JUBGE WOODWARD'S NATIVIEM.

The Post still preserves entire silence on the Nativism of the Democratic candidate for the Nativism of the Democratic Candidate interpret Suprems Judgeship. How are we to interpret this! First, and mainly, it is a confession of the truth of the charges. Could any defence be made it would not be delayed a day. Second, we may interpret the Post's silence as a deter-mination to let Mr. Woodward's election go by mination to its mr. wootwatt a closed of Gamp-default, as a punishment for the defast of Gamp-bell, or for holding Native American opinions, which the Post affects to abhor so much. Thirdiy, the Post may desire to elect Woodward, bu sees no way to defand him, and considers si sees no way to defend him, and considers si-lence the best policy, as by that meuns thou-sands of Democrats will never find out that they are voling for a candidate who endeswored to deprive all foreigners who arrived in this counry after 1841, of political rights.

But how does the Post account for the nom But how does the rost arcount for the nomi-nation of such a man by the Democratic party? What is the foreign population to infer from such sciont. Does it not show that all their pro-fessed lows for the rights of naturalized citizens is mers gammon, wholly void of all sincerity tness, and only used as a closk estah votev.
