Your committee recommend discretionary premiums to be awarded to Major J. Morgan, of Washington county, and D. J. Carrol, Pittsburg, for single harness horses.

As no previous exhibition will bear any comparison with this, either in the number or excellence of the horses, your committee has had some difficulty in determining the comparative merits of the horses presented; but they trust they have done this faithfully, the slightest partiality, and the best of their power.

Among the many horses exhibited some were excluded from competition by the rules of the society, and unless this be borne in mind your committee may appear to have overlooked horse well worthy of a premium. Not to enumerate all in this situation, two pairs of horses, Nos. 78 and 61, (the former belonging to John J. Sogden, Pittsburgh, the latter to Wm Denny, Indiana township,) if not excluded by the rules, would have been worthy of a premium, in the unanimous opinion of your committee.

They cannot, however, conclude their report without congratulating the Society on the happy result of their labors, which at once affords the best proof of their value, and their most appropriate reward.

WM. ADDISON,
GEO. S. HAYS,
ROBT PATTERSON,

POULTRY.

So fine were the fowls exhibited on this occasion that your committee had great difficulty in selecting those most worthy of premiums, and as an act of mere justice to exhibitors, recommend rewards upon several coops of very fine birds, in addition to those granted by the Society, the premiums were awarded as follows:

To coop No. 4, belonging to T. B. Updike, Allegheny, containing six red and buff Shanghais, the first premium of three dollars, for a best thorough bred fowls. These birds were distinguished by great beauty of form, fine size, and good plumage.

To coop 42, 43 and 44, exhibited by Dr. Grost, East Liberty, the premium of two dollars, for a second best thorough bred fowls, Brahmapootras and Hoang Ho. These birds were red Shanghai: and were nearly equal to those above named.

To coops No. 7 and 8, exhibited by T. B. Updike, premium of two dollars for six best chicks. These were six very fine red Shanghais.

To coop No. 9 (R. McKnight).—Premium for best Cochin China fowls—three admirable specimens of this variety.

To coop No. 6 (T. B. Updike)—For the three best white Shanghai fowls; premium of $2. The only fail grown specimens of this variety on the ground.

To coop No. 4 (T. B. Updike)—The best colored Shanghais; premium of $2.

To coop No. 5 (T. B. Updike)—Three white Dorkings; premium of $2 for best.

To coop No. 31 (R. H. Patterson)—Three Chittagongs; premium of $2. These fine birds were red, of fine size, and if in full plumage, would doubtless have been very fine.

To Coop No. 36 (R. H. Patterson).—Four Poland fowls; premium of $1 for best.

To Coop No. 10 (Robert McKnight).—Jersey Blues; premium of $1 for best.

To Coop No. 22 (W. C. Denny).—Fancy fowls. Scathright Bantams; beautiful little birds of good plumage and saucy carriage.

Discretionary Premiums.

To coop No. 47 (Dr. A. H. Gross)—Sumatra pheasant game; the hen imported by exhibitor. Splendid birds.

To coop No. 28 (Mrs. Wadsworth)—Three white Shanghai chicks; remarkably fine. Your committee hesitated to decide between the merits of these and those in No. 26, which were very beautiful and are especially deserving of notice, as being the largest lot of birds exhibited in one coop.

To coop No. 2 (Jacob Weaver, jr.)—Three beautiful Cochin China fowls.

To coop No 21 (W. C. Denny)—Pair of speckled darklegs; one other lot exhibited.

Ducks.

Of these but two varieties were on the ground. No. 24 (W. C. Denny)—Three Java Muscovado ducks; very large and handsome; premium of $1.

No. 3 (Jacob Weaver, jr.)—Pair white-crested Poland ducks; premium of $1 These were very beautiful birds.

Turkeys.

Three kinds—the wild, the white, and the common, were exhibited by John Chess, of Ross township, and, as there was no competition, each took its appropriate premium.

Pigeons.

Five varieties—Jacobins, croppers, carriers, almond tumblers, and smalls; all exceedingly beautiful, and the property of George Parkin, Allegheny; received a premium of $1.

Your committee cannot refrain from expressing their great satisfaction at the very fine show submitted to their inspection, and conceive that the exhibitors, who have taken so much pains to procure choice and valuable breeds, are worthy of the very highest praise. Although it may be invidious to make a distinction amongst so many fine birds, yet they would favorably notice the Cochin chicks, in No. 32 (R. H. Patterson); the Cochin-China fowls in No. 30 (R. H. Patterson). The Guinea in No. 37 (R. H. Patterson); and the splendid lot of white Shanghais in No. 28 (Jas. O. H. Denny).

More uniformity in the size and appearance of the coops would be advisable; and we would suggest to the Society the propriety of regulating the size of the coops, &c., before the next annual exhibition.

Although, with their farmers, the tenants of the barnyard are deemed but of small importance, yet late statistics show that an immense sum of money is invested in the worthless chickens, that destroy their gardens and ruin all plants to which they have access, whose roving propensities are so great that scarce any fence will confine them, and whose habits of largest liberty keep them in such a state of training that they are not captured in daylight without an arduous pursuit by all the children and dogs on the farm. And when taken they are found scarcely worthy the chase. Different from the restless, bustling multitude are the noble birds imported from Asia; these betray an aristocratic indolence, using barely sufficient exertion to keep them in good condition. Upon these therefore, labor is not wasted. Each grain contributes fairly to the growth and support of their stately bulk. As layers and mothers what common chicken can compare with them? We answer "none!"

For all these reasons, therefore, the committee would urge upon farmers, more especially upon members of the society the, necessity of procuring fowls of thorough breed and of approved varieties to cross with our common chickens.

In conclusion they would express the great satisfaction they feel at the superiority of the display at this exhibition over that of former years.
