CONGRESSIONAL.

WASHINGTON, Aug. 31.

SENATE.—Last night the Senate passed a bill constituting a Light-house Board. A message was received from the House returning the Army, Post Route and Post Office Appropriation Bills, when the Senate refused to recede from its amendments, which were not concurred in by the House and a committee of conference was then appointed.

On motion of Mr. Soule, the Committee on Mexican Claims was continued. The Senate Navy Appropriation Bill was returned from the House. The Senate insisted on its amendments and a committee of conference was appointed. Mr. Mason, from the Committee on Foreign Relations, reported resolutions on the subject of the Tehuantepec Grants setting forth that it is not compatible with the dignity of this government to prosecute the subject by negociation; that this government stands committed to protect the just rights of its citizens abroad, as well as at home, and should Mexico within a reasonable time fail to reconsider her position concerning said grant it will be the duty of this government to adopt such measures as will preserve the honor of the country and the rights of its citizens. The resolutions were read and ordered to be printed.

Mr. Brooks offered a resolution on the same subject still more belligerent, which was laid on the table. It provides that the Executive be requested to inform Mexico that unless the American holders of the right of way across the Tehauntepec, shall on or before the first day of March next be put in possession of their property and franchises, this government will proceed to protect them in the occupation and enjoyment thereof, and that if this determination should occasion a rupture of relations between the two Republics, this Government will rely for justification in the eyes of mankind, upon the obligation of every government to protect the rights of its own citizens from flagrant and indefensible violation of private rights and national law by Mexico.

The bill granting land for the benefit of the Insane, was considered, and an effort made to amend by adding other land bills.

Pending this discussion, the Senate went into executive session, and adjourned at eleven o'clock, P. M.

HOUSE.—The Fortification and other Bills were debated last night, but nothing was done up to the hour of adjournment.

SENATE—Tuesday.—The reports of the Conference Committees on the Army Appropriations and Post Route bills were concurred in.

The resolution offered yesterday by Mr. James for the appointment of a Select Committee to sit during the recess, to take depositions relative to general business and importations for the purpose of ascertaining frauds, to report next session, was taken up and adopted by a vote of 30 to 12. Messrs. James, Shields, Bright, Dawson and Bell were elected to constitute the committee.

The Senate then adjourned.

HOUSE.—(Tuesday)—The Committee of Conference on the Post Route bill made a report that the amendments most obnoxious to the House were omitted. The report was concurred in, as were also the Conference reports on the Army, Navy and Post Office appropriation bills.

Both Houses have suspended the 17th rule prohibiting bills from being signed by the President on the last day of the Session.

The House then adjourned.

Salem, Mass., Nov. 8th, 1851.

Mr. John D. Park—Dear Sir—It is with unfeigned feelings of gratitude that I am able, through the blessing of Providence of God, and by the wonder working agency of that excellent medicine, Dr. Guysott's Yellow Dock and Sarsaparilla, to give you a few symptoms of my almost hopeless case.

In the winter of 1851, I was attacked with a severe pain which was gradually extended through the whole right side and back. At times there was perfect paralysis of my lung and stomach also, my leg had shrunk to about two thirds of its former size, so that I was unable to walk without the assistance of a crutch. I procured the attendance of a skilful physician, who pronounced my disease one of the worst kind, and that I could not live. After a time I was one not easily handled, but prescribed for me. I procured a bottle of your Sarsaparilla, and I was unable to walk at all. After having taken four bottles more, I was able to walk one half a square without any assistance, and from time to time, until I was able to walk a square, and in a short time after I was restored to my former health of time, and I cannot ascribe the return of my health to any other cause than by the agency of that truly valuable medicine, Guysott's Yellow Dock and Sarsaparilla.

HANNEL VAUMIPER.

SALEM, October 14, 1851.

Mr. J. D. Park—Dear Sir—I was born in the Island of Jamaica, and so far as I am acquainted with his case, it is as follows: A scrofulous taint in the blood broke out in my throat and in time affected my face. I have been in the habit of using it as you think best.

W. A. BERRS.

The following letter is from a highly respectable physician, who enjoys an extensive practice.

Dr. John D. Park—Dear Sir—Dr. Guysott's Extract of Sarsaparilla, I have found to be a very powerful remedy for the last three years, with good effect, in several debilitating diseases, such as Dyspepsia, Scrofula, and other nervous diseases. In all Female Complaints, it certainly is unequalled.

In the use of this medicine, the patient constantly gains strength and vigor, a fact worthy of consideration. It is also free from all those injurious effects so often complained of in some with the more delicate stomachs, with safety under any circumstances. I am speaking from experience, and to the afflicted I submit its use.

DR. J. S. LEEPER.

Scrofula and Cancer cured by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla.

HUTCHES, Granger Co. Tenn.,
April 27th, 1852.

J. D. Park, Esq., Cincinnati, Ohio—Dear Sir—I gives me great satisfaction to add my testimony in favor of "Dr. Guysott's Extract of Yellow Dock and Sarsaparilla" to that of the numerous others who have already been benefited by the medicine.

My wife has been afflicted for the space of nearly five years with Scrofula and Cancer which, I think, found its origin in the constitution of her mother, previous to her sex, while, in the meantime, she was under the care of the most eminent physicians in this section of country, without deriving any material aid from their prescriptions.

Upon the recommendation of Dr. Cocke, one of our physicians, who had seen the medicine used with happy effect, I obtained of your agents there, Messrs. Hale & Farland, one bottle of Dr. Guysott's Extract of Yellow Dock and Sarsaparilla, and to my joy found
