PITTSBURGH GAZETTE.

good promise that it will be a valuable accession to the Whig press of the Old Dominion. We bid our new friends welcome, with the best wishes for their success.

THE STATE OF

 $T_{Ne}$ 

or their success.

RAILBOAD IRON.—That a proposition, the cffeet of which would have been to admit railroad all obtained the entire means for their completion into the country free of duty, should have some within one vote of being carried in the road is to be made, and it will soon become reeome within one vote of being carried in the House of Representatives, as was the fact a few days ago, is an alarming evidence of the progress of the doctrine of free trade, and ought to stimulate the Whige and other frends of American industry to unwonted exertion to defeat the party whose pollor it is. It is the only way by party whose policy it is. It is the only way by structed in the olden time. which utter prostration and ruin can be averted County subscriptions, as a grand basis of from one of the most important interests of the operations, have been found to work admirably, country. Sax Insign latter in this possicountry. See Junius' letter in this paper.

lows Blections -We have received by mail fuller returns of the Iowa elections. The Demo-cratic State ticket is believed to be elected by a small majority—such a majority as can readily be overcome in November. For Congress, John P. Cook (whig) is elected in the Burlington Dis-trict, by from 700 to 1000 majority over Clark, bis locofoco opponent. In the Keckuk District, oco) is elected, beating Viele (whig) Henn, (locof ing ahead of his ticket. His majority

is not yet known.

The Iowa Senate is composed of 31 members. and the House of 63. In the last Legislature the Whige had four Senators and five Representatives. So far as heard from, at the recen election, our advices are, that the whige have the Allegheny Valley Railroad must inevitably cleated fourteen Senators, and feel quite sure of two more. The locofosos have elected fifteen This would give the Whigs a majority in the

We have heard of the election of 23 whige to the House of Representatives, and of 27 locofo-

joint ballot.

This is what the democrats claim as a victory.

But how stands the case? Where we had four

Henators in the last legislature we have now

Signs of contemplated fillibustering be-tin to show themselves in New York. The "Or-

and to lead to the happiest results, even where the interests were wholly agricultural; but here, along the line of the Allegheny Valley, we have not only a large agricultural interest, but imniense miueral and lumber interrets; the magni-tude of which can only be known through the

The content with that understanding. The effect of such a bill would have been even in the content of the conte ustrumentality of a great railroad thorough fare. Without it, they must be dormant for years to come; with it, they will, as if touched by the hand of magic, spring into importance n the instant. The increased value which such a work will give to the lands along the route work win give to use issues along the route, will far exceed the total cost of constructing the road, while the increased population which will flow into this fertile and rich basin, will furnish a daily increasing business for the road when finished. All experience must be falsified, or prove to be an entirely successful railroad. Its position, geographically, gives it the control of a wide scope of country. The Pennsylvania railroad runs from Pittsburgh almost due cast, while the Ohio and Pennsylvania road runs al-

most due west.

The Cleveland and Pittsburgh road, from Alcost, probably, a majority of ten or twelve on jelat ballot.
