IMMIGRATION IN 1882.

We take from a New York paper, the following table of the amount of the immigration from the various countries of Europe to America, by sea, during the year ending September 30, 1882. It may be taken as a correct index to the relative number arriving at the different ports of the United States during the same period.

Germany	1,200	1,200
France	1,200	1,200
