HOME MATTERS.

MR. DEMPSTER.—The concert of Mr. Dempster, last night, was attended by a large and fashionable audience, and we were pleased to observe that they were highly delighted with the vocal powers and refined musical taste of that distinguished performer. His ballads were sung in a simple and unaffected manner, which could not but please all, while his selection, embracing as it did—John Anderson, my Jo; The Irish Emigrant's Lament; The Maid of Dee; A Man's a Man for a' that; The May Queen, and other charming songs, was such as is rarely equalled, and never excelled.

We have the gratification of announcing that Mr. D. will give another concert, in Lafayette Hall, this evening, with an entire change of programme.

BEAUTIFUL PIANO.—We were yesterday shown a very beautiful rosewood Piano Forte, brought to this city from the celebrated manufactory of Messrs. Nunns & Clarke, by Mr. Henry Kleber, which is designed, by John Simonds, Esq., of St. Louis, as a present to the magnificent steamer bearing his name, which was lately completed at our wharf. Its carving and finish are of the most elaborate description, while the tone is very powerful and yet sweet. We have never seen a more beautiful instrument, and have no doubt that many a merry party on the mighty Mississippi will hereafter join in the jocund dance to its pleasing tones.

FIREMENS ASSOCIATION.—At the regular quarterly meeting of the Fremen's Association, held last night at Neptune Hall, the following persons were elected to fill their respect offices during the ensuing year: President, R Biddle Robert; Secretary, Adams Getty; Treasurer, C. H. Paulson; Chief Engineer, Joseph Kaye; 2d do., Henry Chignell; 3d do., Saml. A. Jordan. An appropriation of $100 was voted to the Relief Fire Company, of Chillicothe, (who suffered much by the recent great fire) by a vote of ayes 14, nays 7. The Association is in a healthy condition.

A MODEL WIFE.—Godfrey Fox yesterday morning lodged an information against his wife, whom he accuses of having given him a sound thrashing on Thursday last, and then run off with his gold watch.

SHORT, BUT SWEET.—A brido of four days' standing, yesterday preferred an information before Alderman Steel, against George Belcher, her liege lord, whom she accuses of assault and battery.

SURETY OF THE PEACE.—Alderman Parkinson yesterday held John F. Hutchinson to bail, charged, on oath of Mrs. Mary Ann Squires, with using violent and abusing threats, which induced her to tremble for the security of her fair person.

COURT OF COMMON PLEAS.—The Court of Common Pleas met yesterday, but no business of importance was transacted.

Many of the members of the bar not answering when their causes were called up, his honor, Judge McClure, gave notice that he would, this morning, non-suit all who did not appear.

COUNCIL ROOMS.—The City Councils will hold their meeting in the Court House, until the erection of the new market house in the Diamond.

THE FIRE DEPARTMENT.—The Eagle, Vigilant, Duquesne, Niagara, and Allegheny Fire Engines, are reported to be in good order by the Committee of Conference and Inspection of the Firemen's Association. No reports were received from the Neptune, Relief, Good Intent, and Independence, though we believe they are all in service.

NUISANCE.—The water in the Canal near the council is stagnant, and as the weather becomes warmer will occasion serious inconvenience to those living in the neighborhood.

BITTEN.—A boy named McCarthy, who had been very severely bitten by a dog, lodged a complaint yesterday before the Mayor, against a gentleman whom he believed to be its owner. It was proved that he was mistaken, however, and the charge was withdrawn.

HELD TO BAIL.—A woman who keeps a small store in Penn street, was yesterday held to bail, charged, on oath of a little boy named Young, with defrauding him. He asserts that he gave her a ten dollar gold piece in payment for some small articles, while she maintains that it was only a cent.

EFFECTS OF INTOXICATION.—A man was found on Saturday night, lying on the road in the upper part of Allegheny city, with his leg broke. It is supposed that a wagon passed over it while he was in a state of intoxication. He was conveyed to the Mayor's Office, where a physician was called in, and his leg set.

ASSAULT WITH INTENT TO KILL.—Thos. Jackson, a desperado who resides in the Eighth Ward, entered the grocery store of Mr. Thomas Monahan, of Pipetown, on Saturday night, and snapped a pistol at the proprietor several times, at the same time attacking him with a large butcher knife. Monahan defended himself with a club, and with difficulty kept his assailant off until a young man named Knox, who was passing, interfered, when Jackson turned his attention to him. The ruffian, after a desperate resistance, was arrested by watchman Snyder, who, with the assistance of officers Hessan and McKenna, at last bore him to the tombs. He was yesterday committed to prison to answer for the offence.

A HABEAS CORPUS.—Theobald Haller, administrator of an estate, who had not complied with the award of an auditor appointed to audit his account, was yesterday committed to prison by Judge Kennedy. He was brought out on a writ of habeas corpus, and discharged on entering bail for an appeal. S P. Ross, Esq., for the sestate, John N. McGlowry, Esq., for defendant.

PASSING AWAY.—A number of workmen commenced operations yesterday in the demolition of the Old Court House, and before noon, had levelled the belfry, so long the retreat of the feathered tribe and the terror of all passers by, with the dust. Our reporter will learn with pleasure, however, that before a single stick of timber or a brick was touched, a sketch of the building was taken by Messrs. Wegner, Buschmeyer & Mueller, which will be lithographed, so that we will at least have an excellent counterfeit presentment of an edifice dear to very Pittsburgher.

NEW BUILDINGS.—We observe that the foundations of the large buildings intended for the outer depot of the Central Railroad in Bayardstown have been already laid, and the workmen will proceed in their erection with all possible despatch.

NUISANCE.—The Mayor's police should turn their attention to the gang of young lads, who assemble every afternoon on the large vacant lot belonging to the estate of the late James Ross, near the Court House, and throw stones at each other and the passers by. The nuisance is of regular occurrence, and is loudly complained of by all residing in the neighborhood.

EAGLE ENGINE HOUSE.—The ruins of the Engine House of the Eagle Fire Company are being pulled down, preparatory to the erection of a fine new building.

DISTRICT COURT.—Causes for trial for the week commencing Monday, May 10th, 1852.

CONGRESSIONAL.

WASHINGTON, May 10

SENATE.—Mr. Mallory offered a resolution directing the committe on Foreign Relations to enquire into the expediency of providing for the payment of an indemnity to Spanish subjects in America, growing out of damage to their property, by outbreak in consequence of events attending the late Cuban expedition. He addressed the Senate in favor of the equity making such a provision. The resolution was adopted.

The Senate then took up the bill granting land to Florida and Alabama, in aid of the construction of a railroad from Pensacola Bay to Montgomery, Alabama. The bill was amended so as to agree with other similar bills.

Mr. Morton moved an additional section granting land for two other Railroads one from Pensacola Bay to Mobile Bay, and the other from the same point to Chathochee and Flint River in Georgia. Agreed to and ordered to be engrossed.

The bill granting land to Illinois and Indiana from opposite Louisville, Kentucky, to opposite St. Louis, Mo., was taken up and amended, and ordered to be engrossed.

The bill authorising Mississippi to sell lands appropriated for schools in that State was passed.

The bill granting land in Alabama for the Girard and Mobile Railroad, was passed.

The Deficiency Bill was then taken up. Mr. Wade opposed the amendment giving aid to the Collins line. During hisspeech, Mr. Wade said there was no noise and confusion in the Senate, as he desired to know from the Senator from Michigan whether he would vote for a like amount for the improvement of rivers and harbors in the West, and whether the West could depend upon his vote at this session, for such a bill.

Mr. Cass said his views upon this subject has been made known at the last session of Congress. He would vote for internal improvements with items examined and reported from the War department, provided the expenditures were not unreasonable. He was not for establishing a great system of internal improvements, but there were Rivers and Harbors for improvement for which he would vote.

Mr. Wade resumed and spoke of the wants of the West. He said that for one he would not vote another dollar for the interest of Commerce on the Atlantic unless some design was manifested to aid the Commerce of the West. Inland Commerce now was equal to Foreign Commerce. Nothing had been done for the West for sixteen years. Everything desired as the East for the advantage of commerce was freely given. Docks, Navy Yards, and such like were established on the Atlantic and Pacific Coasts, but not a dollar was given for the benefit of Inland Commerce. All kinds of enterprises for Foreign Commerce were readily given but nothing whatever could be given for the West. He opposed this amendment as unjust as creating a monopoly, and as building up one branch of navigation at the expense of all others.

Mr. Bayard followed in support of the amendment, after which the Senate adjourned.

HOUSE.—The House took up the Homestead bill. The pending amendment to strike out the provisions giving Homesteads free of cost, and inserting 25 cents an acre, was rejected.

The first section of the bill was finally suffered to remain exactly as it was when the bill was introduced, after repeated attempts to amend it, and is as follows; that every man or widow, the head of a family and citizen of the U. States shall; from and after the passage of this act, be entitled to enter free of cost a quarter section of vacant and unappropriated public lands, or a quantity equal thereto.

The six remaining sections of the bill were passed though with slight amendments. There are several subtitutes for the whole bill, however, yet pending.

The Committee here rose and the House passed the Senate resolution for the benefit of the Fayetteville and Central Plank Road Co.

The House then took up a resolution providing for a summer recess from the 15th to the 4th of June, which was amended on motion of Mr. Gaylor, that the recess be from the 13th to the 17th of May, Without passing the resolution the House adjourned.

IMPORTANT TELEGRAPH CASE.

INJUNCTION REFUSED

Against the Atlantic and Ohio Telegraph and the Pittsburgh, Cincinnati, and Louisville Co.

A bill in Chancery was filed in the Circuit Court of the United States for the eastern district of Pennsylvania, against James K. Moorhead, President of the Atlantic and Ohio Telegraph Co, and the Pittsburgh, Cincinnati, and Louisville Telegraph Co, and against other persons members of said companies, to restrain them from "using the Morse Telegraph Patent." Notice being given of a motion for an injunction, the case came off this morning in the Circuit Court at Philadelphia, before the Hon. Judge Kane.

The complainant complains that he was entitled to one-fourth of the stock and one-fourth of the dividends in the above lines, under what is generally known as the O'Reilly contract, and that having made an offer to settle with Mr. O'Reilly, on the 2d December, he had demanded the stock and dividends, which were refused by the Company. The complainant read his own affidavit, and also that of Henry O'Reilly in regard to the establishment of those lines and his settlement with Mr. O'Reilly as the part of the Telegraph business likely to be; come profitable, they combined to annul the contract and to extort from the subscribers one half instead of one-fourth of the stock for the use of the Patent, that for this purpose they refused to convey the patent right when the time was completed, and threatened the stockholders, and commenced vexatious suits, and afterwards established rival and competing lines with a view to break down the O'Reilly lines. Their proceedings were fraudulent and tended to their possessing the value of the subscribers' stock. And subsequently that a controversy having taken place between Amos Kendal and Smith, no arrangement could be made with either of them. He opposed this amendment as unjust as creating a monopoly, and as building up one branch of navigation at the expense of all others.

Mr. Bayard followed in support of the amendment, after which the Senate adjourned.
