ON EACH PAGE OF THIS PAPER.

The quarrei between Judge Lynch, of this city d J. Grand, the "Observer" of the PhilaJel phis Ledger, waxes warm. Lynch is for Bu anan, and Grund for Case. In his last letter i the Ledger, Grund charges that Lynch is a Jefaul ter to the Government for six thousand dellare Oh! the "barmonious" Democracy! They are us in one thing-entire and has subserviency to slavery.

The Fillmore papers assert that reliable tette from Kentucky say, that Gen. Scott cauno now carry that state, even should be now declar himself for the compromise This is for effec upon the National Convention, and is sheer in

ention, but it shows the desperate shifts which his enomies are driven. According to their own showing Gen. Scott has nothing to gain by coming on to the finality platform He would not come on to it if he had.

A REFORM IN OUR SYSTEM OF NOMINATIONS Our present system of nominations is attended with many evils, and loudly calls for reform I does not represent the mind of the people, where there are a large number of persons be nominated,, and only two delegates to he elected, the whole election frequently turns upon the struggle for one office, and all the others are left to chance, or to be traded by the par tixing of the office which excites the most inter est. The svil has been borne with long enough and it is yearly increasing. If it is not cor rected it-will distract and greatly injure th

We, therefore, in view of this state of affairs respectfully suggest to the Convention which is to meet to-morrow, the adoption of a resolution

somewhat like the following: Reaoleed. That the Chairman of this Conven-tion shall issue bis call for the next conual Con vention, in the following_manner:

"The Anti-Masonia and Whig voters of Alle "The Anti-Masonia and Whig voters of Alle-gheny county are respectfully requested to meet in their several election districts, on the last. Saturday in May, between the hours of 2 and 7 o'clock, P. M., and having appointed three per-sons to act as Jadges, shall proceed to vote by ballot for the persons they recommend far nom-ination for the various offices to be filled, and for one person as delegate to a 3 courty Conven-tion; the names of all voters to be recorded, and no one to be permitted to vote but well known members of the party. At'the conclusion of the polls the Jadges stall court the votes, and scal up their roturns, and give them to the perthe polls the Jadges rigill cout the votes, and scal up their roturns, and give them to the per-son elected as delegate, to t.ke to the county cuarention, to take place on the vert Wednes-dary following, at half-past 10 o'clock, at the Court House, where said returns shall be open-ed by the Freeident of the Courention, sud rad by the Secretary, and any person having the highest rote, provided it is one-third of all the votes cast, shall be declared nominated, and it vuccerain have an eithin of all the votes cast (so person has one third of all the votes cast f

ny particular office, the convention shall pro ced to nominate a person for such office." Some such plan, we think, would be a means of ascertaining the popular will, and would certhinly here great improvement over the present node, which has grown up to be an offence to many good citiz as.

Many good citizens. Mura's University is the title of a periodical of business could not well be imagined, and yet just started in New York, by Hermann J. Mey-er.. It will be published semi-monthly, and each the minister considerable annoyance.
