more inflammatory, more incendiary, more cal-culated to incite the fugitive and his friends to resistance and blood, than any thing which they ever saw from the pen of Gov. Johnston; and yet it is but a short time since they charged home upon that gentleman the cuit of the blood of Gorsuch, because he stood erect and spake the Gorsuch, because he stood erect and spoke the words of a freeman, at a time when his assailants were crawling in the dust at the feet of those whom the Post now calls "slave breeders" and "blood hounds."

We are pleased when we hear that a poor

slave has escaped from bondage; on the same principle we are pleased at the escape of the Post from the shackles which have long confined it, and suppressed its manly and generous appressions. Both are fagitives from labor—one from hard work, the other from dirty work. We mhis for the one until we know that he is safe in Causda; but where shall the other find refegel how shall it escape from the party lash? Well, ict us hope on, for there are signs every-where that things are coming right. The days of slavery, bath of soul and hody, are number-

Mr. Gough's lecture last evening was exceedingly impressive, being principally directed to the

young.

This evening he will lecture at Dr. Pressly's church, Alleghens; on Monday evening at Dr. Rodgers' church: and on Tuesday he will deliver his farewell Lecture at the Masonic Hall. PHILIP CLINGBERMITH, Esq., a well knowa cit-

izen of Armstrong county, who resided near Leechburgh, died on the 6th last, after a ling-

few days to put the Halls in summer trim, to pay a visit to his family and constituents. We are pleased to see him looking so well. His health, which was very had during the earlier part of the session, is fully restored. He will return to Washington next week. Great numbers of the mambers have embraced the opportu-nity of the interval in the sessions to visit their

In looking, again, over John Forsythe's letter, discredits the story of the two ships seen in an ineberg, supposed to be Sir John Franklin's. He says it would require 80 or 40 years to place ships in a position like that spoken of—the top off an immensely thick ischerg. He sacribes the impression of Capt. Simpson to optical fillusion, or to a peculiar ice formation sometimes met with, and called by sailors "country pripe".

How. Thos. M. Hows, has embraced the opportunity of the adjournment of Congress for years faw days to put the Halls in summer trim, to

The speech of Mr. Benton in Missouri on
opening the converse for the congressional electies has made something of a semantion. "Old
