PITTSBURGH GAZETTE. We should not have reverted to these disagreeable matters, had our indignation not been aroused by the scandalous assault upon Gen. Scott by an administration pet, in an article call ing upon the Fillmore whigs to rally to the meet ing to be held at the Chinese Museum, in Philaselphis, this morning. THE "HEMPFIELD RAILEOAD.—The Board of Traide, on Monday night, held a meeting and adopted resolutions favorable to the Hempfield Railroad, recommending a cordial effort on the part of Philadelphia to increase the subscription, with a view to its early completion. The following proceedings are interesting:

Mr. Hand, from the Monthly Committee, reported the following, or the subject of the Hempfield Railroad:

The Committee of the month respectfully report; that they have had presented to their consideration the importance of the Hempfield connection with the Pennsylvania Ruilroad, and begt to about the following resolutions for the Ohio.

Resolved, That in this struggle it should be the policy of Philadelphia to pash forward a line reaching as her south on the Ohio river as the nature of the country and the legislation of Virnature of the country and the legislation of Virginia will permit, and thus apread her southern arms as far as practicable in the direction of Tennessee and Kentucky.

Resolved, That is not great importance that the Hempfuld Railroad should now be pressed topidly to completion, and that it is the duly of Philadelphia, if true to the promotion and preservation of her Western and Southwestern commercial advantages, to formlan without needless delay, the assistance that is nocessary to enable the Company to enter promptly upon the grading of the whole line of that road. Therefore the grading of the whote line of the recommend to the citizens and espitalists of Philadelphia generally, and to those engaged in commerce particularly, a cordial and vigorous effort lo increase the subscription to the stock of the Hempfield road, with a view to its early and prompt completion.

OLIVER FULER

discussed by Restriction of the stock of the completion of the stock of the Hempfield road, with a view to its early and prompt completion.

OLIVER FULER The report was read, and discussed by Messra On the Invitation of the Board, the Hon. T. M. T McKennan, President of the Hempfield Railroad, addressed the Board.
The Hempfield Road, Mr. McKennan said, is cannot reach Pittsburgh at all, but which without the Hempfeld Road, must inevitably go to Baltimore.

This brief paragraph contains Mr. McKennan's proposition, which he proceeded to discussed and sufficient to the summer to med ability. His argument is, that all the western trade abouth of the 40th parallel of latted, must go to Baltimore via Wheeling, unless the Hempfeld road is made. This is very good special pleading; but both the author of the resolutions and Mr. McKennan are very careful to keep cut of view the fact, that the Pittsburgh and Steubenville road, which is likely to be completed long before the Hempfeld, is much better calculated to arrest this dreaded result, than the project they are advocating. They appear to be well estimed with the Ohio and Pennsylvania road so far as the trade of northern and contral Ohio is concerned; but for the south western past, they can see no avenue but the Hempfeld. We simply refer them to the able report of Mil.

We simply refer them to the able report of Mil.

We simply refer them to the able report of Mil.

GOVERNOE BIGLER ARD THE COLUMENA Westimply refer them to the able report of Milnor Roberts, Eq., of the survey of the Stepbeaville road to estisfy Philadelphians, that thist
is the true route by which to reach and secure
the south western trade. By that report it will
be seen that the route through Pittsburgh and
Steubenville is the shortest and most direct line
between Philadelphia and Cincinnati that has
yet been proposed; and what is more, it will
thraw this trade upon the Pennsylvania road at
its western terminus, thus saving all the profit
which that road would make upon its transit
over 30 miles of road—the distance between
Pittsburgh and Greenaburgh.

It is all right that Mr. McKennan should press
his favorite project upon the Philadelphian; but;
it is, as we conceive, a very great error to suppose that that city can only, or even best, save
the south-western trade of Ohio by means of the
Hempfield road. This object can be better attained, and at a vasity smaller outlay of capital,
by means of the Steubenville road. Even thaproposed road from Steubenville to the mouth of
Beaver (where it would intersect the O. and P.
road) would draw away from the Hempfield road
the trade in question, because it would have an
immense advantage over it in eachieses of grade,
and also in curvature, although the distance
would be somewhat greater.

There is no doubt now but that the Steubenville road will be speedily pushed forward to
courselion; and whan that is done, what necesity will there be for the Hempfield road to
contribute to the Hempfaeld road or

BATURDAY MORNING, MAY 22, 1852

The Philadelphia Sun abuses Gen. Scott like a pick-poaket. We have seen nothing in the opposition papers at all equal to it. This same paper is nearly filled up with Government advice experiments. All the Philadelphia Wing papers enjoy the Government patrange, while Pittaburgh and Western Pennsylvania is abscimately proscribed by the Administration. We see long Government advertisements and the Philadelphia while his impressed me, and kindled up my. sympathies into "Unde Tom's Cabin." No one can hardest heart must feel, the dries eyes must weep, the most sealed up sympathies must burst open and food the soul both with sorrow and the sealing to the prevaing it, and not be overpowered, must have a soul which yots the Democratic ticket, while this noted and indemitable Whig district, and this city, one of the principal centres of population in the Union, is passed by as of no consequence. noted and indemitable Whig district, and this city, one of the principal centres of population in the Union, is passed by as of no consequence.

Our fidelity to Whig principles has been tried and never been found wanting, and in the day of accessity can always be relied upon; but because we cannot pronounce the Administration Shibboleth, and because we choose to be our own conscience keepers, and profess to underview of the Whig party, as well as those in power, we are placed under the ban of those who require a complete sacrifice of independence and servile obedience to central dictation. We should not have reversel to these the contral dictation. River.

The following is an extract of a letter from a highly respectable and able member of the Democratic corps, in Pennsylvania, addressed to a gentleman in New Lisbon. The writer is a perconal acquaintance of the seditor of the Patriot, and a gentleman with whom he has frequently exchanged political sentiments:

"If fear that Case will be nominated, in which case I shall oppose the old rascal to the utmost of my power. His nomination will be the signal for a division of our party. New York and all New England will rebel. If Gen. Scott is nominated by the Whigs, whoever may be our candidate, I think it is all up with us. He cannot be whipped, that's certain."
