Kossuth reminds us of but two great men now passed away. Napoleon Bon-sparte and Peter the Hermit. The former he resembles, in his magnificent genius for thand-ling the tools.' by which mighty movements are started, controlled and directed; the latter, in his eloquence, in his power of kindling enthu-sign for an abstract principle, in his present powerly, and peculiar mission among the free maths spoken since the Crossider, we were as un prepared to receive his doctrine, as Europe was to march to the Holy Land, when Peter deliver-ed his first harangore. But he has kindled such a fame for liberty and international fair play that the people are already with him. Another

lent. S. W. ROBERTS, Esq., ordered a train of three locomotives to be made up. One of Norris' engines, with enow scrapers, was sent shead, and the train was drawn by a Baldwin engine, and one of the powerful Boston engines. The train left at eight o'clock, A. M., and reached Rochester in two hours and a half, and Alliance in eight hours, arriving there at four o'clock, P. M., thus making ten miles an

They found the up train to Cleveland gone, and the passengers were consequently obliged to stay at Alliance all night. The down train from Cleveland, due at 2 o'clock, did not arrive until between eight and nine o'clock, having made only about five miles an hour, owing to the drifted snow. Taking aboard the passengers, some sixty persons, the frain left at nine o'clock on its return, and reached here at 4 o'clock, on Tuesday morning. It was accessary, at some places, to get out and shovel away the snow, and scrape the track, before the train ild advance. The cold was so intense, that the men on the engines had long leicles attached to their, hair, and were covered with frost, and the engines were encased with ice. Mr. Rosunts accompanied the train during the trip, and it was greatly owing to his unfincting per-severance that the connection with Cleveland was kept up. The train left yesterday morning at its regular hour, with two engines, and will doubtless make its trip. After this specimen of perseverance, the

travelling public may implicitly depend on the certainty of the trips on the Ohio and Pennsylcertainty o vania Bailroad, any it is not probable that we shall soon again have such severe weather as more infamous than the plot this letter disclo-for the past few days, which is unexampled in ass, whisher we regard the object aimed at, or the history of this region for the last twenty the means proposed for its attainment.
