American, lator. They are now in a poweries-minority, and must therefore yield to the necces-sitions of such a condition. So far as I have been able to nicertain the feeling and disposition of the Whigs in Congress, they are willing at any moment to remove the tariff from the arean of party, and to accept any reasonable condi-tions that may be offered, allowing the Demo-crats all the oredit and political advantage that can be derived from the adoption of such a mea-nure:

With a view of ascertaining and testing the inclination of the Democrats in Pennsylvania, who now hold the ascendency in the State Gov-Who how fold the ascendency in the State Gov-eramont, Mr. James propuest to consult, per-sonally, some of the leading men at Harrieburg. Thus far Colonel Bigter, though owing his elec-tion to assurances given to the mining and man-ufacturing districts of a modification of the sot of 1846, has occupied a negative position, and refused to show his hand directly. "The time has now arrived when he inst ups to the or when his party in the Legislature must sustair or repudiate their Governor. In order to conciliate Western influence, Mr. James may consider it expedient to make some con-cessions for the manufactured iron to be import-ed for raironade in the new States Although cessions for the manufacture in the set of for railroads in the new States Although this plan is not such as our local interests might chim, still it is to be considered that we stand in the relation of beggars and no tchoos-

Some of our city papers having published and it will reach you by mail in time for Monday's article from the Concinnati Commircial, paper. The opinion alloded to below will be ing to give a description of a parting interview delivered on Monday, when the Court will alap lossuth and the Cincinnati Committee; calculated to do injury to the elequent Maygur, , it is only an act of justice to give the following correction of the slander, from the Cincinnati Gazette, of the 28th alt. KOSBUTH AND THE CINCINNATI COMMIT-

AGSBUTH AND THE CINCINNART. COMMIT-THE FALSE REPORTS. As there have been widely circulated many remors and newspaper stituments regarding the faal interviews between the Cincinnal Commit-tee and Kossath, which are grosely incorrect, and do great lojustice to the partice inmediate-ly concerned, we have made diligent Inquiry too arrive at the truth of the whole matter, and will now states in regard to it what we have received from the most reliable authority. At the meeting of the Committee at the Bur-

now state in regard to it what we'have received from the most reliable actionity i At the meeting of the Committee at the Bur-net Honse on Thursday mornlag. M. Kosaub expressed, in a mild and inoffensive manner, his regrets that so little material aid had been rais-ed in this eigh for the Hangarian cause. On his arrival, and throughout his whole stay in this city, the Committee had assured bin that they would raise \$25,000 for his cause! I he would al-low them to manage the affairs in their own way to which he assented, of course. Up as the time of his departure he had sources within the juity-This was indeed a decided faltare, viewed in con-nection with the expectations and promises of

over \$7,000 from all sources within inquery-This was indeed a decided failure, viewed in con-baction with the expectations and promises of the Committee, and to the Magyar must have the Committee, and to the Magyar must have been a deep and discouraging disappointmant. It was very nataral that he should fiel called upon to remind the Committee, after having whit-eo upon them for fifteen days, and when about to take his final leave, that their large promises, and small returns had caused him a great waite, of preclows time. That he did do this we are as eured, but, as has been stated, without any such remarkable display of passion as has been attrib-nted to him by a city paper. The Committee assured him that they work, equally with him, disappointed in the amount of material aid, re-alized, but that they would endevor to materi-ally increase it by continued efforts, and would "four it b him the result of their fature labors, whatever it might be. We understand that the marking between Ecosseth said the members of parting between Kossuh and the members of the Committee was mutually cordial and friend

the Committee was mutuany consumptions Two of the Committee accompanied their whilom guest to the bost. Upon one of them asking him whether it would be agreeable to him it to be formally "deligered over" to the Indiana Committees, he seer blandly replied that he pro-forred to be delivered to himself...from which we infer that he simply considered the proposed formality unbecessary and "the observance." We are asserted that no ill fedling, whatever was mainfeded, and that none existed between Kneshill and those members of the Committee

Romits and those members of the Committee who strended him to the boat; but that, on the contrary, they parted in the most condisi (riend-ship and with many mutual regrets for the ne-

cessity for their separation. We make this statement merely to subserv the cause of Truth and Justice in a matter i which the community have the liveliest current

ward that state of political extinction from which the power of the North alone withholds it.

The wrangle between Senators Rhett and Clemens was resumed this morning. The publie appetite for personal contention was so whetted by the flood of bitter epithets poured out yesterday by both parties, that the Scuate goly leries were filled by speciators of both seres

before the Senate assembled. At the conclusion of Mr. Rhett's remarks yesterday, ho faily denied Mr. Clemens' as-sertion, that Mr. Calhoun died in the faith that no State had a right to secode, and defied him to produce his authority. He proved from Cal-

houn's book that he was a secessionist. That book, howsver, has been published since its reputed author's desth, and no man hot in the so

orats of its complication; can say what part of it Mr. Galkoun wrote, and what part of it others
