any of the Banks or Post Offices in the United Kingdom.

Provisions supplied passengers coming from Liverpool.

Every week the following supplies will be furnished each passenger of 12 years of age and over: 2½ lbs. bread, 2 lbs. rice, 2 oz. tea, 5 lbs. oatmeal, ½ lb. sugar, 1 lb. flour, ½ lb. molasses, and 1 lb. pork. Under 12 years of age, 6 lbs. breadstuffs, 1 lb. pork, full allowance of water and vinegar, and half allowance of tea, sugar and molasses.

First corner from Broadway. Factory 24th East 24th st.

THE SUBSCRIBER, Proprietor of this establishment, would inform his old customers, and merchants generally, that he is daily receiving from his factory an unusually large and excellent stock of India Rubber Goods manufactured expressly for the Fall Trade, and which, from having introduced several new and important improvements in his machinery and composition, he feels confident cannot fail giving perfect satisfaction.

Special attention continues to be paid to the manufacture of figured and plain CARRIAGE CLOTH, of all widths from 3-4 to 6-4 inclusive. The drills are carefully selected from the best brands, and spread with the finest gum, which finishes equal to patent leather. He also manufactures the ENAMELLED Cloth, a highly important improvement recently discovered, by which the cloth is made to bear an exact resemblance to enameled leather. The plain finish made and sold as usual. Orders should specify the variety desired.

To the Public.

INDIA RUBBER SHOES.—Our attention has been called to an advertisement by Horace H. Day, published in the New York Herald of 11th July, 1851, and in the Courier and Enquirer of same date, in which, after much unmerited abuse of our attorney, Wm. Judson, Esq., he asserts that we dare not charge him with pirating Goodyear's Patent in the manufacturing of shoes.

We have purchased our licenses for the manufacture of India Rubber Shoes under Goodyear's Patent, and paid our money, and are daily paying a tariff for the same and any other person might have done the same, if disposed to do so, rather than pirate upon Goodyear's Patents. We think it more just to purchase a right, to use a valid patent, than to infringe it. Mr. Day having been prosecuted, agreed in future not to infringe his patents. He is now attempting, not only to infringe said patent, but to cover up his unlawful acts, by assertions that we, who have purchased our licenses and now hold them, dare not charge Mr. Day directly, and in plain terms with having been pirating upon Goodyear's Patents in the manufacture of the shoes which he is selling to the public, and we give notice that he and all vending or selling his shoes against our Rights, will be prosecuted.

Professor Alex. C. Barry's Tricopherous,

OR MEDICATED COMPOUND, for restoring, preserving and beautifying the hair, eradicating scurf and dandruff, and curing diseases of the skin, glands and muscles, stings, cuts, bruises, sprains, etc. It has been ascertained by experiment, that Barry's Tricopherous has produced the same effect in curing diseases of the skin, etc of the horse and all the animal kingdom. The following testimonials, selected from hundreds of similar import, will serve to show the value of the preparation, and the estimation in which it is held by those who have given it a trial.

NEW YORK, Sept. 22, 1850.

PROF. BARRY—Dear sir—I have been afflicted with a cutaneous eruption of the scalp, of a most aggravated character, for the last sixteen years, and during that period have had the advice of some of the most eminent physicians, and have tried all the preparations for the hair and skin now known, without the least benefit. I was advised by a friend to try your Tricopherous. I did so, as a last resort, and, to my surprise and gratification, found myself cured in about two months. Such was the violence of the disorder that at times I was partially blind.

Respectfully, yours, G V M RAPELYE,
140 Columbia street, Brooklyn.

NEW YORK, Oct. 23, 1850.

PROF. BARRY—My Dear Sir—About two years ago my hair came out a great deal, and my head was much afflicted with dandruff. I was told by a friend to try your Tricopherous, and I did so, and to my astonishment, my hair was firmly rooted, and all the dandruff disappeared, as the head now shows for itself.

With respect, I am your obed't serv't,
J S TREADWELL, 683 Broadway.

If any lady or gentleman doubts the authenticity of the above, they will please call at Professor A C Barry's office, 137 Broadway, New York, where he will produce the original letters.

(From the Military and Naval Argus, Nov. 2, 1850.)

There is no remedy for the permanent cure of baldness and diseases of the cranium generally, that has reached the popularity enjoyed by the article known as Professor Barry's Tricopherous, or Medicated Compound. It is extensively used by the upper classes of the community; in almost every nursery in the land it is used in preference to other articles of the kind. It imparts vigor to the roots of the hair, and thus promotes its growth to a remarkable degree. It destroys the dandruff and scurf, and makes the hair fine and glossy. It will cure all diseases of the scalp, such as scald head, dew worm, and other obnoxious disorders of the skin; in cheapness as well as efficacy, it stands unrivalled. It is sold in large bottles, price 25 cents, at No. 37 Broadway, and at the Druggists generally, throughout the United States and Canada. app29:tf

Private Residence for Sale.

THE PROPERTY is offered exceedingly low, and on very accommodating terms. It is most eligibly located in the rapidly improving City of Allegheny. The situation is unsurpassed in the country: commanding a most pleasing view of the city of Pittsburgh and three rivers at a glance; besides being convenient to the business part of Pittsburgh, combining to an eminent degree the advantages of both town and country. The lot is large, embracing near an acre of ground, is one hundred and fifty feet front, running back two hundred and fifty feet to an alley. The improvements are new; the house brick, built in modern style, of the best material, and finished in the best manner, having every convenience that good taste and skill could suggest, with due regard to economy. There is a well of excellent water at the door, and pipes laid for hydrant water. Carriage house and stabling, a variety of choice fruit and shrubbery. In short, its situation and advantages can only be appreciated by an examination of the premises. Gentlemen wishing to purchase are invited to call on the undersigned, who will take pleasure in giving every information. It is a rare chance for securing a delightful residence, or to purchase on speculation.

Also—100 TOWN LOTS, between the present business part of the village and the Depot at Salem.

All of which will be sold at easy terms for the purchaser. Stock in the Ohio and Pennsylvania Railroad, or in either of the Banks in Pittsburgh, will be taken in payment.

I also wish to donate a piece of ground, adjoining the Depot ground, to a competent man or company, to erect a first class Hotel upon, on which a fountain can be had to supply the house and stables with water.

Salem is the central point between the cities of Pittsburgh and Cleveland; also, between Pittsburgh and Wooster; and the benefit to be derived from the Plank Roads now being constructed to and from Salem, makes it one of the most important points on the line of railroad for a first class Hotel.

MISCELLANEOUS.

AYER'S CHERRY PECTORAL.

FOR THE CURE OF

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, CONSUMPTION.

AMONG the numerous discoveries Science has made in this generation to facilitate the business of life, increase its enjoyment, and even prolong the term of human existence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this vast country, has proven beyond a doubt that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a remedy has at length been found which can be relied on to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we present the following opinions of eminent men, and refer further enquiry to the circular, which the agents below named will always be pleased to furnish free, wherein are full particulars, and indisputable proof of these facts.

From the President of Amherst College, the celebrated PROFESSOR HITCHCOCK.

"James C. Ayer—Sir: I have used your Cherry Pectoral in my own case of deep-seated Bronchitis, and am satisfied from its chemical constitution that it is an admirable compound for the relief of laryngeal and bronchial difficulties. If my opinion as to its superior character can be of any service, you are at liberty to use it as you think proper.
EDWARD HITCHCOCK, L. L. D."

From the widely celebrated PROFESSOR SILLIMAN, M. D., L. L. D., Professor of Chemistry, Mineralogy, &c., Yale College, Member of the Lit. Hist. Med. Phil. and Scientific Societies of America and Europe.

"I deem the Cherry Pectoral an admirable composition from some of the best articles in the Materia Medica, and a very effective remedy for the class of diseases it is intended to cure." New Haven, Ct., Nov. 1, 1849.

MAJOR PATTISON, President of the S. C. Senate, states that he has used the Cherry Pectoral with wonderful success, to cure an inflammation of the lungs.

From one of the first Physicians in Maine.

SACO, ME., April 26, 1849.

"Dr. J. C. Ayer, Lowell—Dear Sir: I am now constantly using your Cherry Pectoral in my practice, and prefer it to any other medicine for pulmonary complaints. From observation of many severe cases, I am convinced it will cure coughs, colds, and diseases of the lungs, that have put to defiance all other remedies. I invariably recommend its use in cases of consumption, and consider it much the best remedy known for that disease.
Respectfully yours, I. S. CUSHMAN, M. D."

Judd's Medicated Liquid Cuticle.

THIS ARTICLE is intended for family use, and should be found in the possession of every family in the land. Mechanics who are in constant danger of injury to their persons through accident, and the improper or careless use of tools, will find this article to be invaluable to them, and after a fair trial will consider it indispensable.

This may certify that we, the undersigned, having frequently made use of Judd's Medicated Liquid Cuticle, prepared by Messrs. Penfield & Camp, Middletown, Conn., cheerfully recommend it to our professional brethren, as an excellent substitute for adhesive plaster, in dressing burns, cuts, scalds, bruises, and all kindred fresh wounds, also, for Sore Nipples, a remedy unequalled.

THE GREAT KENTUCKY REMEDY!

DR. JOHN BULL'S SARSAPARILLA

IT IS put up in quart bottles, and contains the strength of six times as much pure Sarsaparilla as any similar preparation now extant. Price one dollar per bottle, or six bottles for five dollars.

It has been a well established fact for years past, that Sarsaparilla, when pure and properly prepared, was the only true panacea for all diseases originating from an impure state of the blood, the use of Mercury, intoxicating drinks, evil habits in youth, barrenness, &c. We boldly assert that JOHN BULL'S EXTRACT OF SARSAPARILLA is the only preparation before the public that is prepared on strictly scientific principles and of uniform strength. The Sarsaparilla is bought without regard to price, and every pound, before being used, is subject to the strictest chemical test, and its genuineness ascertained before being used.

Bull's Sarsaparilla also contains the virtues of several other valuable agents, together forming the best compound, and producing the greatest curative agent in the known world!

WILL CURE WITHOUT FAIL!

Scrofula or King's Evil, Cancers, Tumors, Eruptions of the Skin, Erysipelas, Chronic Sore Eyes, Ringworm or Tetters, Scald Head, Rheumatism, Pains in the Bones or Joints, Old Sores, Ulcers, Swelling of the Glands, Syphilis, Dyspepsia, Salt Diseases of the Kidneys, Loss of Appetite, diseases arising from the use of Mercury, Pain in the Side and Shoulders, General Debility, Dropsy, Lumbago, Jaundice, Costiveness, Sore Throat, Bronchitis, Coughs, Colds, Weakness of the Chest, Pulmonary Affections, and all other diseases tending to produce CONSUMPTION;

Liver Complaint, Female Irregularities and Complaints, Sick and Nervous Headache, Low Spirits, Night Sweats, Exposure, Imprudence in Life, Chronic Constitutional Diseases, and is a spring and summer drink, and general tonic for the system, and a gentle and pleasant purgative, far superior to Blue Lick or Congress water, salts, or Seidlitz.

TESTIMONIALS.

The following is the verbatim copy of certificate now in the possession of the proprietor of Bull's Sarsaparilla—Rev. E. W. Sehon is generally and well known as one of the leading members of the M. E. Church, and Rev. E. Stevenson has been known as one of the most talented and zealous members that the Kentucky Conference could boast of for many years, and at this time is filling the responsible station of agent for the M. E. Book Concern. Can the world produce better, or more satisfactory testimony than this in favor of any medicine? *Better Testimony than was Ever Offered in Favor of Any Medicine.*

REV. E. W. SEHON—REV. E. STEVENSON.

LOUISVILLE, May 20, 1850.

We have used John Bull's Sarsaparilla, and have known it to be used, with entire satisfaction; and we have no hesitation in stating that we believe it to be a safe and valuable medical compound, and calculated to produce much good and relieve much suffering; and would therefore cheerfully and most earnestly recommend it to the afflicted. (Signed) E. W. SEHON,
E. STEVENSON.

A BEAUTIFUL CLEAR SKIN.

How we all admire a clear beautiful white skin, and a rosy colored cheek. How often do we see persons, not possessing this "desideratum so devoutly to be wished," resorting to cosmetics, lotions, washes, paints, and coloring materials, to restore to them a semblance of what disease has deprived them of, and that too, with great injury to the skin. Bull's Sarsaparilla is the best cosmetic known. It beautifies the skin by removing every particle of morbid and diseased matter from the blood, making it pure, healthy and vigorous, giving activity to every muscle, vessel, and removing the yellow and dark countenance to the bloom and freshness of youth. Ladies abandon the use of paints and mixtures, and use Bull's Sarsaparilla, the only effectual remedy. "A word to the wise is sufficient" and a hint is enough to the ladies.

Testimony Like the Following, Renders Superfluous all Comment on the Efficiency of Bull's Sarsaparilla.

From Dr. L. P. Vandell, Professor of Chemistry in the Louisville Medical College.

"I have looked over the list of ingredients composing John Bull's Compound Extract of Sarsaparilla, and have no hesitation in saying that they form a safe compound, and one that promises well in chronic diseases, to which it is applicable. L. P. VANDELL, M. D.

Louisville, June 6, 1848.

Read Dr. PYLES, Physician by appointment to the Louisville Marine Hospital, says of BULL'S SARSAPARILLA.

LOUISVILLE, March 30, 1849.

I have examined the prescription for the preparation of John Bull's Sarsaparilla, and I believe the combination to be an excellent one, and well calculated to produce an alterative impression on the system. I have used it both in public and private practice, and think it the best article of Sarsaparilla in use. M. PYLES, M. D.,

Resident Physician at the Louisville Marine Hospital.

IN QUART BOTTLES.

FOR PURIFYING THE BLOOD—the best Female Medicine known. Incipient Consumption, Barrenness, Leucorrhœa or Whites, Irregular Menstruation, Incontinence of Urine, General Prostration of the System, Depressed Spirits, and Gloomy State of Mind, are cured by *Dr. Guysott's Extract of Yellow Dock and Sarsaparilla*, which gives immediate relief by renewing the fountain of health and strength, the blood. It neutralizes bad humors, stops unnatural secretions, and gives healthy action to all the vital powers.

Its mild alterative properties render it peculiarly applicable to the slender and delicate constitution of the female, it immediately counteracts that distressing nervousness and lassitude so common to the female frame, and imparts an energy and buoyancy as surprising as they are grateful. We have evidence on file which induces us strongly to recommend this medicine to married people who have not been blessed with offspring.

Prolapsis Uteri, or Falling of the Womb, of five years standing, cured by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla, after every other known remedy had been tried without relief:

WASHINGTON, O., Feb. 15, 1849.

This certifies that my wife, aged 27 years, has suffered under the above complaint for five years, pretty all that time confined to her bed. I have for four years constantly employed the best medical talent that could be procured in this section of the country, without any benefit whatever. I have also purchased every instrument recommended for the cure of such disease, all of which proved worthless. In the spring of 1848, I was induced by my friends to try Dr. Guysott's Yellow Dock and Sarsaparilla, which was used four months. Before she had used it for about four weeks, it was evident to all of us that she was improving, and from this time she improved rapidly, and gained flesh and strength, until she is now enjoying most excellent health. WM. MONFORT.

We, being neighbors to Wm. and Julia Monfort, know that the above statements, as to the sickness of Mrs. Monfort, and as to the cure being effected by Guysott's Yellow Dock and Sarsaparilla, are strictly true.

JANE EDDY,
SARAH POWERS.

King's Evil—Case of O. M. Leonard.

BLOOMING GROVE, Dec. 1, 1849.

Messrs. S. F. Bennett & Co.—Gents: Some time in 1843 I was attacked with King's Evil in my arm, which became so, so I could not use it, and in 1845 mortification set in. I employed, at different times, each physician of celebrity within my reach; all told me my arm must be amputated. From the shoulder to the forearm was full of running sores. My strength at this time was completely exhausted, and my person much emaciated. I continued in this state until 1848, when I saw an advertisement (Guysott's Yellow Dock and Sarsaparilla) which I read, and sent for a bottle of the article. Guysott's Yellow Dock and Sarsaparilla cured me; I took no other remedy while using it; and felt myself perfectly well before using the sixth bottle. Had I used it at the first appearance of the malady, I am sure it would have saved me from years of pain and suffering. I most earnestly recommend every person suffering under any similar disease, to use Guysott's Yellow Dock and Sarsaparilla, which will restore them to health.

Yours, in gratitude, O. M. LEONARD.

Cure of an aggravated case of Erysipelas.

The cures performed by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla, are lasting. The patient's general health continues to improve after disease is removed. Cures are not chronicled until time has fully tested that there can be no relapse or return of the disease.

NORWAY, Herkimer co., February, 1850.

S. F. Bennett & Co.—Gents: It is with great pleasure that I write you about the very happy effects of your Yellow Dock and Sarsaparilla upon my son, who has long been suffering under that dreadful and loathsome disease, Erysipelas, with which he was attacked in 1848, and was for several months attended by some of our best physicians, who tried their skill perseveringly for two months, without any beneficial results whatever. He became reduced to a perfect skeleton. He had ulcers from his hip to his knee, which were continually discharging disgustingly offensive matter. Medical and surgical skill was baffled. Physicians said that his case was hopeless; there could be nothing done to arrest those terrible cancerous ulcers. My neighbors and myself thought his dissolution near at hand. One of my neighbors (who had cured a child of Scrofula with your invaluable medicine) wished me to make trial of it; and, more from the restless desire to do something while life lasted, than from any hope of getting relief, I procured three bottles of your Yellow Dock and Sarsaparilla, and commenced using it; and to my astonishment he began to improve before he had used the third bottle; and before he had used a half dozen bottles, he could walk out. He used in all twelve bottles during the year 1849, and by October last he was perfectly restored. Every vestige of the disease, except the scars, is removed, and he remains in perfect health at the present time. His recovery, under the blessing of God, is entirely owing to the use of your Yellow Dock and Sarsaparilla, and I assure you that I feel myself under great obligations to you, and it is with great joy that I inform you of what your Sarsaparilla has done for my son. Respectfully,
JAMES RUSSELL.

Beyers' Piano Preceptor.

H. KLEBER has just received Beyers' celebrated preceptor for the Piano, which is acknowledged by professional men in this country and in Europe, to be the best work of the kind ever published. Beyer, well known as one of the most successful composers for beginners and pupils, has here supplied a want long felt, by a book, progressive and interesting to the pupil, both in its exercises and tunes, thus greatly facilitating and smoothing the somewhat tedious and irksome first study of music and piano playing. The following Professors who have examined the work, are referred to: Professors Harborat, Landmann, Feins, Noth. je1
