THE ROMINATIONS AGAIN.

We pursue this theme again to day, because its immediate and pressing importance. We de aire the nomination of reputable and competen men, for the sake of the community in which w live, for the sake of the peace,, reputation and morals of the county at large, and for the welfare and reputation of the party to which we have all our life felt it an honor to be attached But we have a personal interest in the matte which is to us of very considerable moment We are expected, as the conductors of a news paper whose affinities are with the Whig party to support the ticket nominated, -- not merely by our voter, but by arguments, and the whole in fluence of our paper. We need a great deal of legislation, and we owe it to our own interests and self-tespect to send men to repre-sent us who shail do us credit.

Another office remains to be spoken of, that of Representative in Congress. Here we need the very highest qualifications, both of talen and acquirements. We want a high-toned, in tellectual, firm and active man-one who unde stands all the wants of the district, sympathise with the people in their pursuits and principle aud who has sufficint natural and acquired acisumente, to take his position as an equa among the great men of the land.
