THE RESULT IN PENNSYLVANIA.

The returns come in too slowly to arrive at any very definite result, with certainty, of the late election in this State, but two facts of great importance are pretty well ascertained.

One is, that the vote is a small one, probably 50,000 short of a full vote.

Another is, that the Locofoco party, with all its boasting and extravagant joy, has not polled a majority of the votes at the late election. We have not the data now before us to verify this, but will have in a day or two, when it will be seen that the Locofoco party is in a minority in the State.

The people opposed to Locofocoism are divided, and thus the Democracy rides into power, and not because it is the strongest.

We look for greater unity of feeling in the Presidential election. We hear very encouraging accounts from every part of the State. The Whigs from every quarter tell us, with the greatest sincerity and earnestness, "we shall do far better for Scott than the State ticket." They say, in some counties, "we will reduce the majorities against us"—and in others, "we will increase our majorities largely in November." If we can rely on the differences already promised, by sincere and reliable men, who are honest in what they say, we shall carry Gen. Scott by a very handsome majority.

We are glad to find that the Whigs are not disheartened. They are active and resolute, and determined to wipe off the disgrace of our late defeat, and we believe they will do it.

NO TIME TO BE LOST.

In two weeks from this day, the Presidential election takes place. Whigs are you ready?—Friends of General Scott, are you prepared for the contest? What you do, do at once. Delay not to perfect your organization. You have every thing to encourage you, because you have a strong man, and one who has the confidence and attention of the people, as your leader, and if victory is won under difficulties, so much more glorious will be the triumph. Now, for a short, active, and brilliant campaign!

☞ The Democratic and Free Soil Convention which met at Dedham, Massachusetts, on Thursday last, consummated a coalition ticket for State Senators. The two bodies having signified, through committees of conference, their willingness to form a joint stock party and share the profits, a ticket was agreed upon containing the names of two Democrats and one Free Soiler.

☞ We learn from Washington that the attention of the President has been called to the reported outrage on the American flag by the authorities of Cuba. The most prompt measures will be taken to investigate the facts, and if they should corroborate the reports now prevalent, ample satisfaction will be demanded.

☞ The cholera has broken out at Wheeling. Twelve cases, seven of them ending in death have occurred.

☞ The Japan Expedition it is now thought will sail about the 19th proximo. It is to consist of eight vessels, mounting 219 guns. The old frigate Macedonian has been added to the squadron.

☞ The owners of the Crescent City have decided to retain Mr. Smith as purser, notwithstanding the determination of the Cuban authorities to prevent his entrance into their ports. They say, it will be remembered, even the steamer to Havana once more, which will bring matters to a speedy issue.

☞ It is stated that L. C. Levin, editor of the Philadelphia Sun, and Native American candidate for Congress, will take the stump for Pierce and King in a short time.

☞ Col. William S. Hamilton, a Democrat of long standing and great influence in the parish of West Feliciana (La.) has declared for Gen Scott. He served as an officer in the war of 1812-'15. He has always been an unwavering Democrat, and in 1830 he was the Jackson candidate for Governor of Louisiana.

☞ A meeting of the democracy of New York city was held at Tammany Hall, last week, in relation to the recent Cuban outrages. The chairman, in his opening speech, was for the immediate declaration of war by our Government. Resolutions were adopted to the same effect.

☞ *Le Phare*, (The Beacon,) a French journal published at New York, appears tri-weekly, instead of weekly as formerly. It is gotten up after the European style.

☞ The Webster party of North Carolina is dissolved. At a recent meeting in Wilmington, to decide upon the course to be pursued, the friends of Mr. Webster adopted a resolution declaring its dissolution, and giving its members the privilege of voting as they choose. After affairs have taken this turn that State may be regarded as safe for Scott and Graham. Webster would have drawn off many Whig votes, which will now, without hesitation, be thrown for the regular nominees.

☞ The steamer Star of the West arrived at New York on Friday from San Juan. She brings no California news, being anticipated by advices by way of the Isthmus. San Juan was healthy, and no difficulty is now experienced in crossing by the Nicaragua route. This steamer brought $150,000.

☞ The Rev. Samuel B. Wylie, pastor of the First Reformed Presbyterian Church in Philadelphia, died last week. He was among the most eminent clergymen of that city.

☞ The House of Bishops, in session at Burlington, N. J., have resolved, by a vote of eight to six, to acquit Bishop Doane without proceeding with the trial. The Convention then adjourned sine die.

☞ Gerrit Smith is stumping New York State for Hale and Julian. Seymour, the Democratic candidate for Governor of that State, is also making speeches in favor of the nominees of his party.

☞ On Thursday night the schooner Boonsant, of Brooklyn, was run down by a steamer. All on board are supposed to have been lost.

IMPORTANT FROM WASHINGTON.

WASHINGTON, Oct. 15, 1852

The Government is informed that there are enrolled in New York 2000 men and boys, for a new foray upon Cuba, whose haunts are well known, and places of rendezvous, and of whose movements and intentions the Government is well informed.

Despatches have gone on from this city to the officers of the Government in New York, for a complete and effectual execution of the Neutrality laws, and for obedience to all our treaty obligations, and the law of nations.

The Collector of the port, and the U. S. District Attorney, must have such despatches by mail to morrow morning.

The movements of the U. S. ship of war in N. York have reference to the execution of our own law, as well as the enforcement of treaties with Cuba.

The President will do his duty, and his whole duty, inflexibly—just as he did before—without fear or favor.

The U. S. army and navy forces in New York will probably be put under the order of the U. S. District Attorney, if they are deemed necessary for the enforcement of our laws.

The owners of the Crescent City, it is certain, will not remove Parser Smith, and the Government will not permit the mails to be interfered with.

The owners have made representations to the Government, showing that this is not the first time the Cuban authorities have interfered with them wrongfully.

The Lobos quarrel is unchanged. The Peruvian minister has made no concessions.—*N. Y. Express.*

FROM WASHINGTON.

Correspondence of the Pittsburgh Gazette.

WASHINGTON, Oct. 14, 1852.

Effect of the Election Returns—Cuba and Annexation—Removal of the Collector of San Francisco—Illness of Mr. Webster—Critical Position of the New York Banks.

Election news absorbs our attention. Pennsylvania has gone with the enemy on the State ticket, though in Congressional candidates, in respect to whom alone any national issues could come into question, we have gained signal advantages. We have gained two members, and have sustained ourselves in other districts where there was the greatest reason to apprehend losses. This settles the matter as to the Presidential election. When General Scott himself heads the charge, who can doubt the result. It seems that the good whigs of Allegheny county cared more about their Sheriff, than the whole catalogue of State officers. This circumstance alone has cost us two thousand votes, which are good for General Scott. In the great whig strong hold of Lancaster, another local question lopped off more than a thousand from our majority. But besides all this, there are at least 50,000 voters who did not think it worth while to bestir themselves at this election who will come out in November, three-fifths of whom will vote for Gen. Scott.

From Ohio and Indiana we have nothing decisive. But we know that we have there also made gratifying gains in the Congressional delegation—showing that no national issues the people are right. It is a very expellent sign of the good time coming, that we have gained Congressmen in every State that has yet chosen, except in one, and there we have held our own.

The new steamer Powhatan is under sailing orders for Havana, and perhaps she will be permanently stationed in that vicinity. The prompt and decisive action of our Government will prevent the repetition of such outrages, and extort from the Spanish authorities a suitable reparation for the insult. An agent for the State Department will be sent to Havana with instructions to report upon the late occurrences.

In the mean time both political parties have commenced in New York, an agitation for the annexation of Cuba. It will not make much headway during the existing struggle, but will claim the early attention of the in coming administration.

It is said that Hon. T. B. King has been removed from the office of Collector of Monterey, upon charges of improper conduct in respect to his accounts.

The Webster men are determined to injure the reputation of that great statesman beyond the possibility of redress. Their course is certainly open to the most unfavorable comment. Mr. Webster lies seriously ill at Marshfield, and probably does not know the use made of his venerable name. At all events he is in no condition to take such notice of it, or his sense of duty would prompt him to do, if his health permitted him to take a part in the campaign. The movement will exercise no serious influence out of Massachusetts, and cannot deprive Gen. Scott of his electoral vote.

The New York banks are in the most wretched condition at this epoch, that they have been for years. It is a fact that the forty one banks of that great commercial and financial capital, have on hand but a million dollars less coin than the six banks of New Orleans. Such a state of things cannot be sound. But while the New York banks are empty, the Sub-treasury is choked up with gold and silver. Some serious disturbance to the regular course of trade must be at hand.

In the mean time here in Washington, we have six times as many banks as New Orleans, and nearly as many as New York, and not quite as much specie as either. But our vaults boys never yet been sounded.

JUNIUS.

THE HAVANA DIFFICULTY.—The recent proceedings of the authorities of Cuba, in reference to the detention of the barque Cornelia, and the refusal to allow the mail steamer Crescent City to land her passengers, have called forth strong manifestations of public feeling in various cities. New York and New Orleans have been the scenes of large meetings, at which the action of the Captain General of Cuba has been denounced in terms not less severe than those applied to the rule imposed by Spain upon the richest of her colonies.

The two occurrences as now understood, are well calculated to produce this excitement. It is illegal, in one instance, that a mail steamer was not permitted to enter the port of Havana, or to land her passengers, in consequence of having on her purser an individual for whose incurred the displeasure of the local authorities; and, in the other, that a New York barque was temporarily seized by Spanish troops, her master carried on shore in custody without proper pretence, and that her letter bags were rifled in search of letters and documents of an obnoxious character. This is the statement as it is now before the American people; and we admit that if the facts be as they are thus described, they afford justification for much of the criticism that has emanated from the press upon the subject.

At present, however, we are in possession of only *ex parte* representations. Our Government have no knowledge of either of the cases beyond that derived from the published accounts, which, however accurate in their general tenor, scarcely form satisfactory data for the direction of governmental policy.

With the view of ascertaining the whole aspect of the affair, it is understood that Judge Conkling has been instructed, during his stay at Havana, to obtain a full and authentic statement of the facts connected with the proceedings. The country will perceive, therefore, that the Government are not indifferent to the force of the events, or unmindful of the steps which they have rendered necessary. What further action may be called for in the premises, is a question altogether dependent upon the result of the inquiry now authorized.—*Republic of Saturday.*

MARYLAND.—The Upper Marlboro' Gazette of the 13th makes the following encouraging report of the Whig prospects in this State:

"A gentleman who has been on an electioneering tour through Maryland assures us that the prospects of old Chippewa are brighter than ever in his most ardent friends anticipated. He tells us that Somerset, Worcester, and Dorchester will give us twelve hundred majority; Saint Mary's, Charles, and Calvert will give a larger majority than they gave Gen. TAYLOR; and that the upper counties of the State will surpass all their former glorious achievements. Maryland is safe."

VIRGINIA.—A business letter from Taylor co., Virginia, says:

"Our cause is gaining new supporters every day in this county, and in Northwestern Virginia generally; and it is the opinion of our best informed politicians that we would carry our State for SCOTT and GRAHAM if every county would do as well as we intend doing in little Taylor.

PENNSYLVANIA.—*Crawford Co.* (to part,) gives a small Whig gain of 8 on last year. The vote is very light. One Whig member probably chosen. Our friend who writes us three facts from Townsville says:

"Scott's prospects still looks well. He is gaining every day."

MISSISSIPPI LEGISLATURE.—Both Houses of the legislature met on Decision, on Monday, the 4th inst. The Governor's message was received, read, and referred. On Tuesday, in the Senate, a joint resolution was offered to limit legislation to a session, of the proclamation and message. An effort will be made for the election of United States Senator was voted down, 17 to 8. A resolution passed to embrace all matters referred to in the message. The document referred to distributing the State, the election of United States Senator, internal improvement, and the subject of revenue.

MARYLAND.—A gentleman who has been on an electioneering tour through Maryland, assures us that the prospects of old Chippewa are brighter than even his most ardent friends anticipated. He tells us that Somerset, Worcester and Dorchester will give us 1200 majority—St. Mary's Charles and Calvert will give a larger majority than they gave Gen. IRISH EMIGRATION.—The movements of the Irish population from their native land to other countries is said to be going on at an unprecedented rate. The Cork Journal thus mourns over the exodus of the people—

All parties among us are seemingly turning their faces to the far West—the home beyond the deep. Old, middle aged and young, are on the move, leaving the old country, where there seems to be no hope, for the young where hope is budding with the certainty, in their imagination, of bearing good fruit. It is really distressing to contemplate the changes that a few years will effect in Old Ireland if the desire for leaving that now agitates the people shall continue. Before this period of the year until the present, all idea of leaving for America was deferred until "spring returned again." The season for emigration closed at the beginning of our harvest, and the people never thought of facing the winter's gale before the coming spring; but now spring, summer and autumn are alike. The streets are daily crowded by families on the move. It seems to them as if they had only to travel a hundred miles, instead of thousands—And why is this? There is now one great inducement in addition to that which before inflamed them, and that is, their people are there before them. The old remembered faces that disappeared a few months since, are waiting with the blush of hope to assist them to leap ashore on the land of their adoption, and to keep once more under the same roof with a son or daughter that they never hoped to see on this side of the grave. This is now a great cause for the long continued stream of emigration. Yesterday, nearly the entire day, the street was crowded with cars, waiting for families to complete their arrangements with the emigration agent. They are gone, and the numbers are sufficient to leave a blank in the parish where they resided, that will not be easily filled

AMONG the decrees in the Moniteur is one investing all the ports of France to compete in foreign carrying service with the nations. The design is to collect the proceeds into a monumental fund, which shall be a monument of the royal munificence of the President, and in some measure serve to perpetuate the glories of that potentate, in the shape of canals and steamers—The Moniteur also says that the duties on foreign materials, are to be presented with some baubles or ribbons as a token of good doing

The North Carolina Legislature has passed the law now with a proviso for the election of Presidential Electors by the people at large instead of by districts. The bill for the call of a convention to amend the constitution is now in the hands of the enrolling committee, and will be reported to-day. It remains in session until all the business before it is disposed of.

Notice.

IN consequence of the refusal of the Canal Commissioners to reduce from the last season's rates of toll on Passengers upon the Columbia Rail Road, passing the Inclined Planes, the Proprietors of said Road, have heretofore been compelled to charge the Rail Road Transportation Companies, as well as individuals, the full rates of toll, and have been treated nearly all the time by the last physicians our country affords, I occasionally get some relief, but no cure, and continued to grow worse, until Dr. Reed was recommended to me to try the Anti-Con. of Rock Oil, as every thing else had failed. I did so without faith at first, but the effect was astonishing: it threw the poison to the surface at once, and I at once began to grow better, and by using seven bottles I have again a sure worth thousands of dollars.

MRS. NANCY M. BARKER.

This may certify that I have been acquainted with Rock Petroleum, or Rock Oil, for more than a year, and have repeatedly witnessed its beneficial effects in the cure of the most inveterate and other diseases. I take pleasure in recommending, and can with confidence recommend it to be a medicine worthy of attention, and can safely say that no disease has attended its use, where other medicine had failed.
