SCOTT RALLY.

There will be a meeting of the friends of Scott and Graham, at the American Hotel, on Wednesday, October 20th, 7 o'clock, P. M.

Hon. Andrew G. Curtain, J. R. Edie, and others will speak. The Second Ward Glee Club will be present.

ROBERT McKNIGHT,
Chairman of the Scott County Com

On our first page will be found interesting matter in relation to the late Cuban outrage, the expected revolution in Australia, and the rebellion in China.

Several articles intended for this paper were crowded out, among which was a communication concerning the Allegheny Valley Railroad—a communication by "J. M.," in reference to the presidential election; and a Card, concerning a large sale of real estate, to take place on Saturday, in Birmingham; all of which shall appear to-morrow.

We understand that the Allegheny City 6 per cent. loan, of $200,000, for the Ohio and Pennsylvania Railroad, has been taken by Messrs. KRAMER & BAIRD, bankers, of this city, on favorable terms for the Railroad Company.

TO OUR FRIENDS IN THE COUNTRY.

It is now a week since the election. When we sent out our last Weekly paper the returns were just beginning to come in, and presented a rather gloomy appearance. Since then the mists have partially cleared away, and the aspect of things is far more satisfactory and encouraging than they appeared at the first blush.

The Locofocos have carried their State ticket, by a majority of about 10,000. This result is not at all surprising or discouraging, when it is considered that there was but a small vote cast, and that the Whig party was laboring under local disadvantages in nearly every county where they have large majorities. In Philadelphia, Lancaster, Dauphin, Somerset, Allegheny, Erie, and Lawrence counties, there were local issues operating against the Whig ticket, which greatly diminished our majorities. All these things will be out of the way, when the plain question is presented between Gen. Scott and Gen. Pierce. We don't then roll up our usually large majorities in those districts, and thus change the whole aspect of affairs.

There are about 1800 election districts in this State. Now, let any doubting or depressed Whig look about him in his own district, and ask himself in all candor, how much better his district will do for Gen. Scott than for the Whig ticket at the late election, and then let him multiply the gain by 1800, and see how easily it will sweep off the 10,000 majority against us. Why this majority will disappear like chaff before the whirlwind. The Whig who doubts the most, and is the most fearful, will tell you,—"Oh, we shall do far better for Scott than for Buchanan or Hoffman at the late election. We are certain of that!" Well, what is there to discourage, then? We have seen gentlemen from almost every county in Western Pennsylvania, and from every district in this county, and this is the universal testimony. It is also the testimony of the press, and of all sound men, and it is also the voice of reason and prudence.—*Gen Scott will secure the Whig ticket everywhere!* He has great personal and historical popularity. He will get thousands of votes from this cause, which no other man could get. His opponent, Gen. Pierce, gains nothing in this way. There is nothing attractive in his character or reputation.

With all these advantages, who can doubt that Gen. Scott will carry this State, if there is any concentrated effort and determination on the part of his friends?

Where the Congressional Districts come to be footed up, we think it will be shown that the majority against us is not as large as it now appears. By another weekly issue we shall be able to present our readers with accurate data, but in the meantime we beg leave to assure them that there is nothing to discourage them, or to cause them to intermit their efforts; but much to the contrary.

Now we earnestly ask every reader who is a friend to the election of Gen. Scott, to consider himself as especially charged with the interests of our noble candidate in his own election district. Make inquiry immediately, in the proper places, whether your own particular election district, township, or ward, is properly organized, and whether every thing is done, *that can be done*, to secure as large a vote for Gen. Scott as possible. Do not say, that it is none of your business, for it is, as much as it is your business to be a citizen and to vote. Do not, say, that others will attend to this, and that it is not necessary to trouble yourself. This is the way sluggishness are lost. Do not permit yourselves to feel so, until you are perfectly satisfied that your own particular district *is ready!*

Enquire, who is not naturalized, that is eligible, and who needs to be assessed, to secure his vote. Get your work all done, your forces all marshalled, your arrangements for bringing the sick and infirm to the polls all made, your committees of vigilance to attend the polls all drilled, and then, when every thing is done that can be, you can survey your work with complacency, and anticipate a brilliant victory in November!

The Captain General of Cuba is assuming a still stronger position respecting the steamer Crescent City; he absolutely refuses to have any communication with her, even through the American Consul, and persists in denying her the privilege of landing her passengers and mails. This kind of conduct, in direct violation of treaties with the government of which he is the representative, will not be allowed to pass without a demand for ample satisfaction at the hands of that power. Our Government has already taken the matter in hand, and has adopted measures to investigate the question before proceeding to extremities. In the meantime a naval force sufficient to prevent any insult to our flag has been sent to the scene of the late difficulties.

See telegraphic column for account of the steamer's reception at that port.

THE WHIG CAUSE IN CALIFORNIA.

The San Francisco Whig, of the 16th of September, has the following paragraph in relation to the political prospects in California:

"Our Whig friends at home will learn with interest that our prospects are of the most cheering nature throughout the length and breadth of our State. The resignation of the Hon. J. M. Houtington, and the nomination of John Chetwood, Esq., as the candidate for the supreme bench, has caused no dissatisfaction; and our party ties are as strong and binding as unity of purpose can ever make a cause."

The Whigs of El Dorado are at work. The Sacramento Union, of the 15th ultimo, remarks of them:

"We are glad to learn that the gallant Whigs of the Empire county are affecting a complete organization and are working in the good cause with a fixed determination to carry the county for Scott and Graham. They are working like men who not only believe their cause to be just, but also know it to be the cause of justice, of liberty and of the people; and we are confident their labors will be crowned with success.—They will soon have some of our noble Whig standard-bearers among them, to lead them on to new Locofocian, 'horse, foot and dragoons,' in a county which promised to give a majority of 4000 for Democracy and did succeed in giving about 400. We are certain the Whigs in this great mining county will give a good account of themselves on the day of election."

THE SCOTT MEETING TO-NIGHT.

The friends of Gen. Scott will hold a meeting to-night at the American Hotel, on Penn street. As this is the first meeting since the annual election, and as we are within two weeks of the November election, we confidently look for a large and enthusiastic turn-out. Whatever excuse there may have been for carelessness or neglect heretofore, there can be none now. Every man in the community who esteems the Presidential election of any importance, and who prefers the time-honored and noble Old Hero of Lundy's Lane and Mexico, with all the rich and patriotic associations which cluster around him, to a new, unknown and untried man, should be present at the meeting—thus, by his presence pledging himself to sustain his principles and candidate.

The gentlemen who are to speak are eloquent, earnest and distinguished men, who come to tell us what our Whig brethren are going to do in other parts of the State. Let us give them a hearty greeting, and send them home with the assurance that Allegheny county will redeem herself in November. We hope no professed friend of Gen. Scott will be absent. We do not see how any true friend of Old Chippewa can be, unless hindered by circumstances beyond his control.

"Overcome your disaffection; relinquish your preferences; forget your disappointment, and strike one united blow for the maintenance of the Whig cause and the good of the country."

So said Webster in 1848 when a portion of the Whig party were faltering in the contest for principle, because the leader of their choice was not the choice of the party. The Whigs did so then and a glorious victory was the result, let them do so again and another equally glorious triumph will follow.

During the campaign the more conservative portion of the Locofoco press, prostituted their columns to the circulation of the following base forgery:

"You are instructed not to enlist foreigners, for the battalion of St. Patricks has taught us that foreigners cannot be trusted."—*Gen. Scott's Instructions to his Recruiting Officers during the Mexican War.*

Of these, the Hartford Courant says:

When they inserted the above article, they must have known that it had been contradicted. Under date of Oct. 8, 1852, Captain Seymour Hamilton, one of General Scott's aids during the Mexican war, who knows what Scott's instructions were, pronounces it as utterly and unqualifiedly false. He declares that the statement is a base forgery. This letter was published in the National Intelligencer of Oct. 9th and has been repeated in many of the Whig papers, and yet these papers still publish the falsehood.

INDIANA—HOPE LEFT YET!

The Cincinnati Gazette—good authority—gives the following account of Indiana. For our part we have never counted upon that State for Scott, but we yield our own opinions to those whose opportunities are better for arriving at a correct judgment. The Gazette of Monday, says:

INDIANA.

Our Loco Foco neighbors are making a great parade over what they choose to claim as a triumph of 15,000 majority in this State for Wright for Governor. We have no objection to their inflating themselves with their own peculiar gas, but would caution them to keep cool now—as we consider fact much more reliable than assertions—we propose to show how things in Indiana really are. As to Gov. Wright, he is not only a Loco Foco, but he is every man's man—he embraces every interest in the entire circle —and at the recent election has received from 4,000 to 7,000 Whig votes; this may be called assertion, but now for the facts.

Suppose Gov. Wright's majority to be 15,000 which, however, we do not admit. Then there are 90 odd counties in the state, and carefully comparing the vote for Governor with the vote for the Loco Foco candidates for Congress in the majority of the counties of the State, which are already received, we find Wright to have outran his Democratic brethren from 50 to 450 in every county, making a full average of 185 for every county. Now this average for the ninety odd counties would exceed 12,000 in the State, and deduct this amount from Gov. Wright's claimed majority, and the majority for the Loco Foco candidates for Congress would be reduced below 3,000.

The vote for members of Congress in this State is the only test in this instance as every one knows. Now, where will this apparent majority of short 3,000 be, when the old hero of Chippewa comes upon the course? It will vanish like a white frost before the noonday sun.—Whigs, awake—buckle on your armor—Indiana will go for Scott and Graham.

OHIO—ALL RIGHT.

Our Ohio brethren are in fine spirits, and are resolved not only to gain victory, but to *deserve it*. Let Pennsylvania Whigs imitate so noble an example. We clip the following articles from the Cincinnati Gazette of Monday, the 18th:

WHIGS, STAND TO YOUR ARMS.—Our accounts from reliable sources in all parts of the State, assure us of the confidence of the Whigs in their power to carry the Buckeye State for Scott and Graham, and their firm determination to exert that power to the utmost to effect so desirable an object. That is the right spirit, and that resolution acted up to, will give us the majority. We have gained largely in the popular vote, and when old Chippewa himself is on the track, we must inevitably succeed, if we go to work right. There is no time to give way. Let us rally as one man, renew our work diligently, and with a will. *Do this and we must succeed.*

From an examination of the votes in this State as far as they have been received, we are satisfied the Locofoco vote on the State ticket cannot exceed 10,000 majority, and on the Congressional one it will fall below 5,000. Judge Caldwell, who heads and leads the Locofoco State ticket, is personally popular, is nearly allied to the Freesoil party, and has cut run with friends in nearly every district. In seven counties on the Western Reserve the whig majority is now 183, where, in 1848, Cass beat Taylor 2,078, making a Whig gain of 2,261. The entire Reserve, we say, has given a Whig majority of 4,000. Cass' majority in the State was 16,414 —one-fourth of which is used up in these 12 counties. It is well known that in the past State Election a small vote was polled, and we have every assurance from our intelligent friends in numerous Whig counties, that they will increase their majorities at the Presidential Election from 200 to 500 each

The Reserve appears to be the only part of the State where anything like a full vote has been cast, and there the Locofoco vote has considerably fallen off, and gone over to the Freesoilers, and in the Presidential contest the same thing will occur to a much greater extent.

Our decided opinion is that if every Scott man—every individual who admires and wishes well to the People's candidate, will turn out and act vigorously on the 2d of November, that the hero of Chippewa, in the Buckeye State, will come out of the contest with a large majority.

THE RESULT IN THE STATE.

—The returns continue to come in slowly; and as the majorities and votes are generally only reported, they do not make very safe data for calculation yet. The indications are that a full vote has not been polled, which always operates more to our disadvantage than our opponent's. Our gains are, notwithstanding, very encouraging, and show what we might have done with a better organization, and what we will do in the Presidential election, when we will be able to get our whole strength out with much less effort. In thirty-four counties, we gain *fifty-four hundred and thirty-two* on the vote of last year; a like gain throughout the State will reduce the twenty-six thousand majority against us last year to almost or quite nothing. It is probable, however, that the sum will not be so large in the counties yet to come in, as they were not so well organized. Gen. Scott is many thousand stronger than our State ticket, as the result in November will very plainly show. We have no doubt that he will carry the State then by a decided majority.

We have not included in our calculation the vote of this county, because we have wished to make it as fair as possible. Had we done so, the aggregate of gain on our side would have been increased nineteen hundred or two thousand votes, making our gain in these counties between *seven and eight thousand.*—*Cin. Gaz.*

WISCONSIN.—The following extract from a private letter, dated Milwaukie, October 9, will be read with interest. The writer is as thoroughly acquainted with the state of parties in Wisconsin as any other man in the State:

"Parties are well organized here. Every exertion will be made by each, but if I am permitted to judge by present indications, Scott will carry the State. Since my tour through the Northern counties, I am more sanguine than ever. The people of Wisconsin cannot be induced, either by persuasion or menaces, to support the anti Internal Improvement candidate. The Whigs are confident of success. They are fresh—ly offering to bet on the result in this State, Michigan, Indiana and Illinois. The Democracy, try to seem confident; but theirs is the courage of despair. They predict success, while they anticipate defeat."

Mr. Thomas Baldwin, whose leg was broken by an accident at the railroad station, in Washington, a week ago, has died from his injuries.

A most extensive system of telegraphic communication is to be constructed west of the Mississippi in a short time. It is to connect all the principal cities and towns of Louisiana, Arkansas, Missouri and Iowa, and will co-operate with the eastern lines in the transmission of intelligence. This is an enterprise which it is high time to carry through, in order to bring our whole country into instantaneous connection.

We learn from the St. Louis Republican Major Norwood, Indian Agent for the Sioux, was murdered on the plains, on the 20th ultimo. Major Norwood had also a general supervision over all the tribes of the Upper Missouri.

MORE BRITISH AID FOR THE DEMOCRACY.—Wilmer and Smith's Times, published at Liverpool, has the following paragraph, which we commend to the supporters of the British candidate. The Times says:

"As regards England, public sympathy, it is needless to say, is enlisted on the side of the Democratic candidate. Not that Gen. Pierce is considered the better man. *Far otherwise.* He is merely accepted as the nominee of that great party in the Union who desire to push the principle of free trade to its utmost limits."

The New York Herald has become the veritable organ of filibusterism in that city. Hear it:—

"There never was a time when this country could better to invade Cuba. The treasury is overflowing with money; we shall have a surplus exceeding twenty millions by the end of the year. The cost of the expedition could not exceed fifty millions. The creoles now pay to Spain about eight millions a year. They could well afford, if they were annexed—and they would be but too happy to purchase freedom at the price—to pay us twelve or fifteen millions a year to reimburse our expenses.

FROM WASHINGTON.

Correspondence of the Pittsburgh Daily Gazette.

WASHINGTON, Oct. 16, 1852.

The Elections—Judge Conkling gone to Havana —The Cuban Question and European Politics—Mr. Webster's Health.

The results of the election, so far as known, are exactly such as were required to arouse the Whigs to the highest point of activity. In Pennsylvania, two States officers of no political importance, receive eight or ten, possibly twelve thousand majority. At least fifty thousand voters staid at home, three-fifths of these undoubtedly were Whigs, since it is well known and universally conceded, that Whigs are more remiss than their adversaries in attending elections. Secondly, nearly all those Democrats who intend to vote for Scott, staid at home, as they have no wish to oppose their party farther than their preference for Scott requires. Our last despatch from Ohio, states that it has gone Democratic on the Governor State ticket, by about five or six thousand. We can overcome that majority with perfect ease, and will do it. As to Indiana, reports represent there a *state quo*, and would seem to indicate that the Hoosiers adhere to their Democratic propensities. The Democrats have been shouting for a week or two over Florida redeemed, but although the votes is close, the latest accounts seem to assign the Peninsula State to the Whigs.

It is rather unpleasant to have to admit the probable loss of the House of Representatives. But this was unavoidable from the beginning, and was a necessary consequence of the control the Democrats had acquired in the State Legislatures, giving them the power to lay out the districts according to their local majorities. It is said that Ohio was apportioned so as to exclude the Whigs from any reasonable chance in all but four districts; yet they carried six.—Upon the whole, there is nothing to discourage us, but there is every thing to nerve us to more energetic exertion.

"Sweet are the uses of adversity,
Which, like the toad, ugly and venomous,
Wears yet a precious jewel in its head."

The President has judiciously ordered Judge Conkling, the new Minister to Mexico, to pass by the way of Havana, and to make a call upon the Governor General. He will report upon the two outrages upon the Crescent City and the brig Cornelia, which promise to be as fruitful of strife as the abduction of the fair Helena. It is no doubt partly in view of suspected designs of the United States upon Cuba, that the new French despot, perhaps erroneously Emperor, has increased to such a prodigious extent, the naval power of his country. That he is prepared to sustain the Spanish Government in its aggressive proceedings, is not doubted by careful observers of his policy. He requires a brush with some foreign nation as a cover to his schemes upon his own count y, and he would be supported in a collision with the United States on behalf of Spain by the rest of Europe.

Mr. Webster continues at Marshfield, seriously, if not dangerously, ill. It is considered by many improbable that he will ever resume the duties of his responsible office. I much fear that the melody of this great Statesman, whatever be its specific name, proceeds from a general breaking up of his system, and that the term of his life as well as of his public services, is fast approaching.

JUNIUS.

REV. SAMUEL BROWN WYLIE, D. D., died at his residence in this city, on Wednesday evening, in the 80th year of his age, and the 53d of his ministry, having been for the latter period pastor of the First Reformed Presbyterian Congregation. Dr. W. has occupied also, for a long time, the chair of Theology in his church, and was Professor Emeritus of Greek, Latin, and Hebrew in the University of Pennsylvania. He was among the most distinguished clergy in our country, a finished belles lettres scholar, an able theological controversialist, a preceptor who gained the love of all who studied under his care, a pure-minded friend of man, and a meek and genuine Christian. For more than half a century he has been zealously engaged in advancing human learning on earth and preparing his fellow men for the enjoyments of futurity. His success has been as complete as his exertions were distinguished, and his death will be deplored, not only here in the immediate sphere of his usefulness, but throughout the Christian world, in which his learning, purity, and high-toned character have left behind an example for emulation. Truly, a good and great man has passed away, full of honors, and ripe for his home among the blessed.—*Phila.*

OHIO.—The "Miami Tribe," in Hamilton co., is so badly beaten that the Cincinnati Enquirer beseeches McLean and Rule, on the electoral ticket who are members of that tribe, to resign. One or both will probably do so.—*State Journal.*

Worms.

As this is the season of the year when Worms are most formidable among children, the proprietors of WILLARD'S Vermifuge beg leave to call the attention of parents to its virtues, for the expelling of those annoying and often fatal enemies of children. It was invented by a physician of great experience, in Virginia, who, after having used it for several years in his own practice, and found its success so universal, was induced at last to offer it to the public as a cheap, but certain and excellent medicine. It has since become justly popular throughout the United States, as the most efficient Vermifuge ever known and the demand has been steadily on he increase since its first introduction to the public.

The great Worm Specific may be had from most Druggists and Merchants in town and country, also by the sole proprietors,

Scrofula.

IT is due to Kier's Petroleum to say that it has been known to completely eradicate every vestige of this dreadful disease in less time than any other remedy, and at less cost or inconvenience to the patient.

The thousands of certificates in the hands of the proprietor, many of which are from well known citizens of the city of Pittsburgh and its immediate vicinity, go to show clearly and beyond all doubt, that SAM'L PETRO-LEUM is a medicine of no common value, not only as a local remedy in Paralysis, Rheumatism, Deafness, loss of Sight, but as a valuable internal remedy, inviting the investigating Physicians, as well as the suffering patient, to become acquainted with its merits.

Those having a dread of mixtures are assured that this medicine is purely natural, and is bottled as it flows from the bosom of the earth.

The following certificate is copied from a paper published at Syracuse, New York, and bears date August 2, 1852, to which is also appended the certificate of the celebrated D. Y. Foot, M. D., of Syracuse:

This may in truth certify, that I have been so badly afflicted with Scrofula for the last seven years, that most of the time I have been unable to attend to any kind of business, and much of the time unable to walk, and confined to my bed, and have been treated nearly all the time by the best physicians our country affords; I occasionally got some relief, but no cure, and continued to grow worse, until Dr. Foot recommended me to try the Petroleum, or Rock Oil, as every thing else had failed. I did so without faith at first, but the effect was astonishing: it threw the poison to the surface at once, and I at once began to grow better, and by using seven bottles, I have got a cure worth thousands of dollars.

MRS. NANCY M. BARKER.

This may certify that I have been acquainted with Kier's Petroleum, or Rock Oil, for more than a year, and have repeatedly witnessed its beneficial effects in the cure of incident ulcers, and other diseases for which it is recommended, and can with confidence recommend it to be a medicine worthy of attention, and can safely say that success has attended its use, where other medicine had failed.
