seame faits. The sonsequences was, that the lives of the finamen were sparted, and at the close of the war they were embaried from England, and shortly after arrived in New York. Singularly enough, it is o happened, that on the very day of the landing of these old conrades of Goz. Socit on the what, their formmander and friend, then still suffering from his wounds, passed along the quay on block the was instantly recognized by the now libererted prisoners, and howing of all he had accompliabed in their be-half, they reaked upon him with cheers, express-ing a ferror of affection, gratinde, and delight, that is is impossible to describe. ? Their Sjdy was unbounded as the recognition became mutual. He was existed and shaken all the mingled pain of his wounds; and the emo-tions produced by such a heartfelt exhibition, caused even the tear of stalwar manhood to course unbidden down his cheek. It was with sifficulty he escaped from the grasp of these warm-hearted Hibernians, who rightfully re-garded him as their fast friend and benefactory, who had saved their lives, and restored them in safety to he land of their adoption. If the Irish lave a tire friand it is in General Boott. WHIL DONE, CLARICE !-- Gov. Johnston and Judge Buffington left Clarion on Tuesday evening, after addressing a large and spirited rall-road meeting. A most excellent feeling pre-valls throughout all that region towards the rallroad enterprise. The Grand Jury of Claric Bunty, which was in session at the time, prompt-ly recommended a subscription on the part of the county, of the full amount authorized h law, (\$168,000,) to the stock of the company, mbered by any conditions as to location or route. This is really very liberal, situated as that county is with respect to rival routes. We learned this gratifying fact from a letter from

a gratientant in Ciarion, dated the 8th fight, . So, Clarion county has the heator of being the first on the list, as to time; and we doubt not but; that the "good example will be speech ily followed by Jefferson, "Armstrong and Alle-ghany, se well as by the more northern counties on the line. The viewness procession and the DARWIN PHELPS. -The name of this gentle toan, who is on the Whig electoral ticket for the 24th district, is incorrectly spelled in some of the papers. One, now before us, has it Dorman Phelps. The name as it stands at the head of on the line. The vigorous prosecution and specty completion of the Allegheny Valley road this paragraph, is correct. Communications like the one signed "Peet

Hid that writer given us his name we should have inserted his articl subscriptions would have been beguh by Alighe-ny county, which is the one that will derive the ensions, vith pleasure, and shall do so when he compligreatest benefit from this road; and we expected that Armstrong would have been next, because with that condition.

The Scott meeting of the past week at a hundred points North, South, East and West, have developed the old spirit of 1640 and 1846. The Democrais well know and schwowledge, if we can arouse the masses, Gen. Scott's solid and brilliant thas-acter will stract the popular enthusian, and scatter their, olap traps upon the immutable principles of nothing at all like chaff. Anything to give zest and excitement to the Scott's popularity. The normination of Mr. Webser in yarious localities has had this effect. While it esanct possibly do Mr. Webser any

After he had concluded, Lyman Wilmarth, Erq., who is acknowledged to be one of the most active and energetio mem-bers of the Board, was called for, who addressed the meeting at some length, and diversifed his speech by reading extracts from papers publish-el at a distance, showing how this work in sp-presized abroad. He stated, which is emphat-ically true, that no projected Bailroad had ever boen presented with such vigor and snoozes as this road has since its commencement. Henry Souther then offered the following re-solution, which was unaninously adopted by the meeting: Resolved, That it is for the interest of Elk county, through her County Commissioners, after the finding of the Grand Jury to that effect, to subscribe the full amount allowed by the Act of Assembly to the Alleghany Valley Bail Boad; and that the cliszens of this county leave no ef-forts untried to effect this great vork. He was in favor of this county subscribing all she could to both of thes Roads.
